FOREWORD

This report was progressively documented to capture all activities during the entire Census preparation and operation. The report may be used for future Census preparatory work as a resource to support the implementation of various activities for the entire operation of the project. The set-up of the core Census internal committee was on the 2nd of February, 2016. Nine subcommittees were then instituted for the management of work processes. They were the;

1. Mapping
2. Budget
3. Human resource
4. Questionnaire design
5. Publicity
6. Training
7. Purchase and Equipment (IT)
8. Data processing
9. Data analysis & dissemination

Documented by: The Household Survey Unit

Written by: The Census Project Manager/Coordinator (Ms. Maria Musudroka)

Edited by: The Census Commissioner (Government Statistician)

Please address all comments to Mr. Epeli Waqavonovono (epeliw@statfiji.gov.fj)

ACKNOWLEDGEMENTS

Resources allocated by Government for Population Census work is recognition of the importance of information collected during the Country's biggest data collection exercise. The key to evidence-based policy formulation is good data and a Population Census will remain a key source. Part 1 of the report (Administrative report) serves to provide information on the census activities while Part 2 of the report contains tables covering population distribution and change, functioning challenges, labour force, education, internal migration and Housing.

The Administrative Report and General Tables was prepared by the Household Survey Unit under the leadership and guidance of the head of department, the Government Statistician (Census Commissioner). I commend the effort of Maria Musudroka (PS HSU) and her core team of Mosese Qaloewai (Data Analyst), Harieta Sefeti (AS IT), Anare Motokula (SS Demography), Poasa Naimila (AS GIS), Salanieta Tubuduadua (AS Vital) and Mr. William Walker (UNFPA Infographics and Designer consultant).

The whole department approach towards the national exercise also contributed to staff development. It is in this regard that I acknowledge the effort of all the nine subcommittees who were tasked with specific activities. They were the Mapping committee, led by Mr. Sole Tubanaika, the Budget committee, led by Ms. Amrita Josu, the Human resource committee, led by Ms. Filomena Browne, the Questionnaire design committee, led by Ms. Raikoti, the Publicity committee, led by Ms. Emali Soderberg, the Training committee, led by Ms. Kelera Nokelevu, the Purchase and Equipment (IT) committee, led by Mr. Reenesh Latchman, and the Data processing, Data analysis & dissemination committee led by Mr. Jone Fifita.

I acknowledge the efforts of the senior officers at the Household Survey Unit Hakim Mohammed (SS Nadi), Sereima Rokobuli (FS Ba), Avinesh Prasad (SS Northern), Emily Dutt (SS Central/Eastern) for their coordination roles at the respective divisional offices during the census operation. A special thank you goes to all the department staff's who played a role in this national exercise. In particular, the Household survey unit staff, Area coordinators, IT support staff, Supervisors and Enumerators for their commitment and valuable inputs towards the success of the project. Most importantly is my humble and sincere gratitude to all respective households who participated in the interviews.

The contributions of key development partners, line ministries and individuals are also acknowledged. To ILO, Ms. Marie Fatiaki on Child Labour training, Ms. Surkafa Katafona as the National Programme Officer and Mr. Tite Habiyakere with training on the ICLS concept. To SPC (Pacific Community), Mr. Toga Raikoti on the Questionnaire design, CAPI (WB) training, Mr. Phil Bright on Mapping, Mr. Arthur Jorari as a Census technical adviser and Ms. Kim Robertson on Gender Perspective training. To UNFPA, Ms. Sandra Paradez and Ms. Virisila Raitamata on their assistance with the dissemination of outputs. To ABS, Mr. Peter Harper as a census technical adviser, Mr. Stephen Wellington on IT environment management and Ms.

Jessica Bental on her involvement during the operations and assistance with the HSU. Finally, the contributions from Dr Martin Bakker on the fertility and mortality schedules training and Mr. Mike Levin with his assistance on data processing. Ms. Alisi Daurewa, Ms. Kiran Naidu and Ms. Cassandra Nadakuca for translating the Census questionnaire in the iTaukei, Hindi and Chinese mandarin respectively.

The following line ministries were also helpful with the logistics of training; MEPIR on OHS awareness training and the Ministry of Education Heritage and Arts for their support in agreeing to use respective schools for the Census enumerator and supervisor training.

A handwritten signature in blue ink, appearing to read "Epeli Waqavonovono".

Mr. Epeli Waqavonovono

Census Comissioner and Government Statistician

Administrative Report

INTRODUCTION

Population and Housing Censuses in Fiji are conducted every ten years. Having major exercises of this nature conducted every ten years presents a major challenge for Census takers in terms of knowledge and experience retention. The Administrative Report serves as a detailed documentation of the experiences from this massive administrative and logistical exercise.

The administrative report therefore covers the activities and standards that were put in place to guide the conduct of the 2017 Population and Housing Census, in particular, the different levels of engagement with government agencies and key stakeholders who played important roles in the whole exercise. The details are provided in the sections that follow.

To set a clear direction for all individuals who were part of the national project, a vision was created through wide consultations with our Divisional Offices including Area Coordinators. The notion of involving the Area Coordinators was to provide management a framework of slowly delegating ownership of all preparatory activities towards the lower levels of the Census Organization hierarchy on what was expected of the National exercise.

The vision was then set for “an inclusive 2017 Population and Housing Census coverage for the provision of high quality data”. The mission was “an Innovative and Efficient National Survey Operation achieved through Great Team work”. It was the management’s responsibility to create the most effective strategies possible to accomplish both. The vision and mission also helped guide evaluations and improvements throughout the entire Census process. It created a firm foundation of a successful Census.

The subsections in this document entails a summary of logistics. It includes the methodological preparation, innovations, training and collection. It captures the various activities with scheduled dates and challenges so as to give a full portrait of what had transpired in the 2017 Census on the following.

1. Mapping
2. Budget
3. Human resource
4. Questionnaire design
5. Publicity
6. Training
7. Purchase and Equipment (IT)
8. Data processing
9. Data analysis & dissemination

THE 2017 POPULATION AND HOUSING CENSUS

A Population and Housing Census provides a snapshot of the characteristics of the population (size, structure and distribution). The United Nations recommends that population censuses be taken at least every 10 years. It defines the essential features of a population and housing censuses as an individual enumeration, that is prevalence within a country, is simultaneous and within a defined period.

Fiji has a longer history of census taking than most developing countries. Its first census (a mere headcount of the population) was carried out by the British Administration, as early as 1881. After this, until 1921, censuses (headcounts) were conducted at an interval of 10 years.

Formal census taking only started in 1946. This paper based census, conducted soon after the end of World War II, provides more detailed information than the previous ones. At the time of the 1946 Census, all information was processed, edited, compiled and tabulated by hand. The production of very detailed cross tabulations was not feasible. In 2007, cross tabulation was feasible, however data processing took time towards the release of the Analytical Report, the 14 provincial profiles/reports together with the fertility and mortality monographs.

The use of Tablets for the 2017 Population and Housing Census was aimed at realising the proven gains accruing from a digital census. With the Census Information System put in place, progress on data collection, data transfer and information checks was to be viewed in real-time.

Some of the important gains are improved data quality and quicker availability of information. With a regional spread of the data being received on a continuous basis, some tabulations and their graphical representation were produced on the third day of data collection. Previously this was only possible a few months after the data collection phase.

This represents a huge leap in terms of the timely availability of data to be checked, meaning any inconsistency is picked up quickly and enumerators can correct these while they are still in the field. Such a practise is recommended by Census experts but which is quite difficult to implement with paper based census collections.

Given the interplay of official and non-official statistics in a very dynamic information market together with the impact of societal changes on statistical apparatus, the department needs to continue to assume its role by adapting itself to technological innovations for the provision of various and extensive data requests from all stakeholders. Bearing in mind, the adequacy, relevance, and reliability, in short - the quality of official statistics.

Technical assistance was forthcoming from;

1. The Australian Bureau of Statistics (ABS)

- a. Supporting the Fiji Bureau of Statistics to build statistical capacity. The 2017 Population and Housing Census was a priority area of assistance.

- b. Coaching and mentoring for FBoS staff on planning, including risk management and mitigation strategies as well as IT support.
- c. The following experts were directly engaged through ABS' support;
 - i. Mr. Paul Lowe
 - ii. Mr. Stephen Wellington
 - iii. Mr. Peter Harper
 - iv. Ms. Jessica Bendall

2. Pacific Community (SPC)

- a. Support in the Revision of EA boundaries
- b. Statistics Development Division (SDD) Technical Assistance plans were developed within the framework of Phase 2 (2015-2017) of the Ten Year Pacific Statistics Development Strategy (TYPSS)
- c. Technical Assistance on the use of technology such as GPS and tablets for census and survey work on CAPI for Census Questions via Proposed Modules
- d. Sessions and training on other SDD Census related statistics towards analysis
- e. Back up for data processing
- f. The following SPC experts were directly involved;
 - i. Mr. Phil Bright
 - ii. Mr. Toga Raikoti
 - iii. Ms. Salote Baleisuva
 - iv. The late Mr. Arthur Jorari
 - v. Ms. Kim Robertson

3. UNFPA

- a. Technical Assistance on Post-census Data processing / Analysis
- b. Dissemination / utilisation
- c. The following UNFPA experts were directly involved;
 - i. Ms. Sandra Paradez
 - ii. Ms. Virisila Tamani

4. ILO

- a. Provision of CAPI training to officers at the Bureau for the proposed ILO/SPC Census questions with reference to the next round of CENSUS and 2020 Census
- b. The following ILO expert was directly involved;
 - i. Mr. Tite Habiyakere

5. Dr. Michael J Levin – Data Processing Expert

A World Expert in Census Data Processing helped with the editing of the Census Data

BASIC PRINCIPLES OF A CENSUS

All censuses in Fiji so far, have been carried out on a de-facto basis with de-jure elements. In a de-facto census, all persons present in the country at a certain point in time (census night) are included in the enumeration. All persons were to be enumerated in the household where they happen to be on census night.

All Census personnel were made familiar with the essential characteristics of a Census. This was through meetings and regular briefings. The Seven Basic Principles of Census Taking to which its quality should be assessed are;

- i. Sponsorship, responsibility, cooperation and objectives
- ii. Universality
- iii. Coverage
- iv. Simultaneity
- v. Individual listing
- vi. Compilation and publication of results for geographic subdivisions and by basic variables
- vii. Defined periodicity

LEGAL BASIS AND CONFIDENTIALITY

Census Act

The 2017 Census was conducted under the provisions of the Census Act (*appendix 1*) of 20th July 1946, Ed. 1978 (CAP 71 and 72) which states that;

“It shall be lawful for the Minister, whenever he may deem it expedient, by order, to direct that a census be taken of the inhabitants of Fiji, and to prescribe the time in relation to which the particulars required by the census shall be stated, and the date upon which the census is to be taken and for that purpose the Public Service Commission shall appoint a Census Commissioner.”

The Minister referred to is the Minister for Economy.

It was considered critical that all census staff were aware of the above legal provision that authorizes the conduct of a Population and Housing Census. The legal provision serves two main purposes, that is to;

- make it obligatory for respondents to provide the required information.
- balance that obligation with the individual's right to privacy.

All Census Field Officers were made aware of the Census Act in addition to the 2017 Census Regulations (*appendix 2*).

Confidentiality

In accordance with paragraph 6 of the Census Act, everybody within the scope of the Census is legally obliged to provide information that was required. It was important that it was clearly understood by all Census staff as well as respondents that the Census was not concerned with information about individuals as such but an attempt to collect information about the community as a whole and about groups within the community. In that connection enumerators were trained to ask questions that are necessary for the completion of the enquiry.

All Field Officers engaged during the Census were required to advise respondents that all information gathered would be kept confidential.

Work plan and Census Calendar

A Census Calendar (*appendix 3*) and a Census Processes and Programme Standard (SOP) (*appendix 4*) was used as a guide for all census activities (*appendix 5*). Monthly, weekly and daily work plans complemented the Census calendar and SOP. Team leaders also took heed of the submission of progress reports (*appendix 6*) regarding activity start dates and targets dates towards submissions to the Ministry of Economy.

In addition, a Gantt Chart (*appendix 7*) was also used to monitor the work plan progress as per the number of days left to complete a certain task.

The ALL team was responsible for the monitoring and evaluation of all operational activities for the nine subcommittees. The attachment in the appendix was used by all Team leaders to report on progress on a monthly basis. For every scheduled Census committee meeting, all team leaders presented on updates and progress of work for their respective teams.

Having a good understanding of the need to monitor and evaluate respective activities was continually emphasized to the Census Committee members. Risks and challenges during the course of the Census Operation were identified beforehand with solutions premeditated. Monitoring by the divisional coordinators and respective team leaders gathered useful information that was used to check on the progress of various Census activities against their set objectives.

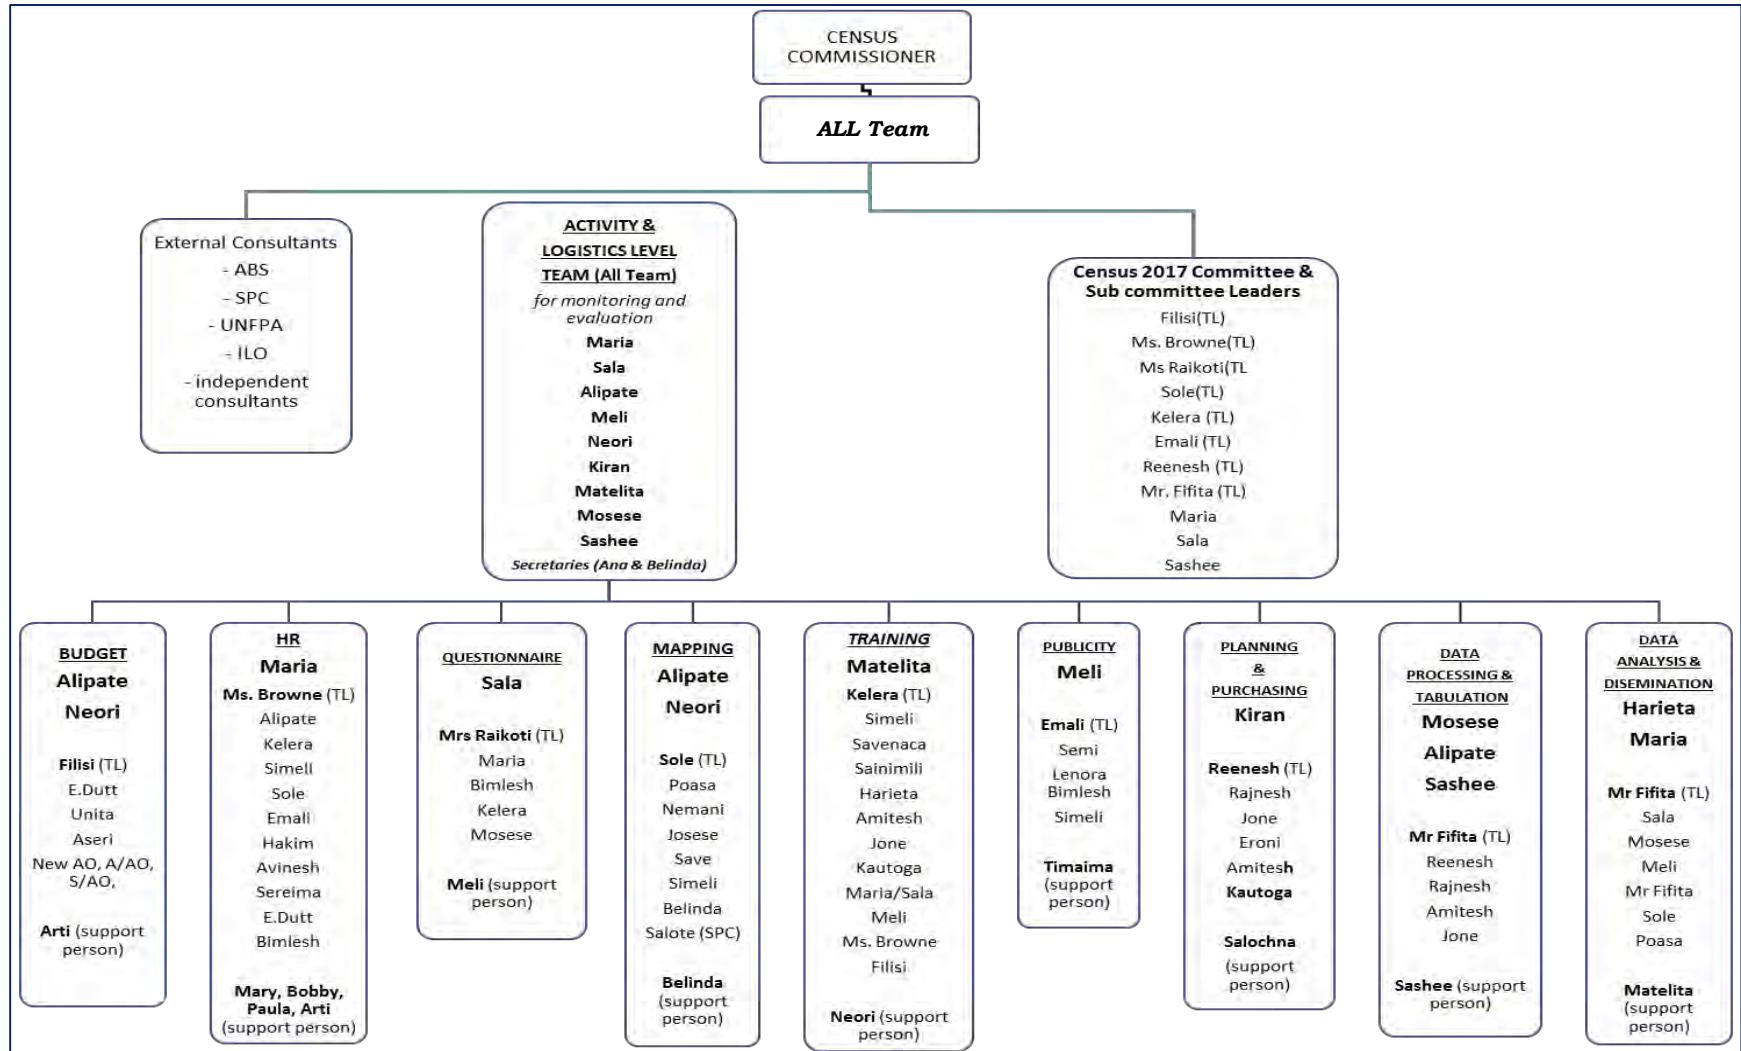

It was also the role of the team leaders to draw on the information generated from the monitoring process to detect and trending pattern that may need immediate intervention given their likely or possible impact on the Census exercise. Towards the end of the project, close monitoring of data quality continued, through the data checks and verification, to ensure minimal departure from the project's expectations. The evaluation format via information generated by the Survey Solutions Software were simple – giving the date, time, place and the names of the people involved in a certain activity which was really useful when a decision needed to be made.

The very nature of the Census project and programme management required that certain meetings be convened when needed in order to communicate and share project

information. The Government Statistician/Census Commissioner Secretary was also given a minute track sheet to track all submissions coming in. It was a way of monitoring that all submissions came as scheduled as per the individual work plan for the respective nine teams.

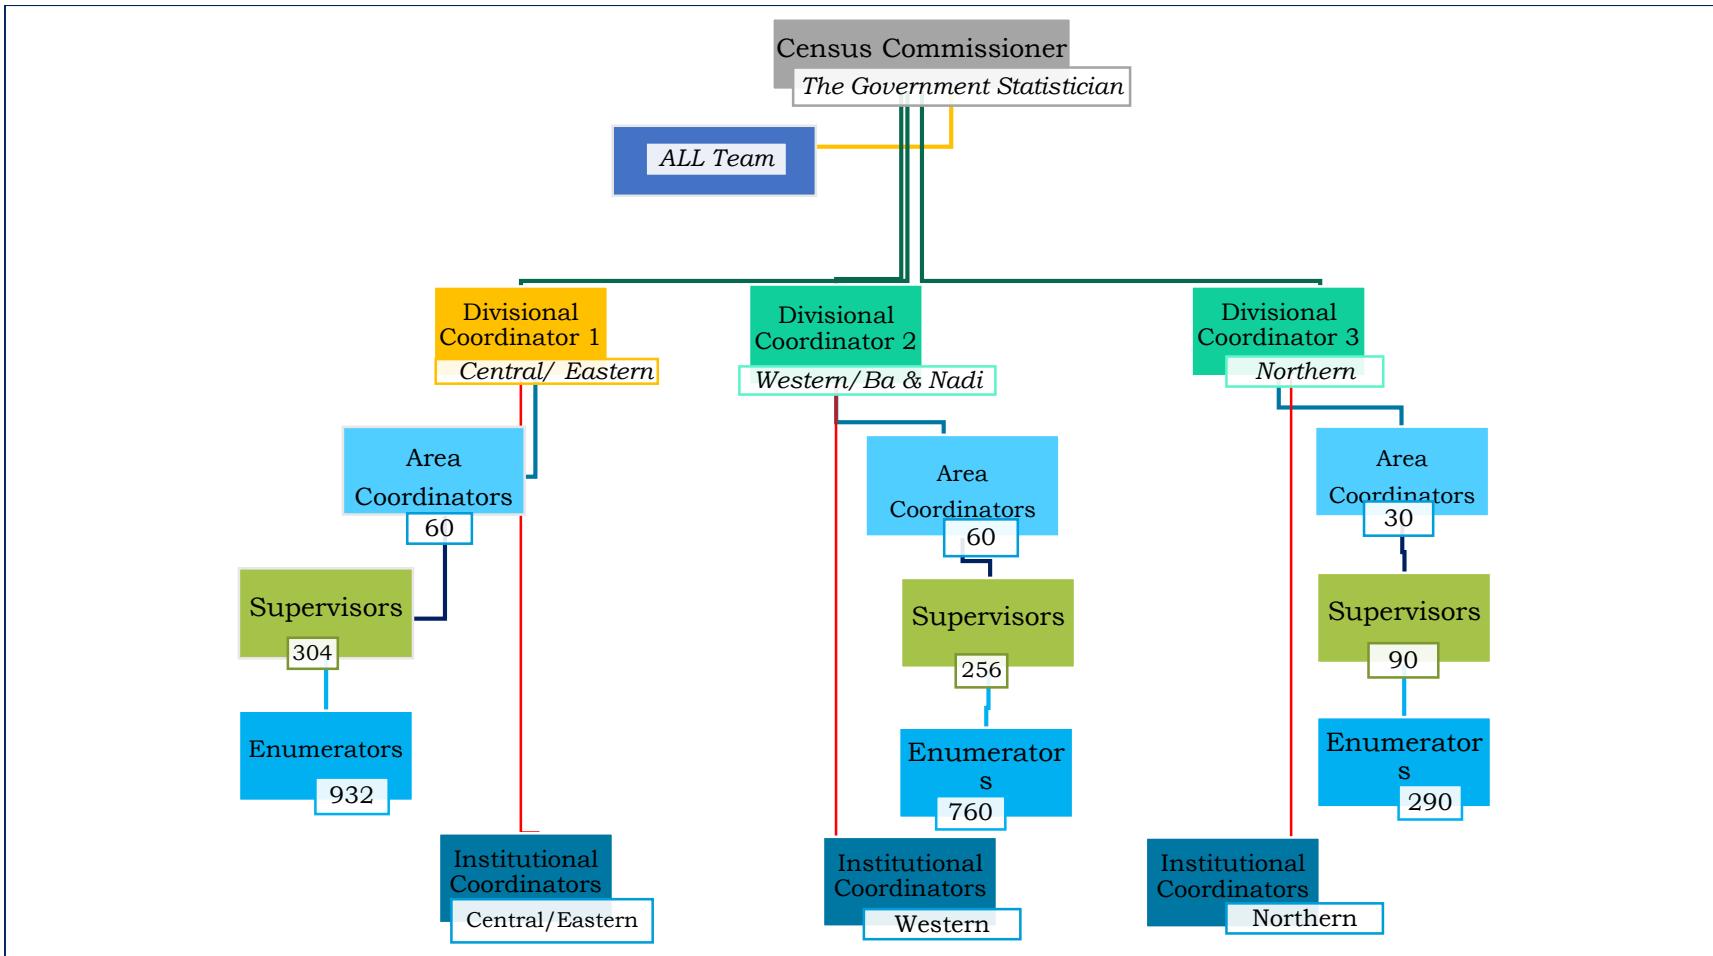

There were Divisional visits by the Census Commissioner and Census Director. Monitoring by respective team leaders were, however, planned well in advance and requested formally. Divisional managers were advised on the same to ensure minimal disturbance to the work being undertaken.

Figure 1: REPORTING MECHANISM FOR THE 2017 CENSUS COMMITTEE

The responsibilities of ALL team covered the monitoring and evaluation of all operational activities of all 9 subcommittees.

Figure 2: REPORTING MECHANISM FOR THE 2017 CENSUS OPERATION

The reporting mechanism put in place for the entire Census operation aimed at ensuring consistency and flow of communication.

OVERALL PLANNING

Preparation for the 2017 Census started in March 2016. Nine sub-committees covering key Census Activities were formed and membership comprised personnel from the various divisions within FBoS. The sub-committee members were required to continue with their normal work. The nine sub-committees were as follows;

- 1) Budget
- 2) Human Resources
- 3) Mapping
- 4) Training
- 5) Publicity
- 6) Questionnaire Design
- 7) Purchase and Equipment
- 8) Data Processing and Tabulation
- 9) Data Analysis

The sub-committees were interdependent which required strong coordination and interaction amongst members.

The Fiji Census model approach required a whole department effort. Each phase of the Census is dependent on a preceding phase, with the quality of the output from each phase having a direct effect on the success of the next phase.

Resources were identified and organised such that an Activity and Logistics Level (ALL) team was established to coordinate the work to be undertaken. The team was also responsible for an integrated Census timetable and the Budget submissions for two financial years were aligned to the activity schedule formulated by the team. There was a high degree of enthusiasm and commitment for the Census throughout the Department.

The Census Order was issued by the Minister for Economy in July 2016. The proclamation provided the legal basis for conducting the 2017 Population and Housing Census between 16 September 2017 and 16 October 2017. The Government Statistician (GS), Mr. Epeli Waqavonovono, was then appointed as the Census Commissioner by the Public Service Commission (PSC). The Census Commissioner then issued the Census Regulations.

Advice and feedback from consultations with relevant experts were taken into account before the Government Statistician recommended the use of Tablets in the 2017 Population Census. This was approved by the Minister for Economy and arrangements followed for the purchase of 3,100 tablets for use in data collection. Study Missions to Vanuatu and Tonga confirmed Fiji's readiness to use tablets which improves the reliability and timeliness of Census data.

The Advantages of a Digital Census:

- 1) Can provide immediate checks on routing, ranges, and consistency during the interview.
- 2) Can provide faster and more consistent field editing.

- 3) Can provide faster and more consistent editing of aggregated data.
- 4) Should provide higher data quality.
- 5) Faster availability of final data.
- 6) No paper questionnaires to manage.
- 7) Data is stored, encrypted, safe and secure.
- 8) Data is backed up in areas without Network Coverage.
- 9) Easy to download data whenever required.

Software Used

The World Bank's Survey Solution Software was used. The free Software has been developed over the years and is being continuously updated. Key enabling features have been developed to;

- a. Allow better communication between the enumerators and supervisors for checks and monitoring purposes.
- b. Produce more reliable statistics due to checks performed during the interview.
- c. Have statistics available in a timely manner due to a reduced time lag between data collection and data analysis.
- d. Eliminate the need to scan, verify, code and edit data.

Further details are provided in Section VIII of the Report.

An integrated Census timetable was put in place to effectively monitor and coordinate the work overseen by the sub-committees. Key milestones and critical dependencies were identified, understood and actively managed to ensure there was no slip-up. Due to the size and complexity of the census, some important and complex processes had to be refined which in some cases required the mobilization of additional resources.

The responsibilities of the various sub-committees were demarcated with clearly stated objectives. One of the responsibilities included identifying key stakeholders and ensuring that their expertise could be usefully utilized for Census work.

Effective risk management was considered crucial and quality controls were developed and put in place to ensure that the Census data was of the quality expected. These included the management of quality from an end-to-end perspective to ensure a successful national data collection exercise. Comprehensive testing plans were put in place with expected outcomes and these were trialled during the Pilot test.

Key aspects for the whole operation required particular focus in;

- Securing funds
- Mapping of Enumeration Area Boundaries
- Procuring, testing and configuring the tablets and associated technologies
- Designing of the Census Questionnaire via the SPC model
- Recruiting, training 150 Area Coordinators, 650 Supervisors and 2156 Enumerators
- Developing the field procedures, including logistics
- Developing strategies for non-private dwellings and difficult to enumerate population groups

- Determining a comprehensive test and quality management program, including finalising plans for the April 2017 pilot test towards the actual census

Each of these areas is elaborated in the relevant sections below.

CENSUS PREPARATORY LOGISTICS

Indicator: Successful planning and careful monitoring of all census preparatory logistics
Baseline: 2007 Census in consultation with external consultants
Target: A successful 2017 Census

Objectives

- Test length of questionnaire in the field
- Identify modules, topics and questions that pose difficulty for Enumerators and are risk for reduced data quality
- Identify key data items for checking process
- Test the effectiveness and risks in procedures for low connectivity areas
- Test the understanding of the App with Area Coordinators
- Test the subsections and statistic texts in Survey Solution design
- Test the server readiness and capacity levels
- Test procedures when information is partially completed at the dwelling
- Test checking procedure
- Test the effectiveness of the operational structure
- Test communication during enumeration
- Test field monitoring and quality checking process

Chronology of Events

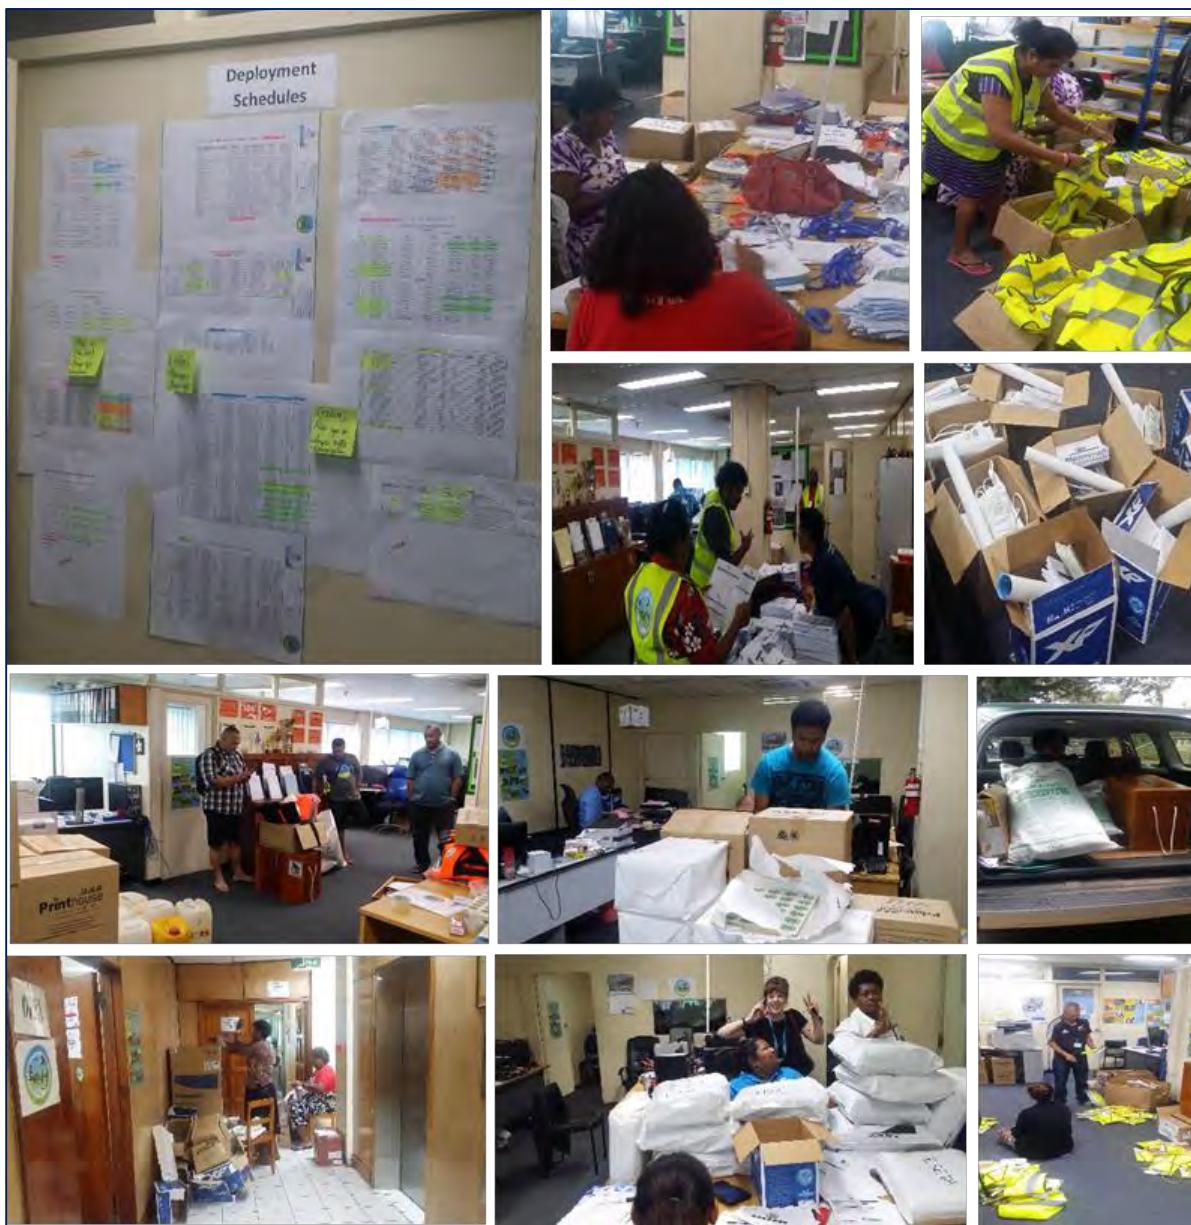

Table 1: Census Preparatory Logistics – chronology of events

Activities	Start date	End date
Coordination	02-Feb-2016	31-Dec-2017
Fieldwork Stationery and Printing	1-Nov-2016	30-Nov-2016
Purchase of fieldwork equipment	1-Nov-2016	30-Nov-2016
Purchase of office furniture and equipment	1-Nov-2016	31-Dec-2016
Engagement of Project staff (ACs)	1-Jan-2017	31-Jul-2017
Fieldwork - AC awareness and prep	1-Jan-2017	31-Jul-2017
Fieldwork Boundary Familiarisation	17-Jul-2017	28-Jul-2017
Recruitment Project staff (Supervisors & Enumerators)	1-June-2017	28-June-2017
Activity Logistics and Monitoring	1-Aug-2016	31-Dec-2017

1. Planning, Preparing & Prioritising

- a. The tasks of the sub-committees were clearly defined and a great deal of effort was placed on preparation as it created that readiness to carry out the required tasks. For instance, any assigned work had its set targets and end dates, so the following routine was adopted;
 - i. Prioritising of tasks
 - ii. Having a Calendar of Events with clear goals and completion dates
 - iii. Setting a tighter deadline for the teams to combat procrastination then the following advice to team members;
 - *Do it well in advance whenever possible*
 - *Do the (pre) work*
- b. **The result was it;**
 - i. Saved time
 - *It gave the teams the ability to organise a task as per work activities delegated from management at any time*
 - ii. Reduced stress and...
 - iii. Work was always completed on time

Figure 3: Preparatory work for the Census

2. Communication with Purpose & Effect

- a. A communication strategy which included the use of modern technology was formulated to facilitate a process that provided continuous updates to the Census Team on matters such as; Work Progress, Issues encountered, Management decisions, and Supervisory level Instructions. The following arrangements worked well;
 - i. Closed user group through Mobile Phone provider
 - ii. Track sheet
 - iii. Regular meetings

- iv. Divisional Coordinators viber/chat groups
- v. Skype meetings

Considering the workloads of the Senior Management Staff, Census related communication had to be precise and contain enough details so that quick decisions could be made when the need arose. Some situations that had to be dealt with included;

- i. Instructions via a casual conversation which then had to be formalised through the submission of a communication minute or e-mail.
- ii. Instructions had to be communicated back to Management through simple reports or communication templates that were easy to read and digest.

b. The result was;

- i. A change of perception on providing information requested
- ii. Mutual understanding and cooperation which led to effective coordination
- iii. There was accountability in how all teams were contributing with minimal errors
 - *Problems were identified instantly and resolved sooner*
 - *Saved time and the Census Team Members were able to track their work progress.*

3. Delivering Value

a. Cooperation amongst key players in the Census exercise was crucial in our efforts to deliver value. There was continuous engagement with Government Ministries, Development Partners, Internal Officers and the General Public to ensure a united effort towards soliciting widespread support towards the Census exercise. The effort included the sending out of Key messages about the importance of Census data to improve understanding by all concerned stakeholders. This fostered a collaborative rapport during the Census. Presentations and discussions during these engagements revolved around;

- i. Understanding the purpose of the organisation (mission and values)
- ii. Understanding the vision, mission and values of the 2017 Census.
- iii. Understanding the support needed by the various Census Teams given their strengths and capabilities to accomplish team goals.
- iv. The need for Census officers to take ownership and show initiative in their work engagement.
- v. The need to focus on making a difference to the way things are done thereby contributing to the goal of delivering quality data in a timely manner.
- vi. Team leaders to think through the decision they had to make if the work at hand was challenging.

b. **The result was;**

- i. Senior level management endorsement and support for the initiatives shown.
- ii. The potential and capabilities of motivated Census staff was realized and used effectively.

Figure 4: Working together as a Census team

South to South Cooperation

Preparatory work for the 2017 Census also involved FBoS staff observing operations during the Vanuatu Mini Census and Tongan National Census. The study visit facilitated a lot of information sharing on the requirements of a digital census and this gave us greater clarity on a number of issues. Valuable lessons were gained in the manner in which challenges associated with the adoption of new technology were dealt with during the early stages of enumeration.

Risk Assessment and Mitigation Strategy

A Risk Assessment and Mitigation Strategy was developed as this was Fiji's first Digital Census. A Census Processes and Programme Standard was put in place after four scheduled 2017 Census meetings and the operational plan developed included a Risk Assessment. Mitigation strategies were also put in place to ensure the Census goals and objectives were achieved.

The following steps were considered for the risk assessment and mitigation process;

1. Identification of risks

Respective subcommittees were advised to identify specific risks related to activities for their teams through consultation with committee members. They were instructed to define each risk in a concise manner. To help with the process, the WWF template was used.

The WWF process looks at a range of risk categories: Political, Economic, Social, Technical, Capacity, Financial, Infrastructure, Partner, Leadership, and Management. The teams used the categories that were relevant i.e. where potential risks were identified.

2. Ranking of risks

The risks were also ranked to the probability of occurrence as outlined below;

- i. communication breakdown
- ii. transport logistics
- iii. clear enumeration area boundary ID
- iv. IT resources management
- v. undercount of EAs
- vi. financial resources
- vii. HQ data monitoring
- viii. consistency for the overall management of the project
- ix. request for external consultants for data processing

BUDGET

Indicator: Annual work plan via the indicators, baseline and targets for each subcommittee

Baseline: budget for the financial year

Target: proper use of funds as per the RIE justification submission

Objectives

The key objectives of the Census Budget Team was to;

1. provide structure and give the project clear guidance regarding the direction in which the project was supposed to be going with reference to finance
2. ensure that proper processes were followed via the SOP
3. provide regular updates to committee members on the cash flow
4. facilitate the allocation of resources after careful examination of submissions made
5. measure performance for the respective committees via their submissions

Chronology of Events

Table 2: Budget – chronology of events

Activities	Start Date	End Dates
Census Budget (August 2017-July 2018)	25/03/17	20/04/17
Meeting with Team members	31/07/17	1/8/2017
Meeting with the other Teams	2/8/2017	3/8/2017
RIE 1st Qrt. Submission	8/8/2017	11/8/2017
Training of Supervisors and Enumerators[Allowances Payment]	11/8/2017	14/08/17
Hiring of Office Space	14/09/17	16/09/17
Government Shipping	7/8/2017	13/09/17
Purchase of Equipment-HSU	1/8/2017	8-Apr-17
Publicity - TV, newspaper, Radio	1/8/2017	4/8/2017
Banners/Billboards	1/8/2017	4/8/2017
Printing of Questionnaires	8/8/2017	11/8/2017
Deployment of Staff	10/8/2017	11/8/2017
Processing of Allowances for Enumerators and Supervisors	11/9/2017	12/9/2017
Distribution of Allowances for Enumerators and Supervisors	13/09/17	16/09/17
Checking and Verifying of Claims and Payment of Wages for Enumerators and Supervisors	9/10/2017	20/10/17
RIE 2nd Qrt. Submission	6/11/2017	10/11/2017

Activities	Start Date	End Dates
Final Warp for Population Census Fieldwork	1/11/2017	17/11/17
Extension of Project Officer-Accounts/IT/Admin	22/11/17	23/11/17
RIE 3rd Qrt. Submission	5/2/2018	8/2/2018
Extension of Project Officer-Accounts/IT/Admin	28/12/17	29/12/17
RIE 4th Qrt. Submission	7/5/2018	10/5/2018
Extension of Project Officer-Accounts/IT/Admin	28/4/18	29/04/18

The Department was allocated a total sum of FJD22m for the 2017 Census, an indication of the Fijian Government's support for the Census. The Department put together small area level budgets (Enumeration Area level) which required a fair bit of work. The accompanying justifications were equally detailed ensuring the availability of relevant information when required for the assessment phase. The Department approach of preparing Small area level budgets does require a very good level of local area knowledge. Pre-planned activities proceeded concurrently.

For the period August 2016 to July 2017, a sum of FJD 7.9m was allocated. A sum of \$14.5m was committed by the Fiji government for the financial year August 2017 to July 2018. This required submissions to release the funds on a quarterly basis.

The utilization of Census funds was closely monitored with regular feedback provided to the subcommittees during the scheduled meetings. A budget review was conducted in each quarter to review the various allocations and their utilization. Where marginal and necessary priorities were needed, the Census Commissioners' cautious decisions on the use of contingency funds provided sufficient flexibility and this ensured that the planned activities proceeded as planned.

Standard Operating Procedures

Table 3: Standard Operating Procedures

Accountable Advance

- a) Accountable Advance should be cleared/ retired at the conclusion of each lot date of project visit.
- b) New accountable advance will only be issued once previous issued accountable advance has been cleared/ retired at level 5 Accounts section.
- c) Only those that have completely retired/ cleared accountable advance, will proceed to the next phase of fieldwork.
- d) Officers will be allocated appropriate amount of accountable advance for each lot, not for entire rounds.
- e) Additional accountable advance for unforeseen circumstances to be requested through normal request.

Retirement of claims

- a) *The retirements of claims should be made within 7 days to a maximum of 14 working days upon return to the station/ office.*
- b) *The request for the next accountable advance shall only be made upon clearance of the previous claims.*
- c) *All receipts of expenses incurred during the course of fieldwork shall be attached with a completed and signed claim form by the officer.*
- d) *All transactions to be issued with official receipts from service providers*
- e) *All receipts for travelling in a vehicle should contain the following information;*
 - *drivers full name, phone number, vehicle registration number, driver's signature, duration of use of vehicle and the localities visited and purpose.*
- f) *All claim forms shall be checked and signed by the field statistician.*
- g) *The use of imprest receipts will be considered on a case by case basis.*

Contingencies

- a) *Contingency fund will be controlled by accounts.*
- b) *Request for extra fund should be made through a formal request.*

Transport

- a) *The use of private and own vehicles will not be entertained for any fieldwork.*
- b) *Government vehicles will be used only for officers who are not given any transport allowance.*
- c) *All office must keep and update a transport register.*
- d) *All drivers are to fill in their running sheet daily and submit weekly to the transport officer.*
- e) *In areas where public transport is available and easily accessible, officers shall use public transport eg. Taxis and buses.*
- f) *In areas where public transport is not readily available, officers shall use other means of transportation in order to complete the assigned duties in the required time frame. Official receipts must be obtained.*
- g) *Usage of taxis for hire for field operation shall be encouraged in town and city areas.*
- h) *In roads and localities where taxis do not want to provide services due to accessibility and road conditions, especially in the peri- urban and rural areas, officers may use other means of transportation to complete the task on time.*
- i) *Availability of taxis after hours is a concern in Western and Northern division. As such officers shall use any other means of transportation available at those times. Official receipts must be obtained.*

Overtime

- a) Approval for overtime shall be requested to the Divisional Managers, Deputy Government Statistician and the Government Statistician.
- b) Overtime shall only be done by officers who have prior approval from designated officers in 5(a).
- c) Overtime claims shall only be claimed by officers who are entitled to overtime.
- d) All office shall keep and update an overtime register.
- e) All overtime claim forms shall be verified and signed by the officer in charge before submitting to the Senior Statistician and Divisional Manager.

Control measures

- a) All office shall keep and update a register for all officers working within each operation centre.
- b) Instructions of pickup and drop-offs to be given by the Field statistician/Senior statistician and adhered to accordingly.

Remuneration

- Enumerators were engaged for a period of 21 days and received a weekly remuneration of \$299.92 at an hourly rate of \$8.106. The remuneration is taxable.
- Supervisors were engaged for a period of 21 days and received a weekly remuneration of \$321.31 at an hourly rate of \$8.684.
- The remuneration was taxable.

The Budget Committee provided regular updates on the utilization of funds and any budget related request had to be prepared well in advance and be ready for submission four (4) weeks before the due date.

MAPPING

Indicator: Delineation of new EA boundaries from the existing EA

Baseline: The existing EAs (1602)

Target: Complete coverage by end of July, 2017

Objectives

The key objectives of the Census Mapping Team was to;

1. Clearly demarcate EA boundaries by using aerial photography/satellite imagery and GIS techniques in the census mapping process. This was to enable FBoS to

- accurately demarcate the whole country within a prescribed and correct geographic frame
2. Assist on the division of standard EAs via the use of data from the headcount exercise. With an average household number of one hundred plus, each enumerator will be assigned to enumerate its total population during the Census reference weeks
 3. Ensure that the EAs were of a reasonable size (in population and land area). This was to ensure that every person in the country was enumerated in the census and no one was missed or double counted
 4. Ensure the demarcation of EAs had clear starting points that were identifiable, they did not cut across existing region or district boundaries and did not overlap one another
 5. have ready the digital set of EA boundaries for uploading onto the tablets with hardcopies printed as back ups
 6. Determine the location of the Census applicants in advance of the enumeration in order to make possible the recruitment, training and allocation of a sufficient number of enumerators for the HR team. This was a cost cutting measure which also ensured that enumeration was completed in time without omissions or duplications

Chronology of Events

Table 4: Mapping Activities

Activities	Start date	End date
SPC technical expert assistance (with local expert assistance)	13-Jun-16	19-Aug-16
Urban Boundary updates	1-Aug-16	3-Sep-16
Sigatoka Town	31-Jul-16	6-Aug-16
Central Division Navua Town	8-Aug-16	24-Aug-16
Northern Towns	25-Aug-16	3-Sep-16
Settlement updates (All Division) for soft copy	3-Jul-16	3-Sep-16
Western Ra Province	3-Jul-16	16-Jul-16
Ba Province	17-Jul-16	30-Jul-16
Nadroga Navosa Province	31-Jul-16	6-Aug-16
Central Division	8-Aug-16	24-Aug-16
Northern Division	25-Aug-16	3-Sep-16
Digitizing urban boundary maps (soft Copy)	9-Sep-16	30-Sep-16
Area Coordinator EA's distribution	1-Oct-16	30-Jun-17
EA Boundary Revision & updates using satellite imagery	1-Oct-16	30-Jun-17
Northern Division	1-Oct-16	12-Nov-16
Western Ra Province	13-Nov-16	22-Dec-16
Ba Province	1-Jan-17	4-Mar-17
Nadroga Navosa Province	5-Mar-17	1-Apr-17
Central Division	3-Apr-17	30-Jun-17

Activities	Start date	End date
Eastern Division	16-Jun-17	30-Jun-17
Digitising EA boundary maps (soft Copy)	1-Jul-17	31-Jul-17

The revision of Enumeration Area boundaries was a critical part of the Census preparation. The whole objective was to ensure an even workload for the Enumerators during data collection. Thus, the mapping exercise aimed to produce clearly demarcated boundaries on High quality maps.

SPC provided Technical Assistance during the early stages of work. Detailed planning with strict set targets for the mapping work helped in the production of high quality EA Maps.

It was the responsibility of the Mapping committee to update all Enumeration Area (EA) Maps before the recruitment of Supervisors and Enumerators. All EA maps contained detailed and up-to date information that was helpful in guiding the data collectors in their assigned EA.

The Mapping team was also tasked with the plotting of GPS waypoints of the informal settlements, as illustrated below. This was used as a monitoring tool during Census enumeration.

Figure 5: Settlement Waypoints

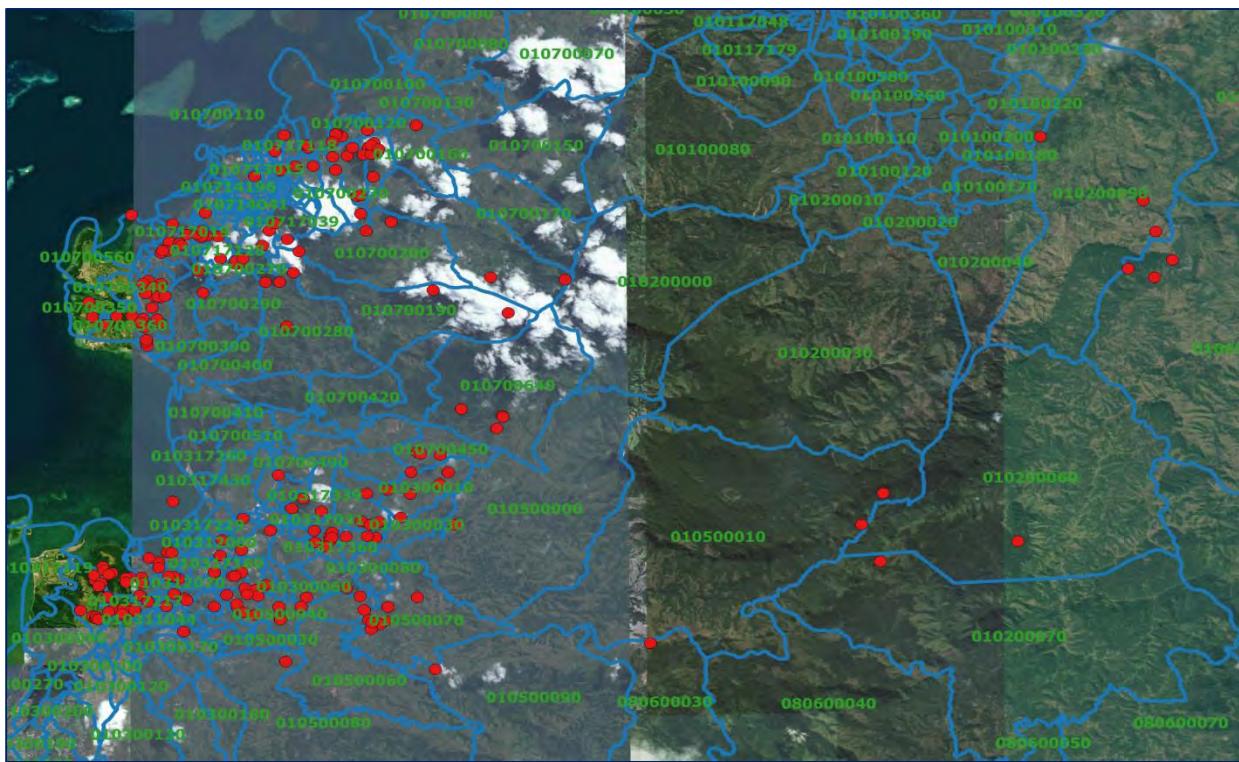

Figure 6: Visitations in all EAs

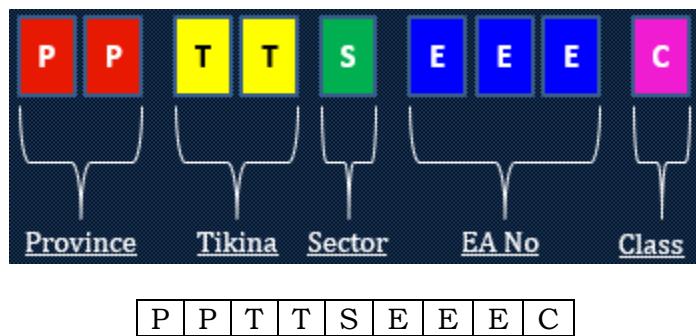

For enumeration purposes, the EA was the smallest geographic unit for which Census information is collected and published. The boundaries were clearly marked using identifiable physical features such as roads, rivers and other distinctive land marks... (see description in the sample below).

Figure 7: Enumeration Area (EA) Map

EA No:	07-03-1-100-1
Starting Point:	Jct of Nadawa St and James Madhavan St
Description:	From st pt follow James Madhavan St sw to unnamed feeder rd sw of Mohd Yakub's house [6590-6295]. Follow this unnamed feeder rd nw to Labasa Town Bdy [6585-6300]. Follow town bdy ne to Nadawa St. Finally follow Nadawa St se back to st pt.
Note:	<ol style="list-style-type: none">1. All houses on nw of James Madhavan st and sw of Nadawa St are included in this EA.2. The town bdy follows the drain behind Bethel Pri Sch3. The unnamed feeder rd is 100m sw of Salusalu St
Localities:	Police Comp, Bethel Sch Comp, Salusalu St, Mudaliar Pl

Each EA has a 9-digit code for identification. It contains an average of 100 households, which is considered a manageable load for an enumerator during the enumeration period.

Figure 8: Enumeration Area code

- Digits 1 and 2 (PP) identify the province
- Digits 3 and 4 (TT) identify the tikina you or combined tikina
- Digit five (S) identifies the geographic sector. It also identifies the urban area in cases where there is more than one urban area in a particular tikina
- Digits 6, 7 and 8 identify the EA
- Digit 9 (C) identifies the category or type of EA.

The Mapping Team used tablets for their plotting exercise. A complete household listing and headcount was carried out and additional information such as network coverage was gathered. Such information was useful in the preparation of small area level budgets.

SPC conducted training in Quantum Geographical information System (QGIS). The notion to have this generally used at FBoS was welcomed as it was cost effective. Further re-training is planned at FBoS due to the benefits of using QGIS.

The tikinas were subdivided into (statistical/census) enumeration areas (EA). The EA is not an administrative area but purely a statistical/census unit. It is the smallest geographic unit (building block) for which census information is published.

Of the twenty one urban areas, thirteen (13) consisted of an incorporated (gazetted) city/town and a peri-urban area. The two (2) cities were Suva and Lautoka and the eleven (11) towns were Lami, Nasinu, Nausori, Nadi, Ba, Tavua, Rakiraki Sigatoka, Labasa, Savusavu and Levuka. These incorporated cities/towns are subdivided into wards. There were eight (8) urban areas, which did not have an incorporated city/town. The urban areas were for census/statistical purposes only. The category included the unincorporated townships of Vatukoula, Matei, Korovou, Navua, Pacific Harbour, Nabouwalu, Naqara and Seaqaqa.

The delineation of Urban Boundaries uses the following set of criteria;

- 1) Urban Attributes
- 2) Economic Activity
- 3) Population Size
- 4) Association and Contiguity with a Town or City
- 5) Population Density

The mapping team was responsible for the provision of maps to the Area Coordinators, Supervisors and Enumerators. With the help of the IT team, the maps were loaded onto the tablets before they were issued to the Supervisors and Enumerators and paper maps were also prepared as backup.

The Boundary Revision exercise also targeted to produce the 2017 Version of The Rural Urban Continuum which was last produced in 1998 after the 1996 Census and which contained all EA Maps and descriptions. This will be used in the next round of household surveys.

INNOVATIVE APPROACHES

A partnership was developed with Drones Fiji Limited to improve the aerial imagery of informal settlements along the Lami-Suva-Nasinu-Nausori corridor which are densely populated and presents major challenges for data collection. The use of drone imagery eased the identification of EA boundaries which were overlaid on very clear images of an area's physical and natural features such as roads, creeks, building structures and vegetation. This contributed to good coverage during the Census.

Figure 9: TopoDrone 4Sight

The TopoDrone 4Sight was used for precision mapping which required no ground control points.

Five drone pilots were tasked by Drone Services Fiji to capture and map the 27 squatter regions. In a span of a week, FBoS was able to map out 27 squatter settlements with accurate and updated information. This was uploaded to Google map which was accessible by field officers, in particular the area coordinators. Links to the media coverage are attached in appendix 13.

Clarity

Figure 10: Google Earth imagery

Figure 11: Drones imagery

Figure 12: Drones (tracks visibility within a squatter settlement

Challenges

The last revision of EA boundaries was in 2004-2005. With changes continually occurring, a lot of boundaries had to be revised so the mapping team had to identify suitable physical and natural features that the EA boundaries had to follow. So some of the challenges encountered during the exercise were as follows;

1. Isolated roads in the rural areas which had not been maintained for a long period of time.
2. Uncertainty of road conditions. In most instances, vehicles got stuck on mud tracks.
3. Lack of communication with HQ and other teams due to poor phone reception in remote rural areas, after teams were sent out
4. Poor network communication with maritime villages
5. Accessibility to villages in the interiors of Fiji through river crossings

Figure 13: Road access a challenge

6. Time Constraints – The revision of urban boundaries is challenging. For instance, the extension of the Urban areas of Nadi, Lautoka and Sigatoka were major exercises given that the numerous Enumeration Areas were affected hence their boundaries had to be re-drawn. Numerous visits were needed before a clear boundary demarcation could be finalized.

The need to revise Urban Boundaries arises when;

- Legal town or city boundaries are extended
- Rural areas are developed to urban status i.e. meet the criteria to be classified as urban.

Figure 14: New Sigatoka Peri-urban Boundary

HUMAN RESOURCES

Indicator: Creation of Position Descriptions (PDs) for all project posts

Baseline: Existing Household Survey PDs

Target: Recruitment using OMRS

Objectives

The key objectives of the Census Human Resource Team were to;

1. effectively design the recruitment process via the open merit recruitment system (OMR) with key elements of Census factored in
2. ensure that the workplace conditions within the project drove engagement and retention of project officers
3. identify potential compliance issues towards premeditated mitigations in place for the survey
4. have in place a plan for turnover risks
5. ensure that progress reports were submitted as per scheduled to track progress of work for all HSU divisions

Chronology of Events

Table 5: Human Resource

Activities	Start date	End date
Updating of AC bio data for all Divisions	1-Nov-16	11-Nov-16
Long listing in the Central Division	2-Feb-17	6-Jun-17
Presentation for AC's	7-Mar-17	24-Mar-17
AC Training for all Divisions	20-Feb-17	3-Mar-17
Marking and final selection	25/02/2017	25/02/2017
Appointment letters/Secrecy Act	7/4/2017	8/4/2017
Creation of PD's by PAO for Enumerators and Supervisors	31-Mar-17	1-May-17
Advertisement for Enumerators and Supervisors	25-May-17	10-Jun-17
Recruitment to all Center's for AC's	1-Jun-17	30-Jun-17
Training for Enumerators & Supervisors	14-Aug-17	25-Aug-17
Appointments for Enumerator's & Supervisors	18-Sep-17	8-Oct-17

The Recruitment process for Census staff required meticulous planning with great attention to detail. Trial runs were carried out to ensure that all applicants were efficiently taken through the various test exercises.

The Staffing Establishment for the 2017 Population and Housing Census was approved by the Minister for Economy. The advertisement for the first 172 positions was approved by the Civil Service Reform Management Unit. The following positions were advertised on Saturday 24 December 2016 which ran for 3 weeks and closed on 16/01/2017.

- Area Coordinators - 150
- Statistical Officer - 05
- Analyst - 01
- Assistant Analyst - 01
- Asst. Accts Officer - 01
- Accts Clerk - 05
- Data Verifier's - 03
- Admin Clerk - 01
- Drivers - 05

The recruitment process for Area Coordinators (150) started in January 2017 and was followed by the recruitment of Supervisors (650) and then the recruitment of Enumerators (2156). The aim for the initial recruitment of the 150 Area Coordinators around November 2016 was to have them start work in January 2017. The early engagement of the Area Coordinators allowed their involvement in most of the preparatory activities including their role as Enumerators for the Pilot Test in April 2017. Their roles and responsibilities was planned and clearly defined in the months

leading up to the Census, particularly the period prior to the recruitment of Supervisors and Enumerators.

RECRUITMENT OF 650 SUPERVIOSRS & 2156 ENUMERATORS

The HR team conducted their recruitment drive for Supervisors and Enumerators from Thursday 1st June to Wednesday 28th June 2017. The public were informed of the Recruitment Centres through advertisements in the dailies and all interested individuals were requested to apply in person only once. Applicants were advised on the entitlements of those selected to be part of the Census exercise.

Requirements

Those to be recruited were to be Fiji Citizen, physically fit and under the age of 55 years. It is the responsibility of the interested applicant to bring in copies of;

- Birth Certificate
- Tin Letter
- FNPF

Knowledge of smart devices will be an added advantage.

Grievance procedure

For the entire operation, all grievances followed the proper channel as per the line of reporting in Figure 2 and was addressed only by the HR committee where necessary. It included;

1. Causalities whilst in the field
2. Disagreements between officers on certain areas of work
3. Complaints against officers not performing to expectations
4. Harassment of any form
5. Concerns on allowances and pay
6. Concerns from the general public
7. Any other grievance for that matter

Important recruitment details of key Census positions are as follows;

AREA COORDINATOR

1.1 Applications Received

- A total of 337 applications were received
- 160 males
- 177 females.

1.2 Long Listing

- long listing process considered the essential criteria of qualifications and general experience
- 201 applicants long listed
- 109 females
- 92 males

1.3 Short Listing

- All applicants long listed underwent a week long training on the 2017 Population and Housing Census.
- A test relating to the above training was conducted to determine the candidates to be shortlisted.
- The test covered the criteria of knowledge and experience from the job description.
- The cut off score of 40 was determined for short listing purposes.
- 187 applicants were short listed.
- 101 female
- 86 male

1.4 Further Short Listing

- Because of the large number of applicants short listed after the test approval was given for all shortlisted candidates to conduct a presentation based on their understanding of the 2017 Population Census.
- The presentations were held from 7 to 22 March 2017.
- Presentation were assessed using the criteria from the job Description
- 1.5 Recommendations
- One year- contracts were then offered to the top150 applicants
- Further approval was sought for 30 Reserves
- 1.6 Approval
- Recommendations in 1.5 above were both approved.

SUPERVISOR/ENUMERATOR

2.1 Total No. Registered

- Total Registration Forms issued 8890

- Total Registered 8086
- 5811 males
- 2275 females.

2.2 Long Listing/ Short Listing

Candidates undertook four tests namely:

- literacy to test the candidates reading ability,
- numeracy to test their ability to count,
- basic tablet test to test their tablet knowledge
- 6 minutes walking test to test the candidates' ability to walk from one household or settlement to the other during the actual counting period.

2.3 Determination for Supervisor/Enumerator

- Given the time constraints, the short period of appointments, the large number to be recruited and the need to have the applicants commence immediately, no other test was conducted to determine the candidates' suitability for Supervisor or Enumerator.
- However, the successful candidates and the reserves were assessed daily during the 2 weeks long training in August 2017. The assessment included checking on punctuality, attendance, attitude during class, attentiveness and level of commitment to the training which were relevant to the position.
- Trainers were to submit any unfavorable check which would change the order [supervisors to enumerators & vice versa) or will nullify the appointment where necessary.

2.4 Recommendations

- It was recommended that contracts be offered to 2756 top applicants for a period of 3 weeks - Supervisors 600 & Enumerators 2156
- Further approval to be given to the 300 applicants as reserves

2.5 Approval

- Recommendations in 2.4 above were both approved

QUESTIONNAIRE DESIGN

Indicator: 3 draft designs of Questionnaire, 1 stakeholder/user conference, final draft of questionnaire and hard-copy print-outs

Baseline: SPC Census Template

Target: A relevant Population and Housing Census Questionnaire capturing the data needs of stakeholders and users, which can be implemented using tablets

Objectives

The key objectives of the Census Questionnaire Design Team were to;

1. ensure a formal standardised questionnaire is well designed, in advance, through consultations
2. ensure that the design of the questionnaire meets the Census objectives in obtaining the most complete and accurate information possible
3. formulate prescribed definitions or explanations for each question for clarity during interviews
4. ensure that the questions are piloted by working together with the IT team

Chronology of Events

Table 6: Questionnaire design

Activities	Start date	End date
1st Draft - Questionnaire	17/08/2016	17/08/2017
Presentation to Census committee	18/08/2017	18/08/2018
2nd Draft - Questionnaire	18/08/2016	5/9/2016
Presentation to Census committee	6/9/2016	6/9/2016
3rd Draft -Questionnaire	06/09/2016	15/09/2016
Presentation to Census committee	15/09/2016	15/09/2017
Presentation to External Sector/User conference	21/03/17	21/03/17
Final Draft - Questionnaire for pre-test via divisions	5/08/2017	05/08/17
Final Copy ready for pre-test	5/08/2017	29/05/2017
Printing of questionnaire for reserve	28/08/2017	09/01/17

WB Questionnaire Designer

SPC assisted during the initial stages of designing the questionnaire with the Tonga template used during the training they conducted. The design for the Fiji Census questionnaire was a lot less challenging as the questionnaire designer for survey solutions was user friendly and other questionnaires available on-line for reference. The designer used a structural design that allows for easy flow and capture of information and with the use of rosters (even rosters within rosters), sections and subsections. During the enumeration week Administrators and IT officers had to assign users for the Enumerators, Supervisors and Headquarters staff.

The 2017 Census questionnaire adopted the SPC Model which had eight modules with Non Private Dwellings as the ninth. With a standard approach in mind via Census questions across the region, the questions were modified to suit the Fiji context. The Australian Bureau of Statistics also provided technical assistance in the whole questionnaire design process.

SDG's

FBoS officers attended both international and local workshops, consultations and trainings and this proved to be useful guidance the collection of information that could be used to provide benchmark information on a number of Sustainable Development Goals indicators with the sustainable.

Figure 15: Sustainable Development Goals (SDG)

FBoS officers through invites attended both international and local workshops, consultations and trainings so as to equip as much as providing resources on how Census can be used to provide benchmark information on various indicators to in line with the sustainable goals. This immensely helped in guiding the design of the Census questionnaire.

The 2017 Census provided data for the following SDG goals;

Table 7: SDG and the Census 2017 questionnaire

Census Module	SDG's	Goals	Targets		Indicators
Module A: Population Characteristics & Migration	"Sustainable Development Goal indicators should be disaggregated, where relevant, by income, sex, age, race, ethnicity, migratory status, disability and geographic location, or other characteristics, in accordance with the Fundamental Principles of Official Statistics".				
Module B: Functioning Challenges	SDG 4	Ensure inclusive and equitable quality education and promote lifelong learning opportunities for all	4.1	By 2030, ensure that all girls and boys complete free, equitable and quality primary and secondary education leading to relevant and effective learning outcomes	4.1.1
	SDG 8	Promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all	8.5	By 2030, achieve full and productive employment and decent work for all women and men, including for young people and persons with disabilities, and equal pay for work of equal value	8.5.2

Census Module	SDG's	Goals	Targets		Indicators	
Module C: Education	SDG 4	Ensure inclusive and equitable quality education and promote lifelong learning opportunities for all	4.1	By 2030, ensure that all girls and boys complete free, equitable and quality primary and secondary education leading to relevant and effective learning outcomes	4.1.1	Proportion of children and young people: (a) in grades 2/3; (b) at the end of primary; and (c) at the end of lower secondary achieving at least a minimum proficiency level in (i) reading and (ii) mathematics, by sex
			4.2	By 2030, ensure that all girls and boys have access to quality early childhood development, care and pre-primary education so that they are ready for primary education	4.2.2	Participation rate in organized learning (one year before the official primary entry age), by sex
			4.6	By 2030, ensure that all youth and a substantial proportion of adults, both men and women, achieve literacy and numeracy	4.6.1	Percentage of population in a given age group achieving at least a fixed level of proficiency in functional (a) literacy and (b) numeracy skills, by sex

Census Module	SDG's	Goals	Targets		Indicators	
Module D: Economic Activities Last Week	SDG 5	Achieve gender equality and empower all women and girls	5.5	Ensure women's full and effective participation and equal opportunities for leadership at all levels of decision-making in political, economic and public life	5.5.2	Proportion of women in managerial positions
	SDG 8	Promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all	8.5	By 2030, achieve full and productive employment and decent work for all women and men, including for young people and persons with disabilities, and equal pay for work of equal value	8.5.2	Unemployment rate, by sex, age and persons with disabilities
			8.6	By 2020, substantially reduce the proportion of youth not in employment, education or training	8.6.1	Proportion of youth (aged 15-24 years) not in education, employment or training
			8.7	Take immediate and effective measures to eradicate forced labour, end modern slavery and human trafficking and secure the prohibition and elimination of the worst forms of child labour, including recruitment and use of child soldiers, and by 2025 end child labour in all its forms	8.7.1	Proportion and number of children aged 5?17 years engaged in child labour, by sex and age

Census Module	SDG's	Goals	Targets		Indicators	
Module E: Fertility & Mortality	SDG 3	Ensure healthy lives and promote well-being for all at all ages	3.2	By 2030, end preventable deaths of newborns and children under 5 years of age, with all countries aiming to reduce neonatal mortality to at least as low as 12 per 1,000 live births and under-5 mortality to at least as low as 25 per 1,000 live births	3.2.1	Under-five mortality rate
			3.7	By 2030, ensure universal access to sexual and reproductive health-care services, including for family planning, information and education, and the integration of reproductive health into national strategies and programmes	3.7.2	Adolescent birth rate (aged 10-14 years; aged 15-19 years) per 1,000 women in that age group
Module F: Communication, Internet & Financial Inclusions	SDG 5	Achieve gender equality and empower all women and girls	5.B	Enhance the use of enabling technology, in particular information and communications technology, to promote the empowerment of women	5.B.1	Proportion of individuals who own a mobile telephone, by sex
	SDG 8	Promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all	8.10	Strengthen the capacity of domestic financial institutions to encourage and expand access to banking, insurance and financial services for all	8.10.2	Proportion of adults (15 years and older) with an account at a bank or other financial institution or with a mobile-money-service provider
	SDG 9	Build resilient infrastructure, promote inclusive and sustainable industrialization and foster innovation	9.C	Significantly increase access to information and communications technology and strive to provide universal and affordable access to the Internet in least developed countries by 2020	9.C.1	Proportion of population covered by a mobile network, by technology

Census Module	SDG's	Goals	Targets		Indicators	
Module G: Housing & Income	SDG1	End poverty in all its forms everywhere	1.4	By 2030, ensure that all men and women, in particular the poor and the vulnerable, have equal rights to economic resources, as well as access to basic services, ownership and control over land and other forms of property, inheritance, natural resources, appropriate new technology and financial services, including microfinance	1.4.2	Proportion of total adult population with secure tenure rights to land, with legally recognized documentation and who perceive their rights to land as secure, by sex and by type of tenure
	SDG 6	Ensure availability and sustainable management of water and sanitation for all	6.1	By 2030, achieve universal and equitable access to safe and affordable drinking water for all	6.1.1	Proportion of population using safely managed drinking water services
			6.2	By 2030, achieve access to adequate and equitable sanitation and hygiene for all and end open defecation, paying special attention to the needs of women and girls and those in vulnerable situations	6.2.1	Proportion of population using safely managed sanitation services, including a hand-washing facility with soap and water
	SDG 7	Ensure access to affordable, reliable, sustainable and modern energy for all	7.1	By 2030, ensure universal access to affordable, reliable and modern energy services	7.1.1	Proportion of population with access to electricity
					7.1.2	Proportion of population with primary reliance on clean fuels and technology
	SDG 11	Make cities and human settlements inclusive, safe, resilient and sustainable	11.1	By 2030, ensure access for all to adequate, safe and affordable housing and basic services and upgrade slums	11.1.1	Proportion of urban population living in slums, informal settlements or inadequate housing

	SDG 14	Conserve and sustainably use the oceans, seas and marine resources for sustainable development	14.1	By 2025, prevent and significantly reduce marine pollution of all kinds, in particular from land-based activities, including marine debris and nutrient pollution	14.2.1	Proportion of national exclusive economic zones managed using ecosystem based approaches
Census Module	SDG's	Goals	Targets		Indicators	
Module H: Agriculture and Fishing	SDG 2	End hunger, achieve food security and improved nutrition and promote sustainable agriculture	2.4	By 2030, ensure sustainable food production systems and implement resilient agricultural practices that increase productivity and production, that help maintain ecosystems, that strengthen capacity for adaptation to climate change, extreme weather, drought, flooding and other disasters and that progressively improve land and soil quality	2.4.1	Percentage of agricultural area under sustainable agricultural practices
	SDG 5	Achieve gender equality and empower all women and girls	5.a	Undertake reforms to give women equal rights to economic resources, as well as access to ownership and control over land and other forms of property, financial services, inheritance and natural resources, in accordance with national laws	5.a.1	Percentage of people with ownership or secure rights over agricultural land (out of total agricultural population), by sex; and (b) share of women among owners or rights-bearers of agricultural land, by type of tenure

Capacity Strengthening of FBoS in gender mainstreaming and gender statistics compilation was an important aspect in the formulation of 2017 Census questionnaire and this reflected a commitment to the new phase of the Project “Progressing Gender Equality in the Pacific Island Countries” (PGEP 2).

The first Questionnaire test for the flow of questions and its structure was conducted on the 29th of September, 2016 with the survey solutions tester uploaded on 20 tablets. Team Leaders of the nine subcommittees and all concerned officers participated. The length of the form was also tested to indicate the length of time to enumerate a household as such the enumerator workload. Additionally, the testing also revealed how well the questions were understood and whether there were any difficulties in answering them.

The numerous requests from stakeholders were considered as FBoS tried to meet the needs of a wide range of users. Stakeholders were advised that the Census is not suitable for the collection of detailed information. The availability of alternative sources of information was also considered.

Prior to the user group consultation, two workshops involving government stakeholders were conducted and this was to allow early engagement and this was maintained throughout the Census operation. The following list of activities illustrates the wide range of consultation undertaken to shape the Census Questionnaire.

External User Consultation

August, 30/08/2016 Pacific WASH coalition

The meeting was held at the GSD Water Conference Room (Mead Road, Nabua) and covered questions covering SDG 6, Clean Water and Sanitation in Module G – Housing.

September 28/09/2016

The QD Team met with Anna Fink (SPC), Romeo, Alessandro (FAOSAPA), Sera Bose (Ministry of Agriculture) for further consultation on the agriculture modules with discussion also focussing on the inclusion of the livestock question.

December 20/12/2016

Meeting with the Ministry of Women, Children and Poverty alleviation for consultation on certain questions in the Census Form.

March 21/03/2017

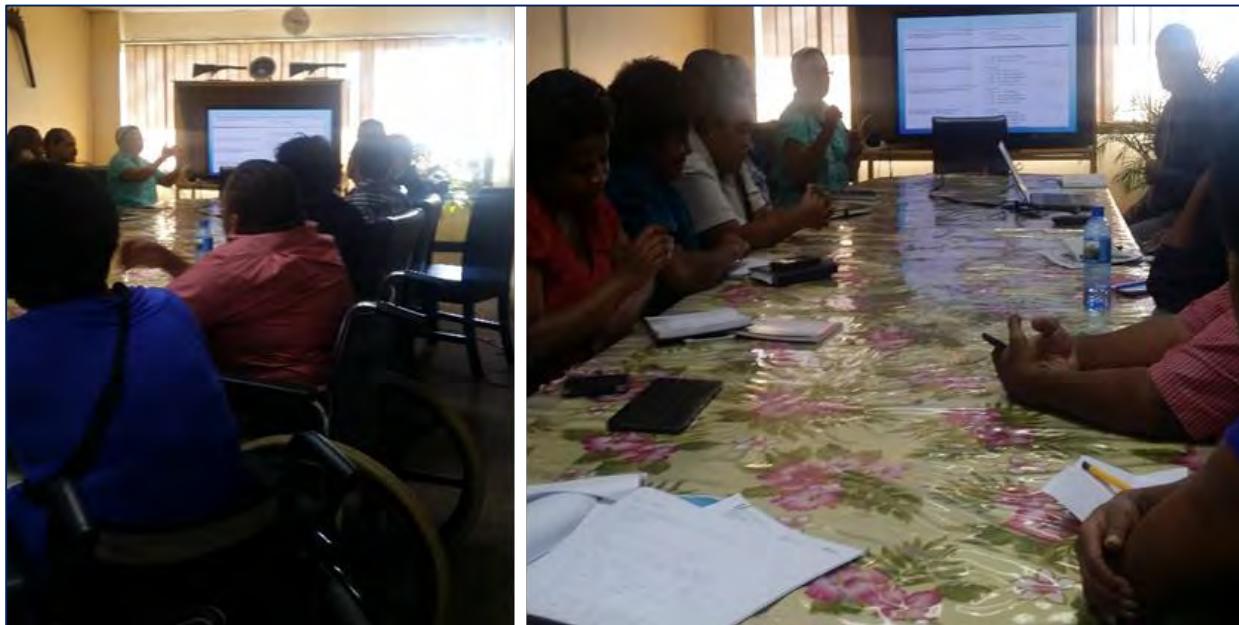

A one-day User Conference was held at the Holiday Inn to discuss the all the modules in the draft Questionnaire. Line Ministries, Development Partners and Other organisations were in attendance.

Figure 16: User Conference

Meetings and consultations were also held with the Fiji Disable People's federation (FDPF) with reference to Module B questions on Functioning Challenges.

Figure 17: Consultation with FDPF on Module B questions

National Strategy for the Development of Statistics (NSDS) Sectoral Assessment

The need to solicit user needs for the 2017 Census presented an opportunity for the NSDS Committee to work with the Census Team in organizing a 2-day consultation with line Ministries and key stakeholders in mid-2017.

The information gathered was relevant for the Sectoral Assessment work and Questionnaire formulation. The Questionnaire was finalised by mid-July, however the major structure was somewhat locked down in early January. Changes were incorporated only when it was considered absolutely essential. The lock down in early January was important for many other aspects of the Census preparation work to proceed smoothly and in a timely way.

The Census Pre Test of the 2017 Population Census AC Training was scheduled to begin on the 08th – 10th of May, 2017 in the Western Division. The Team then left for the Northern Division on Wednesday (10th of May) and returned to the Central Division on Thursday (11th of May).

TRAINING AND FIELD OPERATIONS

TRAINING

Indicator: Training by Administrative Division and creation of Field-work manuals

Baseline: 2007 Census manuals

Target: Successful completion of training 150 ACs, 650 Supervisors, 2156 Enumerators

The key objectives of the Census Training Team was to;

1. ensure that the aim, objectives and learning outcomes for all training schedules were measurable
2. ensure that the training materials provided clear and concise objectives with specific focus on desired outcomes for each schedule
3. provide a sense of direction and to ensure that all training outcomes were achieved
4. provide benchmarks that can be used to measure the participants understanding for all the questionnaire schedules

Assessments on participants understanding was made after the training week to ascertain the understanding of the trainees

Chronology of Events

Table 8: Training and Field operations – chronology of events

Activities	Start date	End date
Setting up of training pac	01/02/2016	18/02/2017
Finalise Test papers	06/02/2017	20/02/2017
Preparation of training materials	24-Oct-16	14/02/2017
Training in the Western Division/Nadi - AC	20/02/2017	20/02/2017
Training in the Central Division - AC	20/02/2017	20/02/2017
Marking of test papers	25/02/2017	25/02/2017
Training in the Northern Division - AC	27/02/2017	27/02/2017
Training in Ba	27/02/2017	27/02/2017
Marking of test papers for North and Ba	3-Apr-17	3-Apr-17
Finalise AC Manual	5-Jan-16	31/05/2017
Drafting of Supervisor & Enumerators Manual	31/03/2017	1/7/2017
Finalise Field Manual for Supervisor & Enumerators	2-May-17	31/06/2017
Finalise Test papers	31-Jul-17	4-Aug-17
Recruitment of AC	13/03/2017	13/03/2017

The census training dates were as below;

AC training;

- Round 1 – 13-24/02/17 (AC), by Division
- Round 2 – 12-23/06/17 (AC), by Division
- Round 3 – 01-11/08/17 (AC), by Division

Enumerator training;

- 14-25/08/17, by AC training venues

Supervisor training;

- 28-30/08/2017, by AC training venues

Enumerators and Supervisors were trained during the period 14 to 25 August. Enumerators assigned to cover the rural areas were deployed one to two days before the enumeration period of 18 September to 18 October to gather information on all persons living in households within their assigned Enumeration Area (EA).

Training materials included the following;

- Tablet
- AC Manual
- Supervisor Manual
- Enumerator manual
- Training slides
- Training programme
- Census Act.
- Stationeries

Between September 4th and the Census Night i.e. the night of September 17th, the Area Coordinators were occupied in all the prescribed preparatory work before the Supervisors and Enumerators were engaged.

Figure 18: Area Coordinators preparations before training

The Training Committee had to ensure that the AC's training the Enumerators and Supervisors actioned the following key areas of responsibilities;

- All trainees to be thoroughly familiar with the contents of the enumerator and supervisor manual.

- All trainees sat the required examination on August 18th and that their selection to be based on their overall performance during the training and examination results.
- During the three weeks period after Census Night (18 September to 6 October 2017), all Enumerators to have collected and recorded all the required information from households in their respective EAs.
- Enumerators to continuously sync completed questionnaires from the field to the Supervisors who upon approval will send it to the AC at HQ level.
- For any unanswered questions or errors on the filled forms, the AC was to reject the form and return it to the Supervisor who sends it to the enumerator in the field to amend and resend.

Reserved enumerators were used;

- To assist in the Enumeration of the largest and/or most populous EAs.
- When a regular enumerator needed to be replaced because of illness, non-performance or inappropriate behaviour.
- For enumeration in areas where work was progressing more slowly than expected, for instance, due to adverse weather conditions or other challenging situations.
- To help out in the enumeration of Institutionalized persons in non-private dwellings (NPDs) i.e. Hospitals and Other Health Facilities, Correction institutions, Boarding Schools, Single Officers Barracks, Work Camps etc. as well as the enumeration of hotel/motel guests.

All equipment including tablets, charger, external battery, map(s), identification card etc. had to be returned to the supervisor after the operation.

NPDs/Other Institutions

It was the role of the lead trainer to ensure the proper count of Non private dwellings (NPD) and or other institutions. The key responsibilities of the institutional coordinators were clearly articulated as per the following;

- To complete the questionnaire as soon as possible after census night.
- To ensure that the name of the institution (or ship) were written at the top of the questionnaire to distinguish it from a private household.

- To communicate with the responsible AC and supervisor on certain areas that needed clarity.
- To ensure that the submitted questionnaire was checked for consistency and accuracy.
- To note any issues encountered and have clear comments with instructions for the Supervisor whilst collecting the questionnaire.

KEY PERFORMANCE INDICATORS

The following had to be considered before the payment of institutional coordinators;

- Questionnaire filled within the scheduled time.
- Quality of data collected.
- All institutional dwellers were enumerated.

Training by Key Stakeholders and Consultants

Throughout the preparatory phase, key stakeholders and consultants were formally requested to present to the Area Coordinators on the questionnaire modules. This was done to provide an in-depth understanding of the series of questions to obtain the required information from households. They were then expected to deliberate on this whilst conducting their own training at the various training centres.

1. Ministry of Employment Productivity and Industrial Relations (MEPIR)

For any field operation, the safety of Field staff is paramount. Through the MPEIR awareness sessions, the AC's were informed of the Health and Safety at Work Act of 1996 and more.

The awareness included the following;

1. *Training Regulations 1997*
2. *Administration Regulations 1997*
3. *Fees Schedule*
4. *General Workplace Conditions Regulations 2003*
5. *Control of Hazardous Substances Regulations 2006*
6. *Diving Regulations 2006*
7. *HIV/AIDS at Workplace 2008*
8. *Sexual Harassment at Workplace (COP)*

The AC's gained from the MEPIR OHS awareness sessions through their;

- *clear understanding of the importance of health & safety in the workplace*
- *their ability to identify the different types of hazards in the workplace*

- awareness of their “duty of care” obligations in the Health & Safety at Work Act 1996
- ability to identify the importance of health & safety committees
- knowledge of the Duties of workers, Duties of Employers, Duties of Persons in Control of the Workplace, Duties of Employers to Non-Workers.
- Knowledge of the legal protections for workers who assist Health and Safety Inspectors
- Awareness of the OHS Committees- roles and responsibilities
- Knowledge of Penalties for breaching legislation, regulations in OHS

2. International Labour Organisation (ILO) (CL & ICLS concept)

Child labour training

A Child labour data collection and analysis training was conducted for the ACs from the 9th to the 11th of May. The overall aim was to promote the collection of national data on child labour and education through the census, socio economic surveys, labour force surveys and other national surveys.

The training helped the Area Coordinators;

- i. Understand child labour concepts and legal frameworks to promote quality data collection in the 2017 Fiji census
- ii. Assess the links between Census questions and child labour data analysis
- iii. Prepare for training of 2017 Census Enumerators

ICLS concept

The ILO's Regional Statistician, ROAP Bangkok Mission to Fiji on 02 - 05 May 2017 - CPO FJI127 was beneficial to us following his presentation to the AC's on the ICLS concept of Economic Activity with special reference to Module D on Economic Activities Last Week. The contents of the presentation also helped in building FBoS' capacity to produce regular reports on the SDGs decent work indicators.

3. SPC (Questionnaire design, Mapping & Gender Perspectives)

Questionnaire design

The Fiji Bureau of Statistics sought the assistance of the Pacific Community's Statistics for Development Division (SDD) to provide CAPI training for the proposed ILO/SPC Census questions. The technical support and plans were developed within the framework of Phase 2 (2015-2017) of the Ten Year Pacific Statistics Development Strategy (TYPSS). Cost sharing arrangements was made with regards to the TA and SDD also helped in the justification and procurement of tablets.

The following topics were covered during the training;

Table 8.1: CAPI training learning objectives

Topics	Learning Objectives
1. Introduction on Survey Solutions	1. For an overview on the CAPI application 2. The benefits of the software and conduct of surveys
2. Questionnaire Design	1. Register 2. Sections 3. Rosters 4. Question Type 5. Variable name / label 6. Categories / options 7. Enabling / Validation conditions 8. Testing
3. Questions and Modules	1. Economic Activity 2. Education 3. Fertility
4. Interviewer processes	1. Login 2. Interviewing / capturing data 3. Synchronising 4. Rejection / Validation 5. Commenting
4a. Data Collection/3 Main components of data collection	1. Interviewer App (tablet) 2. Supervisor Interface (tablet or computer) 3. Headquarters (tablet or computer)
5. Supervisor processes	1. Monitoring, checking of questionnaires 2. Approval / rejection / unanswered / commented 3. Reports
5a. Monitoring – interviewer 5b. Monitoring – supervisor 5c. Monitoring – headquarter	
6. Headquarters processes	1. Report 2. Map report 3. Quantity/Speed 4. Chart 5. Team Status
7. Server / Admin processes	1. Data Storage 2. Data download 3. Creation of accounts 4. Uploading of questionnaire

Mapping

In 2016, SPC conducted training for the mapping team using QGIS and from July 3rd, 2016, a Mapping Specialist started to assist with the revision of EA boundaries. The following is a list of Census Mapping activities that were carried out;

1. Updating of new and existing rural localities for Tikina's
2. Plotting of new localities on the ground

3. Identifying and confirmation on the field on whether proposed town boundaries crossed or affected FBoS EA boundaries.
4. Identifying changes to Land Types (Agriculture Land to Housing land)
5. Gathering additional information from areas visited with reference to water source, type of farming and power source.
6. Identifying the number of schools and students roll (pre-sch and primary) in remote areas.
7. Digitizing of satellite imagery, – Quantum GIS

Gender Statistics Session

Under the SPC Social Development Programme of their Social Development Division, the Gender Statistics Advisor provided advice and did a presentation on the concept of Gender to the Area Coordinators on the 26th of May, 2017. This was useful when the ACs conducted their Enumerator and Supervisor training.

The session helped the Census Staff;

1. In their understanding of how the information from the Census is used to analyse progress towards gender equality.
2. Develop capacity and explore issues for gender sensitive census enumeration in the ‘difficult’ Census questions and concepts of head of the household, women’s economic activities, education qualifications, sexual harassment of enumerators and the difference between sex and gender.

The Census Staff then included issues about the personal safety of enumerators and household survey interviewers in their training. In the same connection, information about sexual harassment was incorporated into the Enumerator and Supervisor training (including the process for complaints etc.). Materials provided to household interviewers for their personal safety was also clarified.

4. Private consultants

Figure 19.1: Training under the guidance of renowned Demographer, Dr. Martin Bakker

Consultants who were involved in the previous Fiji Census were also invited to present during the Area Coordinator training on key variables in the Census questionnaire. This was an effort to help them prepare and guide the enumerators in the correct filing of detailed information on the following demographic processes; fertility, mortality and internal migration in addition to the housing particulars of Fiji's population. It was also to build the Area Coordinators understanding on the importance of ensuring that questionnaire variables were correctly answered as they provide benchmark data that serves as a key reference for population and housing related statistics in subsequent years.

Assessment and Evaluation

A tool was developed to gauge the understanding of all Census Staff. This was used to evaluate their understanding of the topics that were being covered during the training of Area Coordinators. Daily programmes and scheduled targets with clear objectives were set in place not only to maintain consistency in the officers work effort but to avoid any side-track from a certain course of action. Appendices six and seven contain the templates used.

Assessments were also inclusive and all involved were asked to provide feedbacks on how they were being assessed. Such inclusiveness created ownership of the project for all towards the vision and mission set in place. It was useful for management to have a gauge on how well the Census Staff understood the concepts being taught during training.

The assessments and evaluations provided feedback to management on the depth of understanding of each officer for all the Census modules. This led to activities such as the conduct of a half day refresher course and this exercise was carried forward during the training of Supervisors and Enumerators.

Half Day Refresher Course

The half day refresher course was conducted to ensure that all enumerators were able to obtain and accurately record high quality information while undertaking household interviews. Having a clear understanding of what was expected of a quality response assisted the Supervisors in their work of checking the completed interviews. This was be done by;

1. The review of topics that required further clarification, identified through the analysis of training test results.
2. Undertaking exercises and scenarios to work through correct recording of information for Module D: Economic activity.

The sessions for the half day refresher course were designed to build a shared understanding about the sequencing of the questions in Survey Solutions as much as providing clarity on the concepts and definitions using real work scenarios. The sessions used examples that would assist Enumerators accurately record the main activity and providing the right level of detail for occupation classification. Appendix 8 provides further insights on this.

FIELD OPERATIONS

The Area Coordinators prepared all the fieldwork plans in their assigned areas. It included the preparation of small area budgets and enumeration plans. It also involved the training logistics for the Enumerators and Supervisors. Other field logistics was planned and executed by the HSU management staff.

Other aspects of operations that required particular focus was;

1. Creating an enumeration strategy for Non Private Dwellings (NPDs), ethnic group such as Chinese, high-class dwellings and the homeless.
 - A separate questionnaire was created for NPD's. This was given in advance with specific instructions to institutional coordinators before the actual Census night.
 - A publication officer was also deployed to the Western Division to assist enumerators in the enumeration of high class residents
2. Translation during interviews for non-English speaking respondents.
 - A Chinese translator (FBoS staff) was specifically tasked to enumerate Chinese households.
3. The development of field processes and procedures.
 - Certain aspects such as household approaches, communication at the community level such as traditional villages were taught during training.
4. Developing plans for the April 2017 Pilot Test.
 - This was done via four phases of testing to ensure challenges encountered were resolved before the actual Census enumeration.
5. Logistics planning and management.
 - Together with scheduled meetings, coordination was through regular communication with the Divisional Offices which ensured that everyone was aware of progress with every activity.
 - The AC's prepared daily work plans for the enumerators under their supervision.
 - The work was closely monitored daily to ensure good coverage.
6. The mobility of Fiji's population led to a longer enumeration period. The enumeration of urban households was particularly problematic and a lot of revisits was required in order to conduct the interviews.
 - The 2017 Census used tablet technology of which questionnaires were synced in real time via the WB survey solutions (refer to the flow

of data in the diagram below) software. The three weeks of enumeration entailed live feedbacks synced in through tablets from Enumerators. This was received by the Supervisors who either approved and sent it to HQ (AC level) or rejected and sent it back to the enumerators for corrections.

Given that the three weeks of enumeration was monitored live, administrators at HQ level together with management were able to determine if a particular EA was under enumerated. In that connection, for a month's period, a mop up exercise was done for respective enumeration areas that needed re-visits. Follow-up visits were carried out for households whose occupants were either absent when the enumerators visited or had incomplete information in their schedules. The notion was to ensure the coverage of all Fiji residents and the collection of good quality data.

World Bank survey solutions

- The use of Survey Solutions enabled;
 - better communication between the Enumerators and Supervisors which meant effective monitoring of work.
 - the collection of reliable information due to checks performed during the interview
 - a more timely release of the census results due to a reduced time lag between data collection and data analysis.

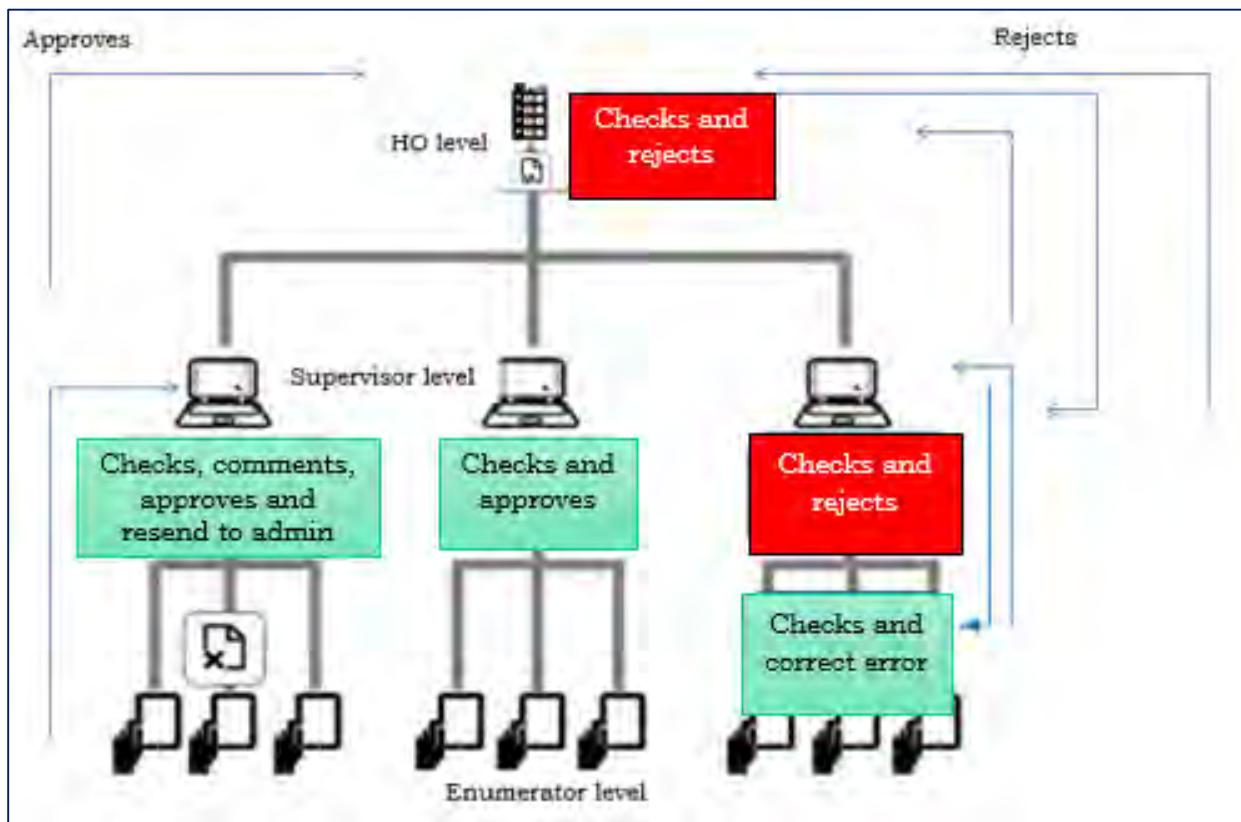

Data collection and monitoring

There 3 main components of data collection were the;

1. interviewer app (use of tablet)
2. supervisor interface (use of tablet or computer)
3. headquarters (use of tablet or computer)

Flow of Data

Figure 20: Flow of Data

Computer Assisted Personal Interview (CAPI) Using Survey Solutions

Previous Censuses required months for coding, data capture and verification. CAPI allows for computer assisted coding which saved time and resources and it improved the timeliness of data release.

Interviewer - Monitoring

The Interviewer was responsible for data collection in the field and was able to continue data entry without internet access. Internet was, however, needed for log in and syncing of completed questionnaires. The following features allowed the enumerator to monitor their own work when entering data.

- Validation checks in the questionnaire – skips, logics and filtering.
- Ease in filling in the information.
- Use of different screen colours to differentiate data input
 - **RED** – had errors
 - **BLUE** – not completed
 - **GREEN** - completed
- continuation of data entry if there was error

- showed data summary before synchronizing for the following
 - Number of completed questions
 - Number of errors
 - Number of unanswered questions

Supervisor - Monitoring

Supervisors were able to;

- Monitor the progress and performance of each enumerator
- Monitor the number of households completed
- Monitor the length of time to complete each household
- Monitor the number of errors submitted/unanswered questions
- Monitor Enumerator connection i.e. whether it had started or not
- Reject and approve a questionnaire
- Provide comments/instructions/solutions on errors
- Keep a record of all the comments

Headquarter - Monitoring

HQ Monitors included the Area Coordinator, Subject Matter staff and Census management. HQ had the same access as the Supervisors but with the extra functions below:

- Access the questionnaires
- Map GPS points on the map (illustrations as depicted in the figures below)
- Generate graph of progress
- Export data anytime – delimiter, STATA, SPSS

Other monitoring tools included;

1. The photo of the dwelling that had to be captured after an interview.
2. APN (Access Point Name).
3. Lock updates.
4. Blocking the use of other apps – Facebook, YouTube etc.
5. Daily report updates on data usage for each enumerator and supervisor.
6. CUG – Closed User Group for HQ.
7. Improved communication.
8. Efficient addressing of issues in the field whilst the enumerators were still in the field.

Highlights and Challenges

The following highlights and challenges were considered at length;

- Improvements in data quality by correcting survey process during the field operation.
- The system recording all events with timestamps on a tablet: Data entry, Data correction, Responsibility changes, etc.
- Analysis of time per interview, time per question, and section.
- Changes in productivity over time, for different interviewers, and teams.
- Quality control, through monitoring and evaluation.
- Ensuring that all the checks were affixed in the questionnaire to ensure that data is almost edited and final when field work is completed.

Figure 21: Progress View at HQ level (1)

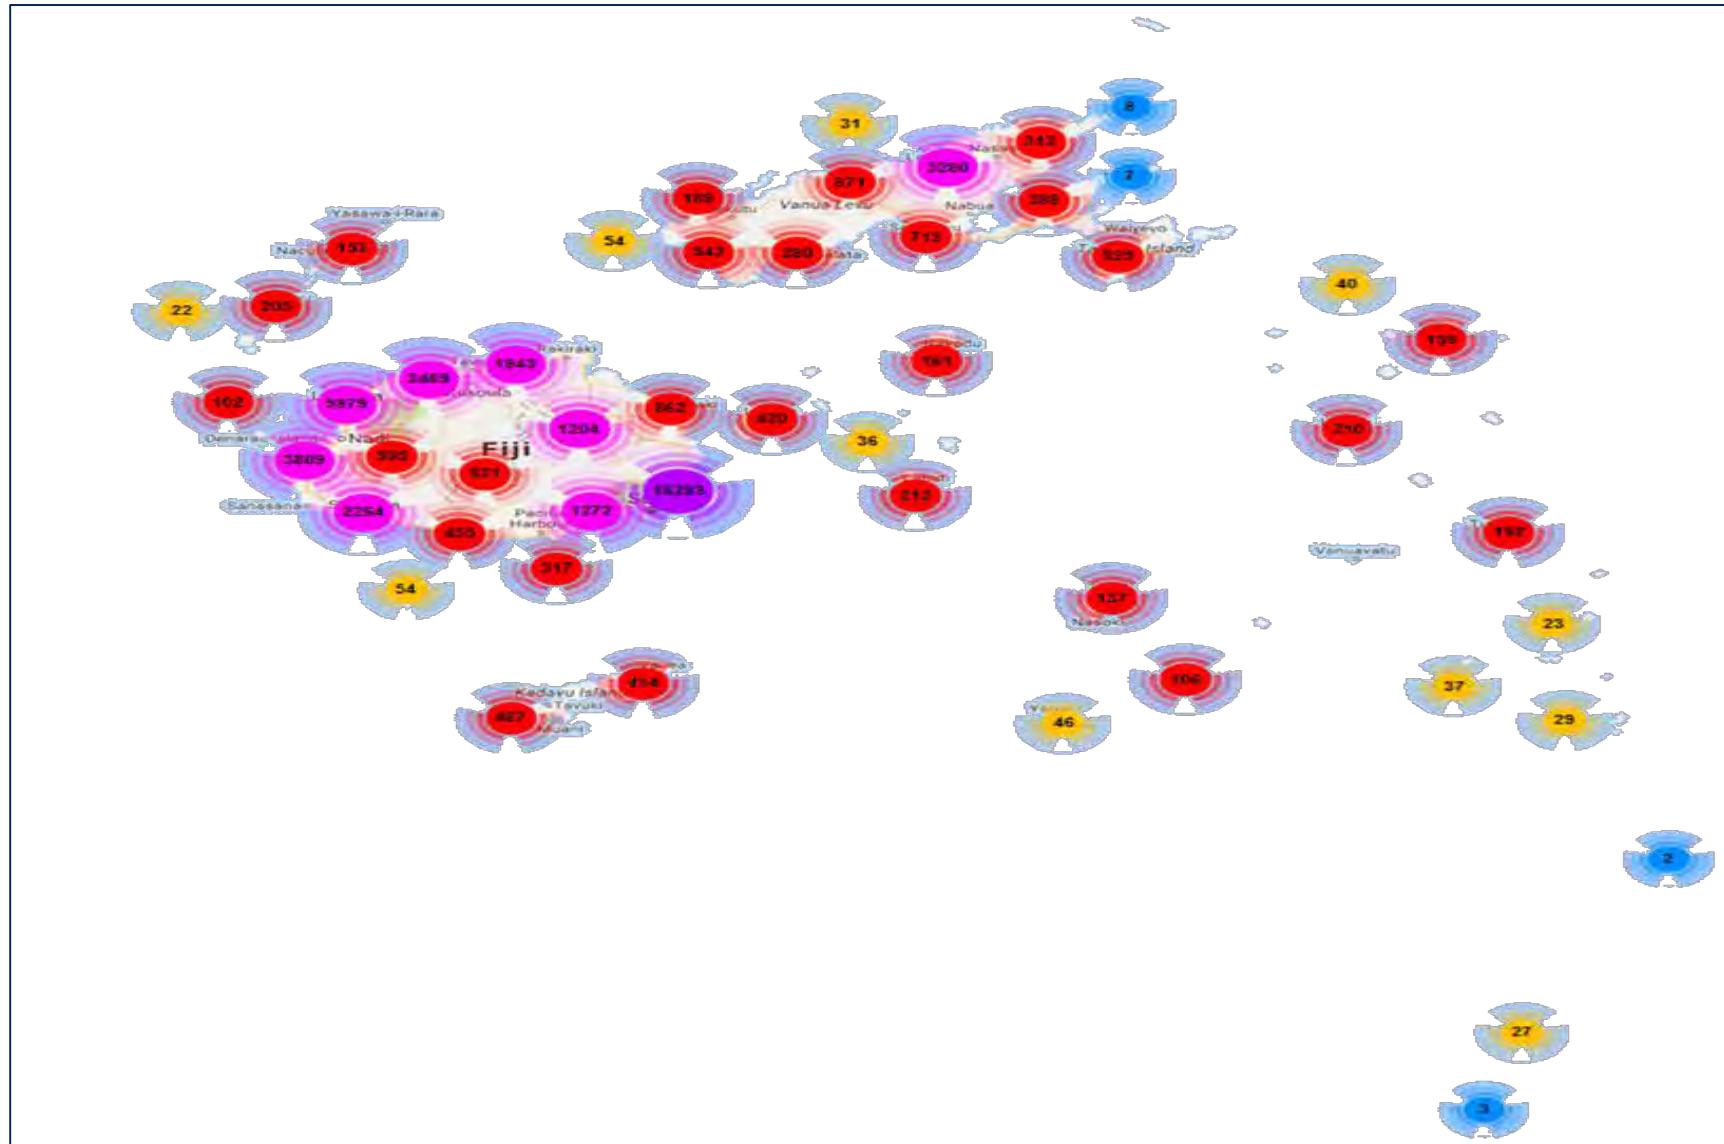

Figure 22: Progress View at HQ level (2)

With live feedbacks, HQ was able to highlight to Area coordinators respective areas that needed to be revisited as per GPS waypoints on the map.

World Bank Server

FBoS is the process acquiring its own server to store all data collected during Census. Whilst this is in progress, the Census data is stored free in the WB server which has administrators to coordinate with WBSS technical staff for access and usage. This is hosted in the cloud (Amazon). The Census data is encrypted, safe and secure and is easy to download whenever required.

UN Participation in the Fiji 2017 National Population and Housing Census

Following an official request from the UN Data Monitoring and Evaluation Group (DMEG) Chair, the Bureau conducted a one hour brief at the UNDP Conference Room, on Level 8, Kadavu House in Suva on the 21st of July, 2017.

The brief covered the contents of the Census questionnaire, the use of Computer Assisted Personal Interview (CAPI) and the World Bank's Survey Solutions software.

The DMEG is one arm of the UN Country Team that oversees and supports efforts to improve data availability, analysis, and utilization for evidence based decision making and policy development, basically promoting data integrity across its lifecycle. A key role of DMEG is to strengthen Pacific Islands Countries and Territories (PITCs)' capacity in the areas related to the monitoring of the SDG Goals, Pacific Headline Indicators and the United Nations Pacific Strategy (UNPS). This is through enhanced partnerships, collaboration and coordination of data and statistical activities within the Fiji and Samoa UNCTs and within the UNS governance mechanism.

The request of DMEG members to participate and to observe the Census process was not for quality control but to enable the following;

1. Create awareness among the DMEG members on what field work and interviewing actually entails;
2. Give the UN Staff an idea of the complexity and the enormity of the activity being undertaken during a Census to collect data on each and every person residing in Fiji and
3. To increase knowledge in the data compiling, analyzing and the use of tablet in the process.

The objectives of the DMEG members to participate and observe the 2017 Fiji Population and Housing Census processes is attached in Appendix 20.

Table 9: Operation Centres

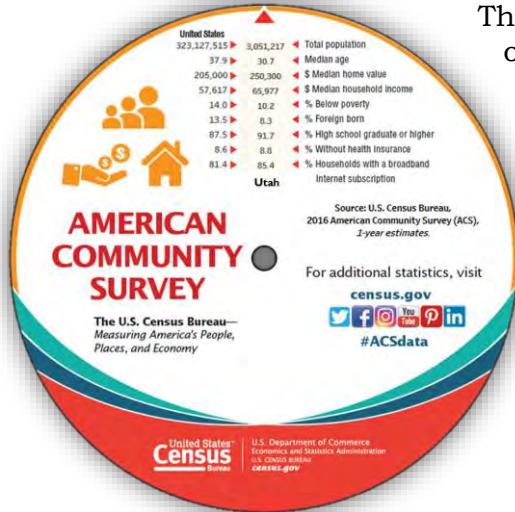

2017 Population and Housing Census - Operation Centers		
Office	Locality	Total Centers
Western/ Nadi Office	Vatumali Government Station, Ministry of Agriculture Conference room - Navosa (Nadroga)	4
	Old Elections Office Building (Tavewa Avenue - Lautoka)	
	Nadi Town Council Civic center (Nadi)	
	Saint Joan of Arc hall - Sigatoka (Nadroga)	
Western/ Ba Office	Ba - Red Cross Hall (Ba)	3
	Tavua Town Council (Ra)

	Colo-I-Suva Police Post	
	Cunning Ham	
	Lami Operation Centre	
	Nasinu Mobile	
	Levuka (PA Levuka conference room)	
	Vunisea (Kadavu)	

Note: 3 ships were also deployed for the Census Count. Two for the Lau group and one for the Lomaiviti group.

American Community Survey (ACS) Data Wheel and the 2017 Fiji Census

The American Community Survey (ACS) is a vital collection of statistics in America, and the ACS Data Wheel is a tool to promote the dissemination of critical statistics. It is an example of engaging a broad audience to make statistics meaningful for the community.

Figure 23: American Community Survey (ACS) Data Wheel

The ACS Data wheel journey was created as an opportunity for statistical agencies in participating countries to interact with new ways for data dissemination as well as promoting informal relationships amongst statistical agencies internationally.

The US Census Bureau and the Australian Bureau of Statistics, Census Program, created an initiative to connect the international Census Community in an informal way.

The Fiji Bureau of Statistics during the 2017 Population and Housing Census was also introduced to the fun journey of the ACS Interactive Data by ABS. The Department was invited to be included in the ACS Data Wheel journey by the Australian Bureau of Statistics, Census Program, and was registered to receive updates on this from US Census Bureau.

Figure 24: An informal way of staying connected and sharing the love for data and data products

Publicity and Stakeholder consultation

Indicator: Actual visitation as planned, census logo, consultation with both internal and external stakeholders

Baseline: Consultations with key stakeholders

Target: In line with the Census output release

Objectives

The key objectives of the Census Publicity Team was to;

1. ensure that the awareness for Census helps to create survey results and that proper guidelines are adhered to
2. ensure that all publications in the media communicates guidelines so as to help field officers receive accurate results
3. generate media exposure on the specifics and benefits of the survey whilst at the same time provide meaningful insights about the department
4. ensure that all required printings for the survey purposes are done on time

Chronology of Events

Table 10: Publicity – chronology of events

Activities	Start date	End date
Setup of Internal committee	17/02/2016	17/02/2016
Set up of Publicity Team	17/02/2016	17/02/2016
1st meeting	10/03/2016	10/03/2016
Quotations for SMS, Billboards, Dailies, Radio, LED screens, Bands, Posters	11/03/2016	11/03/2016
Budget planning	22/02/2016	22/02/2016
2nd meeting	14/03/2016	14/03/2016
Inputs from members on budget	14/03/2016	14/03/2016
Budget finalised	14/03/2016	18/03/2016
Consultation with the budget Team	15/03/2016	18/03/2016
Update with Team Members	18/03/2016	18/03/2016
Presentation to Internal committee	5/04/2016	5/04/2016
Presentation to ABS	21/04/2016	21/04/2016
Update with Team Members	22/04/2016	22/04/2016
Minute to GS for staff input for Census logo	15/08/2016	15/08/2016
Email to all staff for Census logo suggestion	16/08/2016	16/08/2016
Meeting with the team for TV and Radio Ad Concepts	22/08/2016	26/08/2016
Consultation with Production companies for quotations and resources they have	31/08/2016	31/08/2017
Meeting with Senior Statistician Publication and SS IT on creating FBoS Social Media Accounts	5/09/2016	5/09/2016
Minute to GS for social media accounts	6/09/2016	6/09/2016
Meeting with Team on content for Social Media Accounts	12/09/2016	26/09/2016

Activities	Start date	End date
Finalise Census Logo with DGS, GS	15/09/2016	15/09/2016
Work with Graphic Artist to have logo finalised	16/09/2016	16/09/2016
Meeting with Statistician Publication and SS IT on workings of Social Media Account	16/09/2016	20/09/2016
Set up of Social Media accounts	27/09/2016	28/09/2016
Using of Social Media Account for Vacancy Ads	23/09/2016	11/11/2016
Training in the Central Division [Publicity Team to avail themselves for the training	14/11/2016	18/11/2016
Work with IT team on creating signatures that all staff can use for Census awareness	1/12/2016	9/12/2016
Use of signature with census logo for all staff	2/01/2017	18/09/2017
Meeting with UNFPA team on videos and graphics for Poster and T-Shirts	2/01/2017	18/01/2017
Meeting with Production team on finalising Ads for TV and Radio	9/01/2017	31/05/2017
Contact Ministry of i-Taukei Affairs for provincial and tikina council meetings	9/01/2017	14/01/2017
Finalise travelling plans to Provincial and Tikina Council meetings with Publicity Team	14/01/2017	28/04/2017
Write minute to GS for approval of travel for team for Provincial and Tikina Council meetings	14/01/2017	28/04/2017
Visits to Provincial and Tikina Council meetings	14/01/2017	28/04/2017
Meeting with Publicity Team on contents for Posters and stickers	16/01/2017	20/01/2016
Getting quotations from printing companies for Stickers and Posters	18/01/2017	20/01/2016
Look at contents for stickers and posters with Publicity Team	19/01/2017	19/01/2017
Get comments from GS for stickers and posters and make edits	20/01/2017	23/01/2017
Finalise contents for stickers and posters to be sent to Printing company	24/01/2017	24/01/2017
Minute to GS for approval of printing of posters and stickers	25/01/2017	25/01/2017
Sending of contents for posters and stickers to printing company	25/01/2017	25/01/2017
Meeting with Publicity Team on contents for Billboards	27/01/2017	1/02/2017
Visitation to Schools, Ministries, Departments and AGMs and Conferences	1/02/2016	31/08/2017
Getting quotations from companies for Billboards	2/02/2017	3/02/2017
Relook at contents for Billboards with Publicity Team	6/02/2017	8/02/2017
Get comments from GS for Billboards and make edits	9/02/2017	10/02/2017
Finalise contents for Billboards to be sent to advertising company	10/02/2017	10/02/2017
Minute to GS for approval of use Billboards	13/02/2017	13/02/2017
Sending of contents for Billboards to printing company	14/02/2017	14/02/2017
Meeting with Publicity Team and discussing concepts for radio ads	3/03/2017	7/04/2017
Getting Quotations from FBC for TV Ads	10/03/2017	4/08/2017
Meeting with radio stations [CFL & FBC] and having discussions on concepts for ads and quotations for ads	11/03/2017	21/04/2017
Radio ads will begin	21/07/2017	30/09/2017

Activities	Start date	End date
Continual discussions with radio stations and FBC on ad and edits that need to be made	24/04/2017	28/09/2017
Meeting with Publicity Team and discussing concepts for paper ads and Budget planning	1/05/2017	31/05/2017
Meeting with Fiji Sun and having discussions on concepts and quotations for ads	6/05/2017	30/08/2017
Minute to GS for approval of newspaper company to use for ads	14/05/2017	14/05/2017
Finalise newspaper ad and send to newspaper company	15/05/2017	18/05/2017
Ads for TV will begin	15/05/2017	15/10/2017
Newspaper ads to begin	19/05/2017	30/09/2017
Using of Social Media Account for Census awareness	10/06/2017	15/10/2017
Getting Quotations from Damodar and Life Cinemas for Cinema Ads	20/06/2017	30/06/2017
CinemAds will begin	3/07/2017	15/10/2017
Putting up of Billboards	1/07/2017	30/09/2017
Publicity on Talk shows	1/07/2017	15/10/2017
Getting Quotations from LED Screens Ads	14/08/2017	18/08/2017
LED Screens will begin	10/09/2017	15/10/2017
Getting quotations for pens, badges, key tags and eco bags	14/08/2017	18/08/2017
Preview final ad edit to GS and edit as suggested	15/08/2017	17/08/2017
Census Countdown, Census Day- Ad	1/09/2017	17/09/2017
Reminder that it is not too late to fill in Questionnaire	22/09/2017	30/09/2017
Reminder to have Census Questionnaire filled to avoid facing prosecution	1/10/2017	8/10/2017
Final Ad on thanking everyone for taking part in the Census	9/09/2017	15/10/2017

Publicity

Publicity plans were well advanced with a comprehensive range of activities planned. The Census logo was chosen- as “[You Matter, Be Counted](#)” in alignment with the Sustainable Development Goals (SDG) “[Leaving no one behind](#)”. Once the logo was finalised an email signature for all was created to create more awareness.

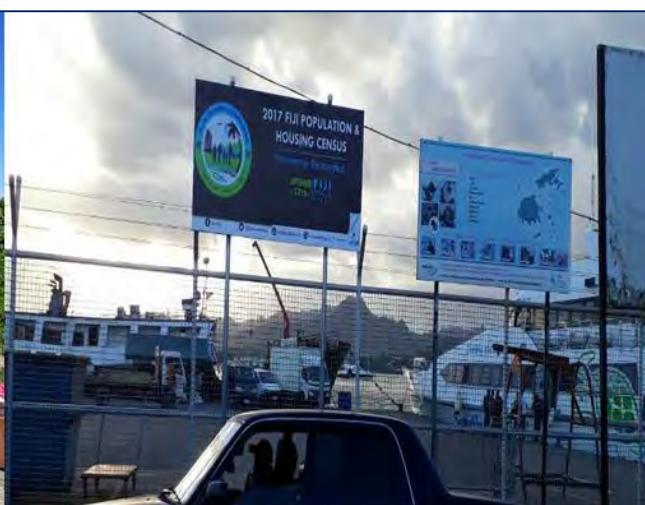

Electronic advertising was made available through social media including the departments’ official website. The use of social media became a useful way to connect with a millennial generation who may otherwise be difficult to reach through traditional publicity approaches.

As depicted below, billboard advertising with the Census and Bureau Logo pasted on vehicles that were used during the operation created more awareness to the general public. In particular, the rural communities.

Figure 25: Billboard Advertising

Korolevu Jetty

Narain Jetty

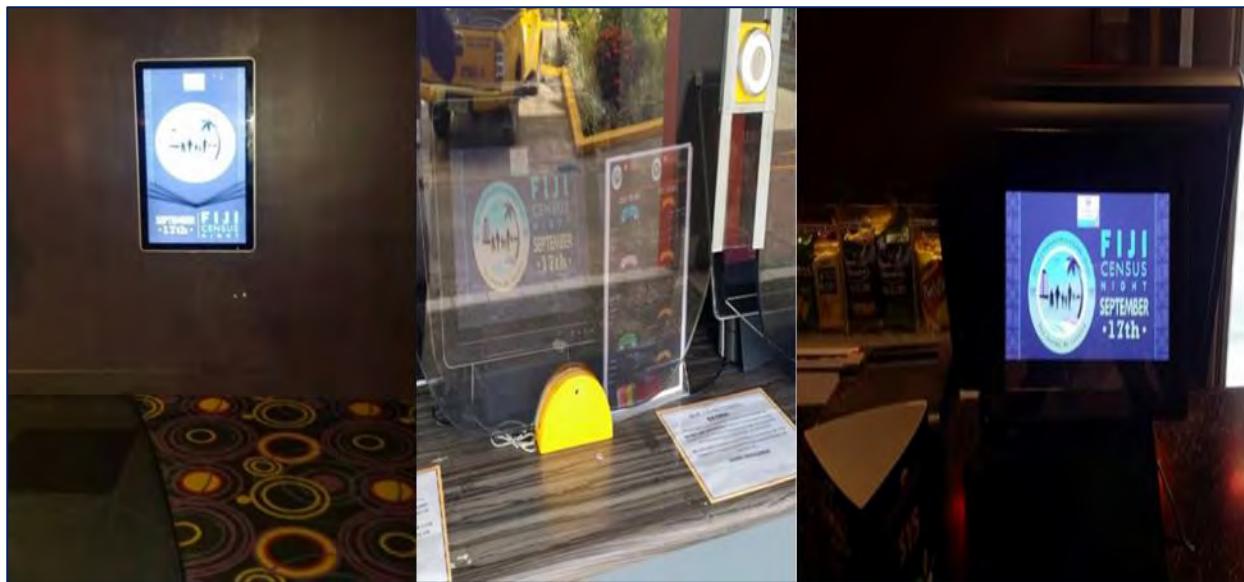

Figure 26: Led Screen and Vehicle Advertising

North Pole hotel, Labasa

The Publicity Team also placed advertisements in the cinemas.

Figure 27: Advertising in the cinemas

Awareness materials in the pictures below were also given to the public and schools. They included bookmarks, brochures, posters, eco bags, wristbands, key tags, pens and posters.

Figure 28: Awareness materials to the public and schools (1)

Figure 29: Awareness materials to the public and schools (2)

Magazines and daily (Fiji Sun) was also used to reach out audiences that have access to it.

Figure 30: Advertising in the magazine (Turaga)

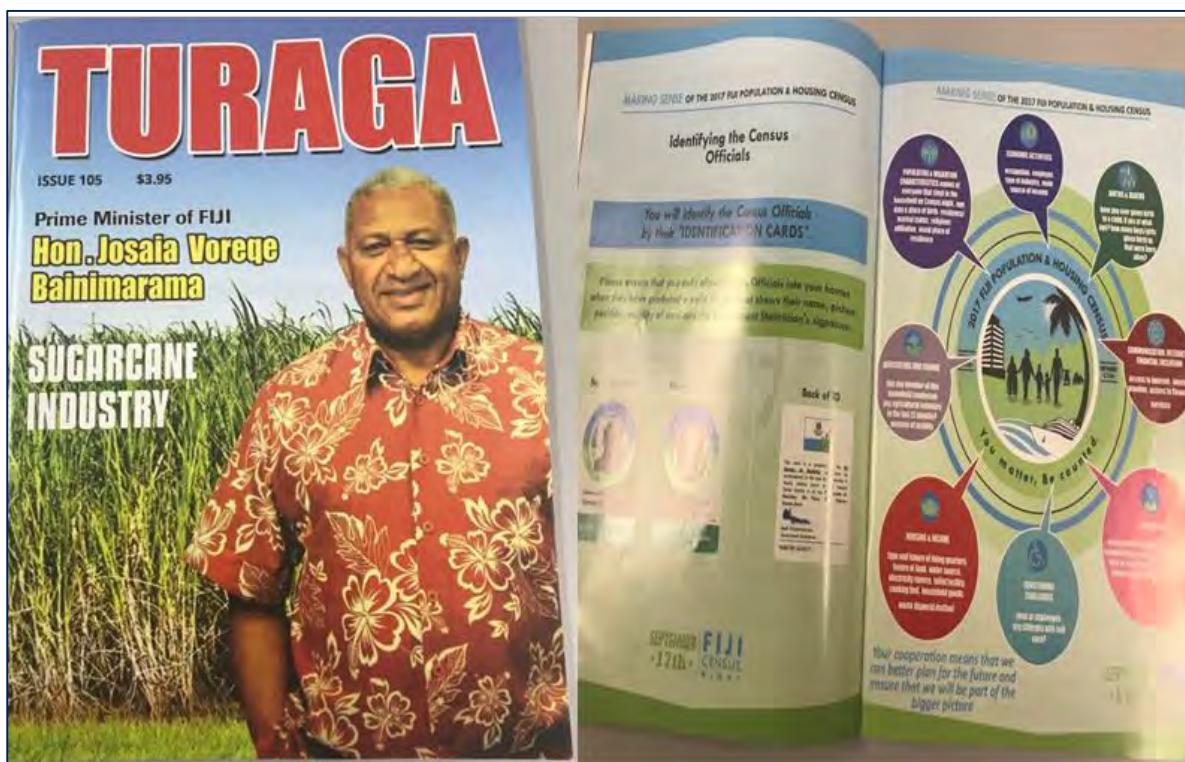

Figure 31: Advertising in the magazine (Entrepreneur)

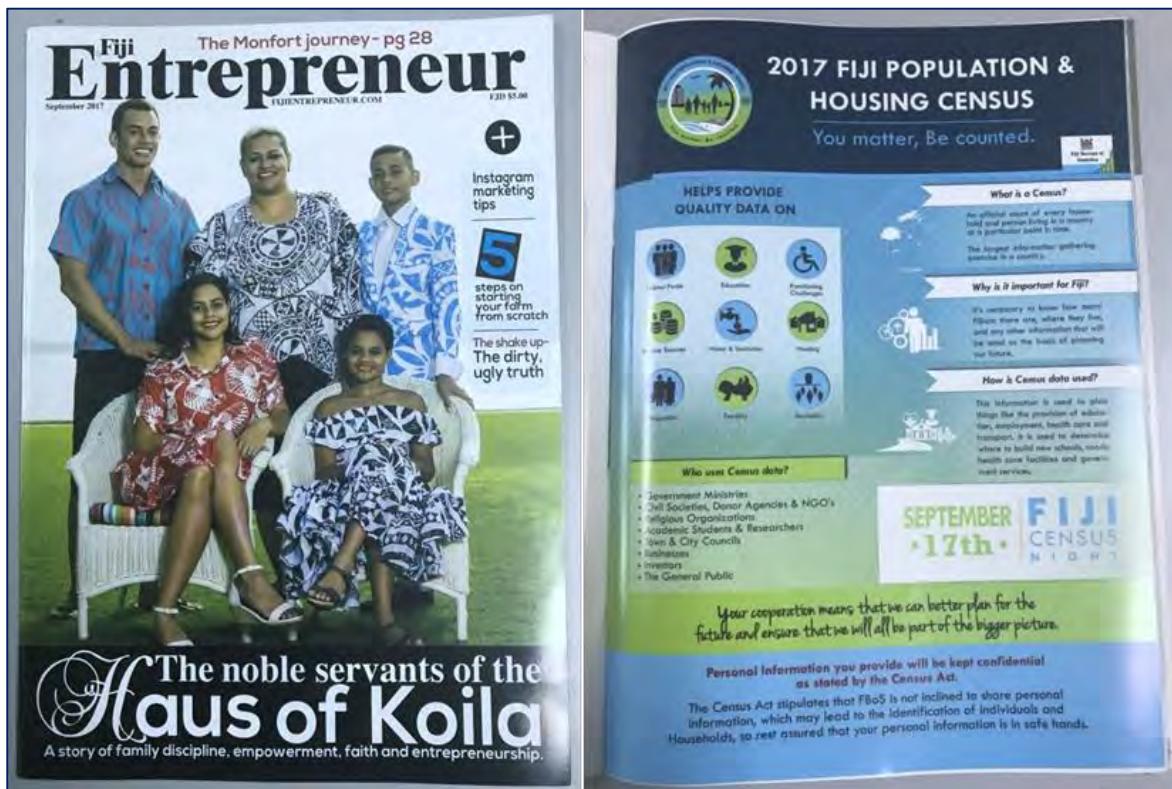

Figure 32: Advertising in the newspaper (Fiji Sun) (1)

Figure 33: Advertising in the newspaper (Fiji focus & Chinese newspaper) (2)

Stakeholder consultation

Presentations to Ministries and Departments began in February after the team attended training with the Area Co-ordinators. Stakeholder consultation around the Census was crucial in gathering their support. The police department in particular became active supporters of the Census.

Publicity materials were developed and printed for the general publicity campaign. The effectiveness of the publicity set a platform for more enquiries flowing in about Census enumeration. The number of phone calls for public enquiries received through the toll free line was also a positive note for the Bureau. In particular, individuals who called for clarity over concerns about not being enumerated well or merely to report certain activities during the three weeks of enumeration.

Information Technology (IT), Purchase and Equipment

The IT purchase and equipment committee activities was twofold. It required both purchases with and without tender board approval.

The key objectives of the Census Information Technology (IT), Purchase and Equipment was to;

1. ensure that the recruited officers for Census were properly trained on the use of tablets, network and survey solutions
2. ensure that the distribution and storage of tablets were properly documented
3. ensure security measures (risks and mitigations) were in place before the actual operation
4. identify areas of improvements from the different pilot phases and have these resolved
5. get the system ready for the Census

Planning & Purchase with Tender Board Approval

Indicator: Tender Board Approval

Baseline: No submissions for tender board

Target: To have a supplier approved for the purchase of tablets, server, and other IT infrastructure. The actual purchase of 3,100 tablets and server with server rack

Chronology of Events

Table 11: Planning & Purchase With Tender Board Approval (Task c1)

Task c1	Activities	Start date	End date
C1.1	IRE Submission to Finance	August, 2016	August, 2016
C1.2	Approval from Finance	August, 2016	August, 2016
C1.3	Money received by Bureau	August, 2016	August, 2016

RIE submissions were done on time as per the Census plan and the funds was approved for use in a timely manner. These were utilised to buy all Census IT equipment which, included tablets, cases, and computing devices, desktop computers, mouse, keyboards, screens, internet, sim cards, printers, toners, power boards, switches, extension cords, etc.

Table 12: Planning & Purchase with Tender Board Approval (c2)

Task c2	Activities	Start date	End date
C2.1	Plan the requirements of the tablets that is to be used in Census	June, 2016	July, 2016
C2.2	Minute to GS for tablets, cases, power banks	August, 2016	November, 2016
C2.3	Minute to GS for Server, server rack, server cooling rack, ups, security	August, 2016	November, 2016
C2.4	Memo to ITC for Tender process	November, 2016	November, 2016
C2.5	Evaluation of equipment with ITC	December, 2016	May, 2016
C2.6	Approval from ITC Steering Committee	December, 2016	May, 2016
C2.7	Tender advertised	December, 2016	May, 2016
C2.8	Tender Evaluation	January, 2017	August, 2017
C2.9	Vendor chosen	April, 2017	September, 2017
C2.10	Approval given to Bureau	April, 2017	Server pending
C2.11	PAO & Team towards finance approval	April, 2017	Server pending
C2.12	Supplier to IT	May, 2017	Server pending

The tender for tablets went out in December 2016 and closed in December 2016. The evaluation was completed by February 2017 and the final approval was given in April 2017. The tablets were received by the end of May 2017. The setup and configurations was done in June 2017. The loading of specific software and training materials was done in July- August 2017. The Server tender was advertised in May 2017 and closed in June 2017. The evaluation was done by August 2017. ITC approval was given in December 2017.

Planning & Purchase Without Tender Board Approval

- Indicator:** The purchase of stationaries, computers, furniture, backup switches, storage, projectors and presenters
Baseline: Actual submissions
Target: Have all purchases done by July 2017

Chronology of Events

Table 13: Planning & Purchase Without Tender Board Approval (Task c3)

Task c3	Activities	Start date	End date
C3.1	Expected RIE amount 2nd Quarter	November, 2016	November, 2016
C3.2	Minute to GS for approval for IT stationaries	December, 2016	April, 2017
C3.3	Purchase of IT stationaries	January, 2017	July, 2017
C3.4	Minute to GS for computers	December, 2016	June, 2017
C3.5	Purchase of computers	January, 2017	July, 2017
C3.6	Minute to GS for back up, switches	December, 2016	June, 2017
C3.7	Purchase of back up, switches	January, 2017	July, 2017

C3.8	Minute to GS projector and presenter	December, 2016	June,2017
C3.9	Purchase of projector and presenter	January, 2017	July, 2017
C3.10	Minute to GS for furniture's	December, 2016	June,2017
C3.11	Purchase of furniture's	January, 2017	July, 2017
C3.12	Minute to GS for internet upgrade for Census	December, 2016	June,2017
C3.13	Upgrades	January, 2017	July, 2017

All items that did not require a tender process were purchased on time and the setup was completed on time.

Other activities for the IT Team are illustrated in the tables below.

Table 14: Recruitment of Statistical Officers, Statistician and Assistant Statistician for Census Operation

Task c4	Activities	Start date	End date
C4.1	Advertisement of positions	December, 2016	December, 2016
C4.2	Shortlisting candidates	January, 2017	January, 2017
C4.3	Interviews for shortlisted candidates	February, 2017	February, 2017
C4.4	Decision on the chosen candidates	February, 2017	February, 2017
C4.5	Recruitment of chosen candidates	April, 2017	April, 2017

The 5 Statistical officers started their work in April 2017.

Table 15: Setup

Task c5	Activities	Start date	End date
C5.1	Check equipment to see if it is working	May, 2017	July, 2017
C5.2	Enter inventory	May, 2017	July, 2017
C5.3	Load the required programs	June, 2017	July, 2017
C5.4	Load survey solutions	June, 2017	July, 2017

The setup of tablets was completed on time.

Figure 34: IT Data Centre Setup

Table 16: Building capacity for storage in Headquarters'

Task c6	Activities	Start date	End date
C6.1	Designing different solutions to storage in HQ	May, 2017	July, 2017
C6.2	Choosing a solution	May, 2017	July, 2017
C6.3	Getting approvals	May, 2017	July, 2017
C6.4	Implementation of solution	May, 2017	July, 2017
C6.5	Payment for works done	May, 2017	July, 2017

Different copies of data are stored in hard drives and computers. The new server setup was not completed and the current server does not have the capacity to store Census data. Most Census data are still stored in the World Bank server and this can only be extracted with the availability of a new server.

Table 17: Testing

Task c7	Activities	Start date	End date
C7.1	Testing with Survey Solutions in office	April, 2017	July, 2017
C7.2	Testing with Survey Solutions outside office	April, 2017	July, 2017
C7.3	Network testing	April, 2017	July, 2017
C7.4	Load testing	April, 2017	July, 2017
C7.5	Questionnaire testing	April, 2017	July, 2017
C7.6	Communication with approved network and Server	April, 2017	July, 2017
C7.7	The different approval levels(Enumerator, Supervisor and HQ)	April, 2017	July, 2017
C7.8	Steps to take when a tablet is lost	April, 2017	July, 2017
C7.9	Storage in server	April, 2017	July, 2017
C7.10	Final output of raw data	April, 2017	July, 2017

A 4 phase Pilot testing was done in all the Regional Offices and HQ. The first test was carried out by the Labasa office where Suva acted as the HQ for Survey Solutions. The second test was carried out by the Nadi office where Ba acted as the HQ. The third test was carried out by the Suva office where Labasa acted as the HQ.

Figure 35: Pilot testing in the Central division

The fourth test was carried out by the BA office where Nadi acted as the HQ. A reporting template was used to capture challenges that were faced by respective teams for the pilot phase. Attached in appendix 21 is a sample which was used by the Kadavu Team. The figure below illustrates an example of data flow for test 1.

Figure 36: Flow of information for the pilot phase 1

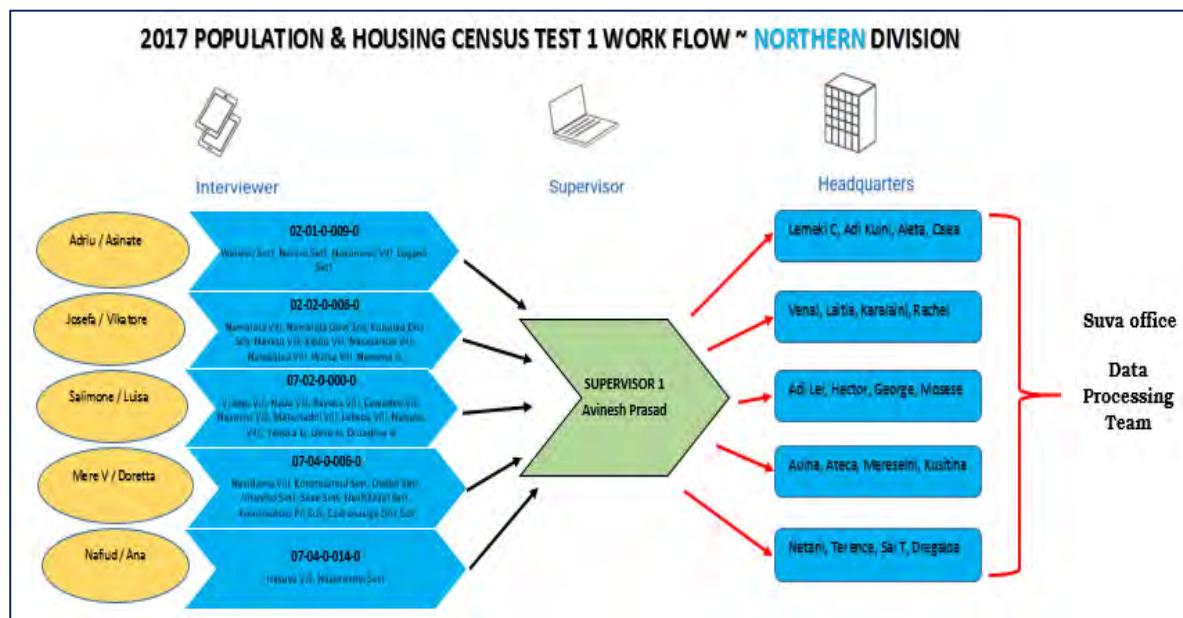

Figure 37: Divisional Data Centres (Central/Eastern, West/Ba, West/Nadi)

Table 18: Final Approvals

Task c8	Activities	Start date	End date
C8.1	Approval on the technological methodologies	April, 2017	July, 2017
C8.2	Creation of census share in cloud	April, 2017	July, 2017
C8.3	Approval of procedures	April, 2017	July, 2017

The test conditions were taken into consideration and the questionnaire was improved to meet these conditions.

Table 19: Testing for Pilot Census (testing with full connectivity to the server)

Task c9	Activities	Start date	End date
C9.1	Testing different scenarios	August, 2017	August, 2017
C9.2	Testing for situations where limited connectivity is available	August, 2017	August, 2017

All 4 phases of testing involved these tests.

Table 20: Pilot Testing (May – June, 2017)

Task c10	Activities	Start date	End date
C10.1	Testing from different parts of Fiji	August, 2017	September, 2017
C10.2	Testing for the different scenarios as encountered in a Census	August, 2017	September, 2017
C10.3	Testing the whole process until the data reaches the Bureau Server	August, 2017	September, 2017
C10.4	Pushing the system to limit by pushing all the processes	August, 2017	September, 2017

This Pilot testing was pushed to May - June due to the availability of tablets. Different scenarios were tried and this helped in the preparation for the Census final tests.

Table 21: Evaluation and Improvements (c11)

Task c11	Activities	Start date	End date
C11.1	Evaluating results from the Pilot	August, 2017	September, 2017
C11.2	Evaluating process that fail	August, 2017	September, 2017
C11.3	Implementing changes to rectify fails	August, 2017	September, 2017
C11.4	Testing	August, 2017	September, 2017
C11.5	Run Tests Again	August, 2017	September, 2017

Areas of improvements from the different pilot phases were identified and resolved to get the system ready for Census.

Table 22: Evaluation and Improvements (c12)

Task c12	Activities	Start date	End date
C12.1	Evaluating results from the Tests	August, 2017	September, 2017
C12.2	Evaluating process that fail	August, 2017	September, 2017
C12.3	Implementing changes to rectify fails	August, 2017	September, 2017
C12.4	Testing	August, 2017	September, 2017
C12.5	Back to evaluation (C8b.1)	August, 2017	September, 2017

Major improvements were done on the questionnaire to suit the responses that were received in the field.

Table 23: Building capacity for storage in the Regional Offices

Task c13	Activities	Start date	End date
C13.1	Designing different solutions to storage in the regional Offices	May, 2017	July, 2017
C13.2	Choosing a solution	May, 2017	July, 2017
C13.3	Getting approvals	May, 2017	July, 2017
C13.4	Implementation of solution	May, 2017	July, 2017
C13.5	Payment for works done	May, 2017	July, 2017

Storage lockers were setup in all offices for the storage of tablets and Security cameras were installed.

Table 24: Recruitment of 1 Statistician and 1 Assistant Statistician

Task c14	Activities	Start date	End date
C14.1	Advertisement of positions	May, 2017	September, 2017
C14.2	Shortlisting candidates	May, 2017	September, 2017
C14.3	Interviews for shortlisted candidates	May, 2017	September, 2017
C14.4	Decision on the chosen candidates	May, 2017	September, 2017
C14.5	Recruitment of chosen candidates	May, 2017	September, 2017

The Assistant Statistician started work in July 2017 and the Statistician followed in September 2017.

Table 25: Census preparation and distribution of tablets

Task c15	Activities	Start date	End date
C15.1	Census Training to new IT staff	April, 2017	September, 2017
C15.2	Census Training to enumerators	April, 2017	September, 2017

C15.3	Distribution of tablets to the 4 offices	April, 2017	September, 2017
C15.4	Storage of tablets into the 4 offices	April, 2017	September, 2017
C15.5	Assigning of duties during Census to IT officers	April, 2017	September, 2017

Newly recruited staff undertook training on the functions and use of tablets, IT network and Survey Solutions. The Enumerator training was conducted by the Area Coordinators with IT officers helping out. The distribution and storage of Tablets was carried out in August 2017. IT Officers were assigned to the Regional Offices and Operation Centres to provide IT support.

Table 26: Census Enumeration Weeks

Task c16	Activities	Start date	End date
C16.1	Extraction of data	September, 2017	November, 2017
C16.2	Cleaning of data	September, 2017	November, 2017
C16.3	Support services to all divisions	September, 2017	November, 2017
C16.4	Attending to faults	September, 2017	November, 2017
C16.5	Keeping a count of data stored in server	September, 2017	November, 2017
C16.6	Providing reports	September, 2017	November, 2017

Data was extracted on a daily basis during the Enumeration period and this was tabulated to help with the quality checks. Data cleaning was carried out during the Census Enumeration and after and IT Support was provided to all officers during that period.

Table 27: After Census

Task c17	Activities	Start date	End date
C17.1	Extraction of data	October, 2017	November, 2017
C17.2	Cleaning of data	November, 2017	November, 2017
C17.3	Structuring of data to required format	November, 2017	November, 2017
C17.4	Giving data for analysis	November, 2017	December, 2017
C17.5	Stock take of tablets	November, 2017	December, 2017
C17.6	Storage of tablets	November, 2017	January, 2018

As the enumeration progressed, the quality checks became a challenge as more data was received. This was managed through greater support to the Supervisors and the Enumerators.

The Stock take of tablets was carried out soon after Enumeration period. A police report had to be provided for all tablets that were reported to be stolen. However, Enumerators and Supervisors had to pay for their missing tablets if the loss was due to negligence on their part.

Equipment and technology

The key feature of the 2017 Census was the use of tablets to collect Census information from households. The SPC and ABS teams were helpful throughout the Census preparation phase. The innovative approach of capturing data in real time was an exciting development and the experience gained would enable a relatively smooth introduction of tablets into other statistical collections.

Key activities carried out by the IT Team include the following;

- Submission of quotations for computers and peripherals
- Provision of instructional videos to the Census committee and other field officers on survey solutions
- Conducted a 1 day workshop for the Census Committee covering the WB Survey Solutions inbuilt contraptions
- Mapping of internet networks countrywide

The procurement, testing and configuration of the 3,100 tablets was a significant exercise and all its outcome impacted on other Census preparations. The approval to use tablets was received in October 2016 and a meeting with TBA Team was convened. The Tender was advertised on 14/12/2016.

Network coverage was tested both by the Mapping and IT teams. For areas where coverage was poor, a plan was in place for syncing spots with procedures developed and put in place.

The IT Team also set up the system for the April 2017 pilot test. With assistance from ABS, a two day workshop for the Census committee members was conducted at FBoS to help set out clear objectives for the pilot.

For the Census enumeration, a work plan was developed for the placement of IT officers with the maritime teams and in all the operation centres to resolve issues related to the Tablets, such as tablet loss, broken and most importantly to ensure that the data collected was secured and synced to HQ.

Data Processing, Analysis & Dissemination

Indicator: Successful pilot test towards the actual Census Enumeration

Baseline: 2007 Census

Target: A successful 2017 Census

The key objectives of the Census Data Processing, Analysis & Dissemination Team was to;

1. develop a data sharing and release plan after consultation
2. provide regular updates to divisional managers through an assessment of data being synced in to ascertain if correct and reliable information was gathered
3. ensure that outputs and or information processed from the Census data are to be released within a set time frame to maintain the timely, reliable and relevancy of data gathered

Chronology of Events

Table 28: Data Processing, Analysis & Dissemination

Activities	Start date	End date
Testing for Census actual scenario before Pilot testing for Census 2017	9-Feb-17	17-Mar-17
Pilot testing in April for Census 2017	1-Apr-17	30-Apr-17
1st phase Central, Western, Northern, Eastern Urban & Rural	3-Apr-17	8-Apr-17
Received & processed	10-Apr-17	14-Apr-17
Evaluation of effectiveness	15/04/2017	20-Apr-17
Quality checks per data variables	10-Apr-17	14-Apr-17
Tabulation	21-Apr-17	26-Apr-17
Dissemination Trial	27-Apr-17	1-May-17
2nd phase Central, Western, Northern, Eastern Urban & Rural	17-Apr-17	19-Apr-17
Received & processed	19-Apr-17	20-Apr-17
Evaluation of effectiveness	21-Apr-17	22-Apr-17
Quality checks per data variables	19-Apr-17	20-Apr-17
Tabulation	27-Apr-17	28-Apr-17
Dissemination Trial	29-Apr-17	2-May-17
Evaluation of whole day	1-May-17	31-Jul-17
Data Edits and verification	19/09/2017	29/11/17
Preliminary release, analysis and interpretation	30/11/2017	31/12/2017

A major focus for the 2017 Population and Housing Census was data to provide baseline information to measure progress towards the achievement of the SDGs. The Census would provide data to be used for the calculation of a wide range of SDG indicators.

There was clear communication between the data administrators and the data analysis team on when the results needed to be delivered and what was required for dissemination. They included the time frames in which data checks had to be

completed and to run final edits before the data was tabulated and the required analysis undertaken.

The data processing activities carried out in 2017 are as follows;

- Extraction of data (16days)
- Cleaning of data (17days)
- Structuring of data to required format (16days)
- Stock take of tablets after census (24days)
- Storage of tablets (12days)

Data analysis and dissemination

The Data Analysis team leader in consultation with the Census Commissioner and team members developed a data sharing and Census output release plan based on predetermined outputs for Census. This was progressively fine-tuned after further discussions with the Census Commissioner on the scheduled target date for release. This required the data set to be generated well in advance.

The work plan in place also had the placement of certain individuals looking into the preparation of the General Tables and the Analytical Report. The significant investment on resources for data collection meant an expectation for the timely release of census data. Meticulous planning and commitment resulted in a significant improvement in the timeliness of the release of Census results.

Cautious considerations were also given to the nature and content of the first publication. Census 2017 was a great opportunity to improve FBoS skills in data analysis. Further consideration was also given to disseminating results in ways other than ‘traditional’ publications. For example, brochures with ‘Census results at a glance’, disseminating results using social media and map-based products (based on QGIS) have been considered and will be actioned.

OUTCOMES of the 2017 Population and Housing Census

Release – 1, 2017 Population and Housing Census

On January 5, 2018, FBoS published its first release which was a significant achievement because the details released such as; Age, Sex, Economic Activity, Disabilty and Bank Account, were previously available ten months after the end of enumeration when paper questionnaires were used. The details of the release are as follow;

FBoS Release No: 1, 2018

5th January, 2018

2017 Population and Housing Census Release 1 *Age, Sex, Geography and Economic Activity*

A total of 884,887 persons were enumerated in the 2017 Population and Housing Census, These Fiji residents were living in 191,910 Private Households and 1,224 Institutions on Census night, the 17th of September, 2017. The count was 5.7% (47,616) higher than the 837,271 persons enumerated in 2007. Other data sources indicate coverage of around 99.5%, hence the findings will more or less provide a complete picture of Fiji's population and housing situation at the time of the Census. Information on economic activity reflects the situation in the week before September 17.

The average annual rate of population growth over the decade up to September 2017 was 0.6%. The annual rate of population growth has been decreasing that is from 2% in 1986, 0.8% in 1996 and 0.6% in 2017. The decline is mainly due to lower birth rates and out migration.

The Median Age of the Population is 27.5 years, which means that half of Fiji's population is below that age. The Median Age was 17.8 in 1976, 20.6 in 1986, 21.2 in 1996 and 25.1 in 2007.

The proportion of Fiji's urban population continued to increase. The proportion of Fiji's population living in urban areas was 37.2% in 1976, 38.7% in 1986, 46.4% in 1996, 50.7% in 2007 and 55.9% in 2017. The significant growth between 1986 and 1996 was partly due to the extension of Urban Boundaries which is the case for 2017 as well.

When compared to 2007, the Urban Population increased by 69,406 (16.3%) while the Rural Population decreased by 21,790 (5.3%). Further details are presented in Table 1 that follows;

Table 1. Total Population by Urban and Rural, 1976-2017

Census Year	Population	Annual Growth Rate (%)	Median Age (years)	Urban	%	Rural	%
1976	588,068	2.1	17.8	218,495	37.2	369,573	62.8
1986	715,375	2.0	20.6	277,025	38.7	438,350	61.3
1996	775,077	0.8	21.2	359,495	46.4	415,582	53.6
2007	837,271	0.7	25.1	424,846	50.7	412,425	49.3
2017	884,887	0.6	27.5	494,252	55.9	390,635	44.1

Age and Sex Distribution by Urban and Rural Residence

The Median Age for Males is 27.2 compared to 27.8 for Females. Males accounted for slightly over a half (50.7%) of the population with the sex ratio of 102, that is 102 Males for every 100 Females. The proportion of Males is higher in the age groups 0-4 up to 55-59. Females accounted for 51.4% of the population in the age group 60-64 and close to 60% in the age group 75+ indicating greater Female longevity.

The delineation of Urban Boundaries uses the following set of criteria;

- 1) Urban Attributes
- 2) Economic Activity
- 3) Population Size
- 4) Association and Contiguity with a Town or City
- 5) Population Density

In the Urban Areas;

- The Median Age was 27.9 with the Male and Female Ages being 27.5 and 28.3 respectively.
- The proportion of Males is higher in the age-groups; 0-4, 5-9, 10-14, 25-29 and up to 45-49.
- The proportion of Females is higher in the age groups 15-19, 20-24, 50-54 and higher.
- The proportion of Females in the age-group 75+ was 62.5%

In the Rural Areas;

- The Median Age was 27.0 with the Male and Female Ages being 26.9 and 27.1 respectively.
- The proportion of Males is higher in the age groups 0-4 up to 65-69.
- The proportion of Females in the age group 75+ was 57.0%.

Further details are presented in Table 2 that follows;

Table 2. Population by 5-year Age Group, Urban and Rural by Sex and Median Age, 2017

Age-Group	Total					Urban					Rural						
	Total	Male	%	Female	%	Total	%	Male	%	Female	%	Total	%	Male	%	Female	%

Age and Sex Structure

Figure 1. that follows is a Population Pyramid showing Fiji's age-sex structure as at Census Night 2017. The broad base of the structure indicates a population that is young with 10.4 percent of the population under five years of age while 16.7% are in the youth age group of 15-24.

Figure 1: Age-Sex Structure of Population, Fiji 2017

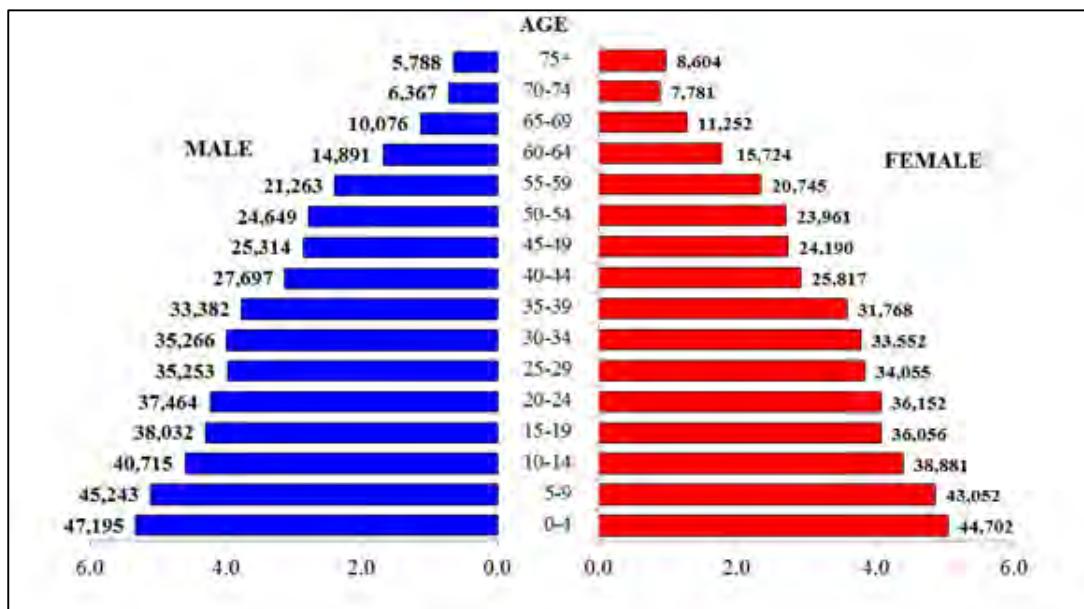

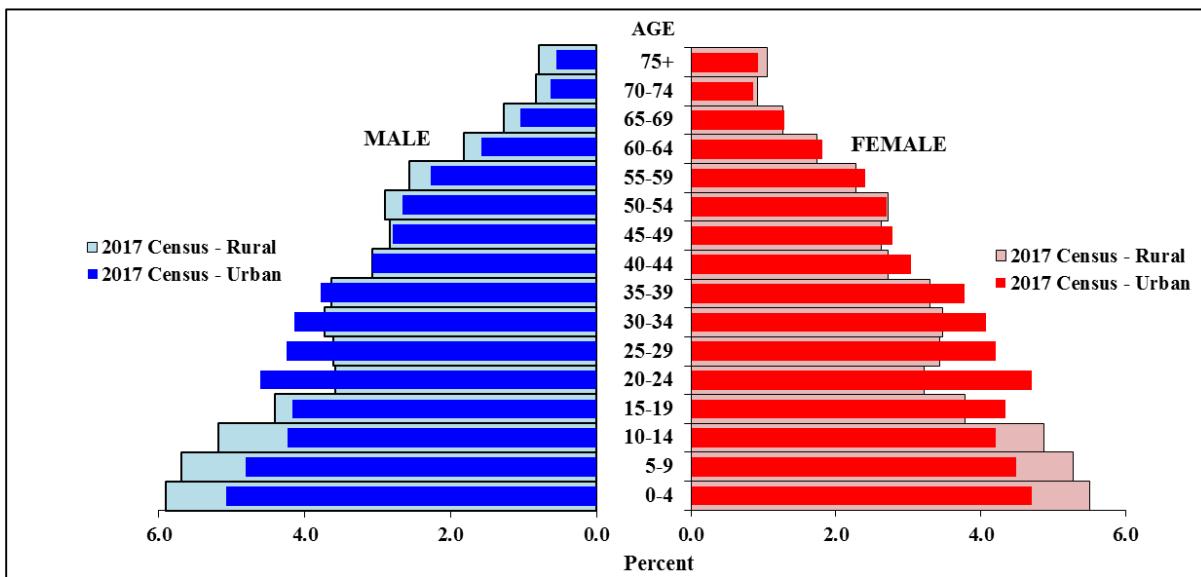

Figure 2. that follows shows the age-sex composition of rural and urban dwellers in 2017. There are marked differences with the Rural population having a higher proportion in the young age groups 0-4, 5-9 and 10-14. On the other hand, a higher proportion of Urban dwellers are in the age groups 20-24, 25-29, 30-34 and 35-39.

The Urban and Rural age structures show some differences for Males and Females. For instance a higher proportion of Urban Females compared to Rural Females are in the age groups 15-19, 55-59 and 60-64, unlike their Male counterparts who make up a lower proportion of these age groups in comparison to Rural dwellers.

Figure 2: Age-Sex Structure of Urban and Rural Population, Fiji, 2017

Population by Province

Table 3 below presents the 2007 and 2017 population numbers by province. Ba was the most populous province with its 247,708 residents accounting for 28.0% of Fiji's population. The second largest province, Naitasiri recorded the highest inter-censal population increase of 16,918 (10.5%) with 177,678 persons counted.

The provinces of Tailevu and Rewa also recorded significant population increases of 8,860 (15.9%) and 7,021 (7.0%) respectively.

The Northern Division provinces of Bua and Cakaudrove recorded population increases of 9.1% and 2.3% respectively while the population of Macuata continued to decrease. Macuata's census count of 65,983 was 6,458 (8.9%) lower than a decade ago continuing the trend that was first observed during the inter-censal period of 1996 and 2007.

The population of Lau and Lomaiviti also recorded declines of 10.1% and 3.7% respectively.

Further details are presented in Table 3 that follows;

Table 3. Population by Province 2007 and 2017

Province	Census Year		Absolute Change	Percentage Change
	2007	2017		
Ba	231,760	247,708	15,948	6.9%
Bua	14,176	15,466	1,290	9.1%
Cakaudrove	49,344	50,469	1,125	2.3%
Kadavu	10,167	10,897	730	7.1%
Lau	10,683	9,602	-1,081	-10.1%
Lomaiviti	16,253	15,657	-596	-3.7%
Macuata	72,441	65,983	-6,458	-8.9%
Nadroga/Navosa	58,387	58,931	544	0.9%
Naitasiri	160,760	177,678	16,918	10.5%
Namosi	6,898	7,871	973	14.1%
Ra	29,464	30,432	968	3.3%
Rewa	100,995	108,016	7,021	7.0%
Serua	18,249	20,031	1,782	9.8%
Tailevu	55,692	64,552	8,860	15.9%
Rotuma	2,002	1,594	-408	-20.4%
Total	837,271	884,887	43,279	5.7%

Urban Population

Fiji's urban population reached 494,252 in 2017, an increase of 69,406 (16.3%) compared to 2007. The count shows that 55.9% of Fiji's population live in the Urban Areas, an increase of 5.1 percentage points compared to 2007. Much of the growth was due to the extension of the urban boundaries to cover growth in Nadi, Lautoka and parts of Taveuni in Cakaudrove.

There were significant increases in the urban population of the following provinces;

- 1) Ba by 44,413 or 36.7% with the Urban proportion of Ba's population increasing from 52.2% in 2007 to 66.8% in 2017.
- 2) Naitasiri by 13,664 or 10.1% with the Urban proportion of Naitasiri's population sitting at a very high 83.7%.
- 3) Cakaudrove by 3,965 or 56.4% with the Urban proportion of Cakaudrove's population increasing from 14.3% in 2007 to 21.8% in 2017.
- 4) Rewa by 4,720 or 5.3% with the Urban proportion of Rewa's population now at 86.5%.
- 5) Tailevu by 2,497 or 14.0% with the Urban proportion of Tailevu's population now at 31.5%.

Further details are provided in Table 4 that follows;

Table 4. Urban Population by Province 2007 and 2017

Province	Urban				Absolute Change	% Change		
	Census Year		2017	% Urban				
	2007	% Urban						
Ba	120,998	52.2	165,411	66.8	44,413	36.7%		
Bua	592	4.2	625	4.0	33	5.6%		
Cakaudrove	7,034	14.3	10,999	21.8	3,965	56.4%		
Kadavu	-	-	-	-	-	-		
Lau	-	-	-	-	-	-		
Lomaiviti	4,397	26.7	4,250	27.1	-147	-3.3%		
Macuata	28,765	39.7	27,182	41.2	-1,583	-5.5%		
Nadroga/Navosa	9,622	16.5	10,293	17.5	671	7.0%		
Naitasiri	135,033	84.0	148,697	83.7	13,664	10.1%		
Namosi	-	-	-	-	-	-		
Ra	4,952	16.8	5,987	19.7	1,035	20.9%		
Rewa	88,763	88.1	93,483	86.5	4,720	5.3%		
Serua	6,867	37.6	7,005	35.0	138	2.0%		
Tailevu	17,823	32.0	20,320	31.5	2,497	14.0%		
Rotuma	-	-	-	-	-	-		
Total	424,846		494,252		69,406	16.3%		

Rural Population

Fiji's rural population was 390,635 at the time of the 2017 Population Census, a decrease of 21,790 (5.3%) compared to 2007. The count shows that 44.1% of Fiji's population live in the Rural Areas which is a decrease of 5.1 percentage points compared to 2007.

A combination of Out-Migration and the extension of the Urban Boundaries were the main causes of decline in the number of rural dwellers in the following provinces;

- Ba by 28,465 with the Rural proportion of Ba's population decreasing from 47.8% in 2007 to 31.2% in 2017.
- Cakaudrove by 2,840 with the Rural proportion of Cakaudrove's population decreasing from 85.7% in 2007 to 78.2% in 2017

The population of Rural Macuata decreased by 4,875 and this was due mainly to the movement of people out of the rural areas. The Rural proportion of Macuata's population decreased from 60.3% in 2007 to 58.8% in 2017.

Further details are provided in Table 5 that follows;

Table 5. Rural Population by Province 2007 and 2017

Gender Perspective of Urban Population

Female numbers showed a higher level of increase in the urban areas of the following provinces over the decade up to September 2017;

- 1) Naitasiri with 7,750 (11.47%) compared to 5,914 (8.77%) for Males.
- 2) Tailevu with 1,425 (16.32%) compared to 1,072 (11.79%) for Males.
- 3) Rewa with 2,522 (5.67%) compared to 2,198 (4.96%) for Males.

Comparisons for other provinces for the urban population by gender is illustrated in Table 6.

Working Age Population and Economic Activity

All persons aged 15 and over who furnish or are available to furnish the supply of labour for the production of economic goods and services are Economically Active or are in the Labour Force. So basically the Labour Force is made up of those engaged in Paid or Unpaid Work or are Unemployed. The Unemployed are those who are available or looking for work.

Some features of Fiji's Population Aged 15 and above;

- There are more Females in the Central Division.
- There are more Females in the Urban Areas and this is consistent throughout the four administrative divisions.
- The Labour Force Participation rate is highest in the Eastern Division.
- There is a significant Gender differential in the Labour Force Participation Rates i.e. 76.4% for Males and 37.4% for Females.
- There is a significant Gender differential in the Unemployment Rates i.e. 2.9% for Males and 7.8% for Females.
- There is a significant Gender Differential in the number of persons engaged in Paid and Unpaid Work i.e. 234,059 for Males and 106,680 for Females.

Further details are presented in Table 8 that follows;

Population Aged 15 and Above With Bank Account

A total of 392,148 persons aged 15 and above were reported to have a Bank Account. The number equates to a rate of 62.7% with Males at 68.5% while Females had a rate of 56.8%.

The Urban rate was 71.1% with Males at 76.9% and Females at 65.5%. On the other hand the Rural rate was 51.3% with Males at 57.8% and Females at 44.3%.

Further details are presented in Table 9 that follows;

MORE JOBS: CENSUS

Bureau of Statistics says unemployment rate down from 5.5 to 4.5%, lowest in decades.

Our current population stands at 884,887, compared to 837,271 in 2007.

AJAYA KUMAR
Labour

The drop in the country's unemployment rate is testament to the fact that the policies of the Fiji Labour Party have had a positive effect on ordinary斐jians, says Aju Kumar, the Minister for Employment, Productivity and Industrial Relations who was commenting on the decrease from 5.5 to 4.5 per cent, it is the lowest in 20 years.

The figure is based on the results of November 2017 Census results released yesterday.

Fiji's population currently stands at 884,887 compared to 837,271 in 2007.

Mr Kumar said the focus on creating investment and job creation has led to more employment opportunities throughout the country for all斐jians.

"The Government is also providing incentives for self employment as seen in the \$100 micro enterprise grants and

the launch of the Youth Entrepreneurship Scheme (YES) programme (Tawadra)." Mr Kumar said.

"We have also been investing in our rural areas to improve infrastructure."

"The FijiFirst policies are working and they are having a positive impact on the economy," he said.

Mr Kumar said the Government is currently making up draft National Employment Policy for consultation around

According to a Bureau of Statistics release yesterday there are more men than women in Fiji. This was among the findings of the 2017 Census. Photo: VILMOS VAGNER

BUREAU OF STATISTICS
More Jobs: Census

FROM PAGE 1
VILMOS VAGNER

This policy will guide our efforts on employment into the future to achieve our target of less than four per cent unemployment as stated in our National Strategic Plan.

Key highlights from the available statistics are as follows:

- Fiji's total population stands at 884,887 compared to 837,271 in the 2007 census. This is an increase of 47,616 or 5.8 per cent. The average annual population growth is 0.6 per cent, due to low birth rates and outward migration.
- The median age of population is 27.5 years. This means that half of our population is below the age of 27.5 years.
- 69 per cent of Fiji's population is below the age of 40.
- Men make up 50.7 per cent of the population while women make up 49.3 per cent. While the proportion of males was highest below the age of 50 years, the female population was higher in the two groups above 65, indicating greater female longevity.
- 53.9 per cent of Fiji's population reside in the urban areas, an increase from 50.7 per cent in 2007. The urban population stood at 454,353, an increase of 69,460 (16.2%) from 2007. This is due to the extension of urban boundaries and also due to the movement of people from the rural to the urban areas.
- 44.1 per cent of Fiji's population reside in the rural areas, down from 49.3 per cent in 2007. The rural population stood at 390,633, a decline of 21,790 (5.3%) from 2007.
- Unemployment rate was down to 4.5 per cent, the lowest recorded in 20 years. This is lower than the 5.5 per cent unemployment rate estimated from the 2015-2016 Fiji Labour Force Participation Survey.
- The Labour Force Participation Rate (Labour force population aged over 15 years) is 67.1 per cent.
- 62.7 per cent of the population aged 15 years and older reported to having bank accounts. This represents 60% of 2017's total population.
- 32.7 percent of the population aged three and above reported at least one functioning challenge (disability). The international benchmark is 15 per cent.
- In publishing the available statistics, the Government Statistician thanked all those involved in conducting the 2017 Census and compiling the statistical information.

Functioning Challenge Fig:6
 Central / Eastern
Total Population: 36,583 (At least 1)

By: Sex (At least 1)

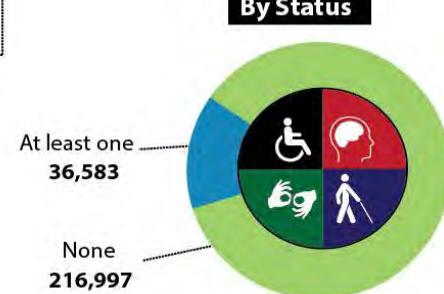

Types

63	Seeing / self care
90	Hearing / communicating
182	Remembering / communicating
266	Self-care only
395	Walking / self-care
911	Communicating only
1,164	Hearing only
1,319	Remembering only
3,020	Walking only
14,234	Other
14,939	Seeing only

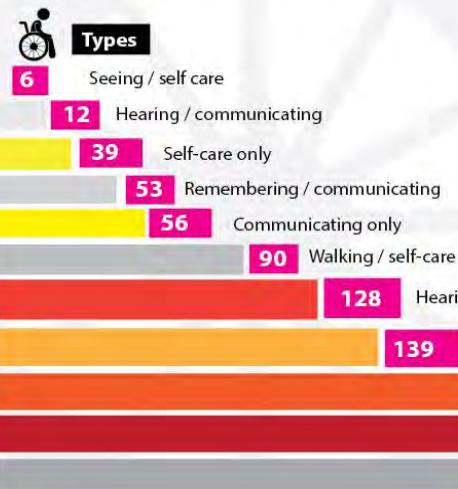

Description

- Out of the 36,583 persons aged 5 and above with at least one type of functioning challenge, 45.1% were males and 54.1% females.
- Deuba recorded the highest rate of 28.2 % while the lowest was recorded from Korovou of 4.0%.
- Rural sector represents 35.3% of the functioning challenged population

By Status

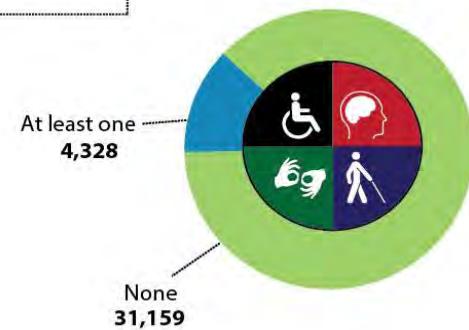

Functioning Challenge Fig:7
Northern
Total Population: 4,328 (At least 1)

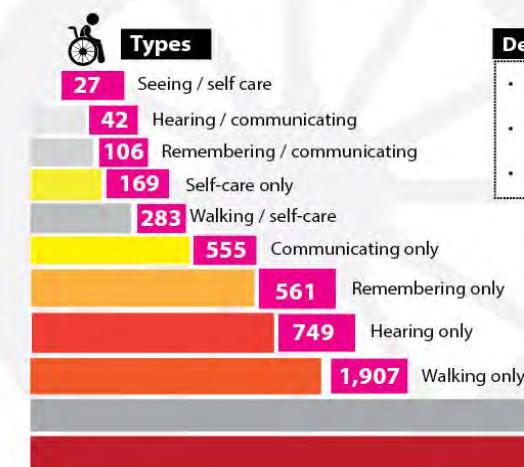

Description

- Out of the 4,328 persons aged 5 and above with at least one type of functioning challenge, 45.2% were males and 54.8% females.
- Nabouwalu recorded the highest rate of 17.4% while the lowest was recorded from Taveuni urban of 7.7%.
- Rural sector represents 74.0% of the functioning challenged population

By: Status

Functioning Challenge Fig:8
Western
Total Population: 20,416 (At least 1)

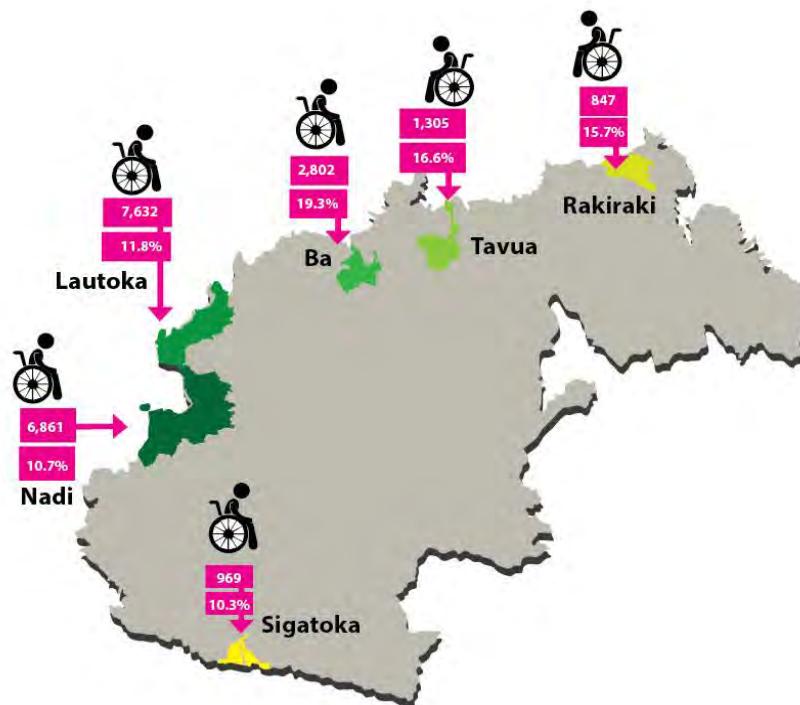

Description

- Out of the 20,416 persons aged 5 and above with at least one type of functioning challenge, 45.9% were males and 51.1% females.
- Ba recorded the highest rate of 19.3% while the lowest rate of 10.3% was recorded for Sigatoka
- Rural sector represents 49.4% of the functioning challenged population

Section 4. Economic Activities by Region (15+)

Map/Figures

18. Economic activity for the Central/ Eastern Division (urban)
19. Economic activity for the Western Division (urban)
20. Economic activity for the Northern Division (urban)

General Tables

i) Economic Activities by Province of Enumeration

Table 4.1 Population by Province of Enumeration, Economic Activity, sex

ii) Economic Activities by Wards

Table 4.2 Population of Central/Eastern Division by Town/City, Economic Activity and by sex

Table 4.3 Population of Northern Division by Town/City, Economic Activity and by sex

Table 4.4 Population of Western Division by Town/City, Economic Activity and by sex

Economic Activity

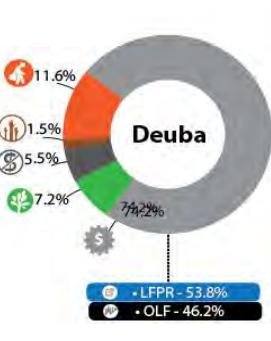

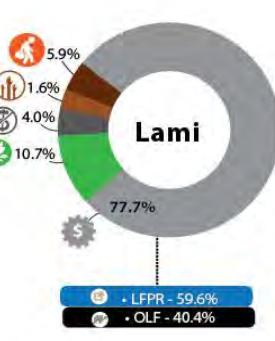

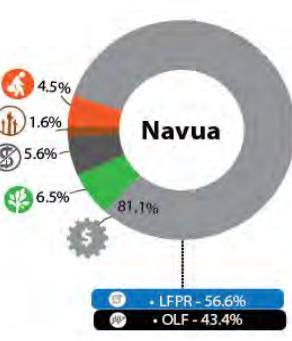

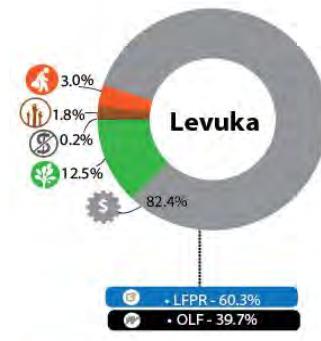

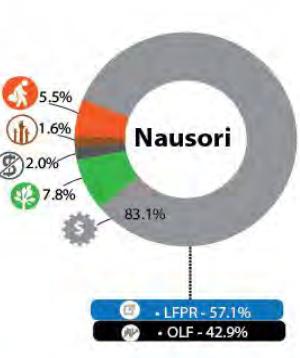

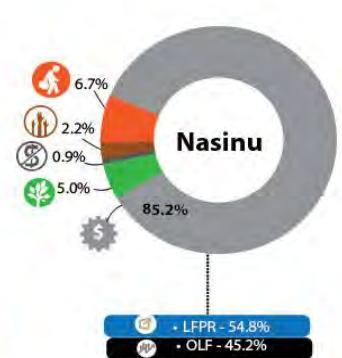

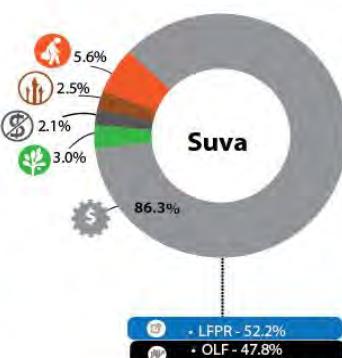

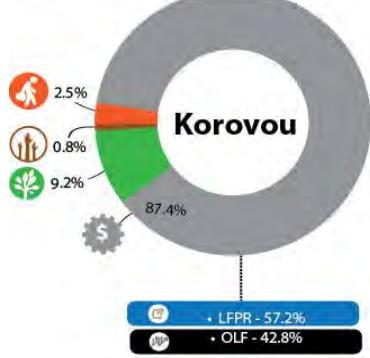

Fig: 18

Central / Eastern Urban

Description

- The labour force is made up of those engaged in Paid or Unpaid work or are Unemployed. The Unemployed are those who are available or looking for work.
- Urban dwellers engaged in money work activities accounted for 84.2% of the labour force with Korovou at 87.4% followed by Suva at 86.3%.
- The highest unemployment rate was recorded at Deuba at 11.6% followed by Nasinu 6.7% and Korovou at 2.5%.
- Participation for subsistence was the highest for Levuka at 12.5% while Suva recorded the lowest at 3%
- The labour force participation rate was highest for Levuka at 60.3% while Suva recorded the rate of 52.2%
- Those outside the Labour Force (OLF) are made up of students, retirees, full-time home workers and those not looking for work.

Section 5. Education

Map/Figures

21. Education information for the Central/ Eastern Division (urban)
22. Education information for the Western Division (urban)
23. Education information for the Northern Division (urban)

General Tables

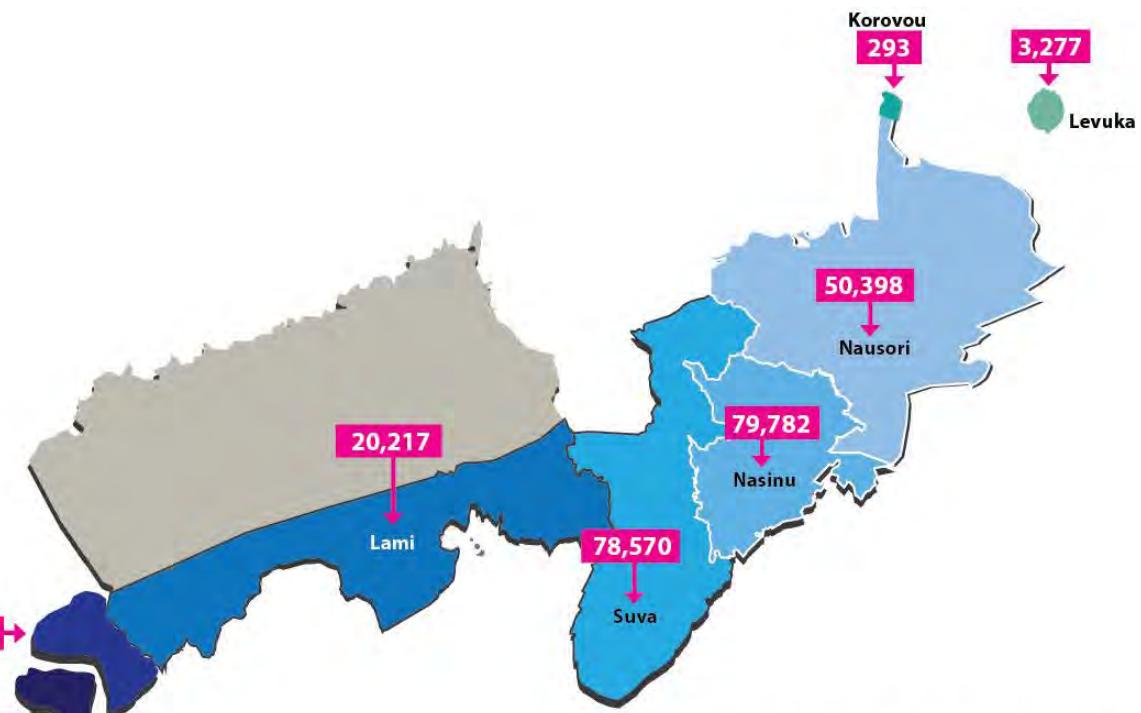

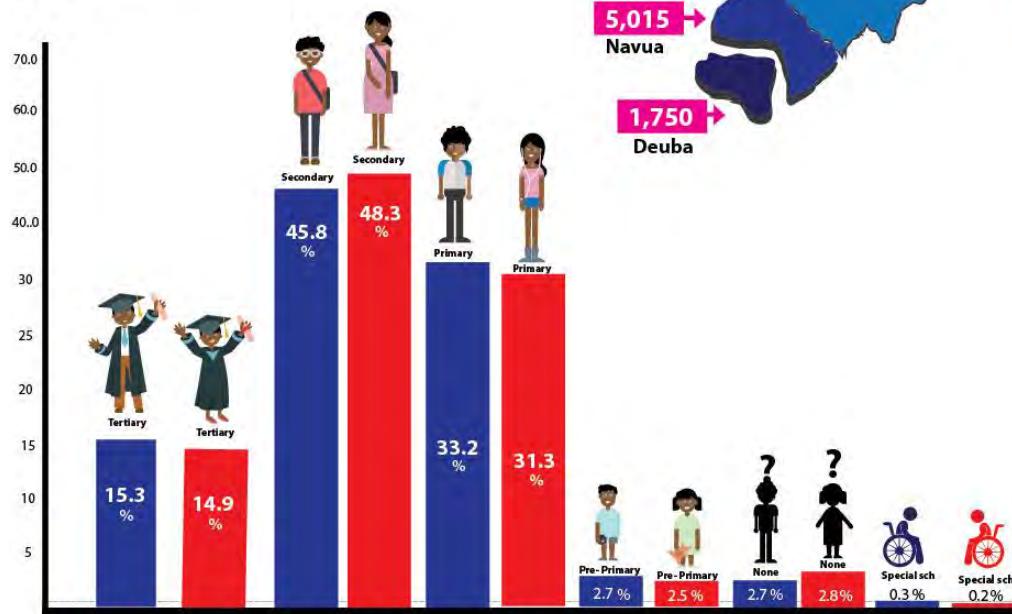

- Table 5.1 Total Population by Province of Enumeration by Educational Attainment
Table 5.2 Urban Population by Province of Enumeration by Educational Attainment
Table 5.3 Rural Population by Province of Enumeration by Educational Attainment

Educational Attainment | Fig: 21
Central / Eastern - Urban
Education Total: 351,568
Urban: 239,302

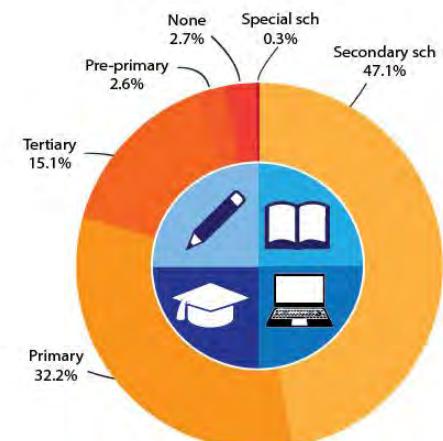

Description

- A higher proportion of females (48.3%) had attained secondary level education compared to males (45.8%)
- A higher proportion of males (15.3%) had attained a tertiary qualification compared to females (14.9%).
- A similar proportion of males and females had no education.

By: Sex

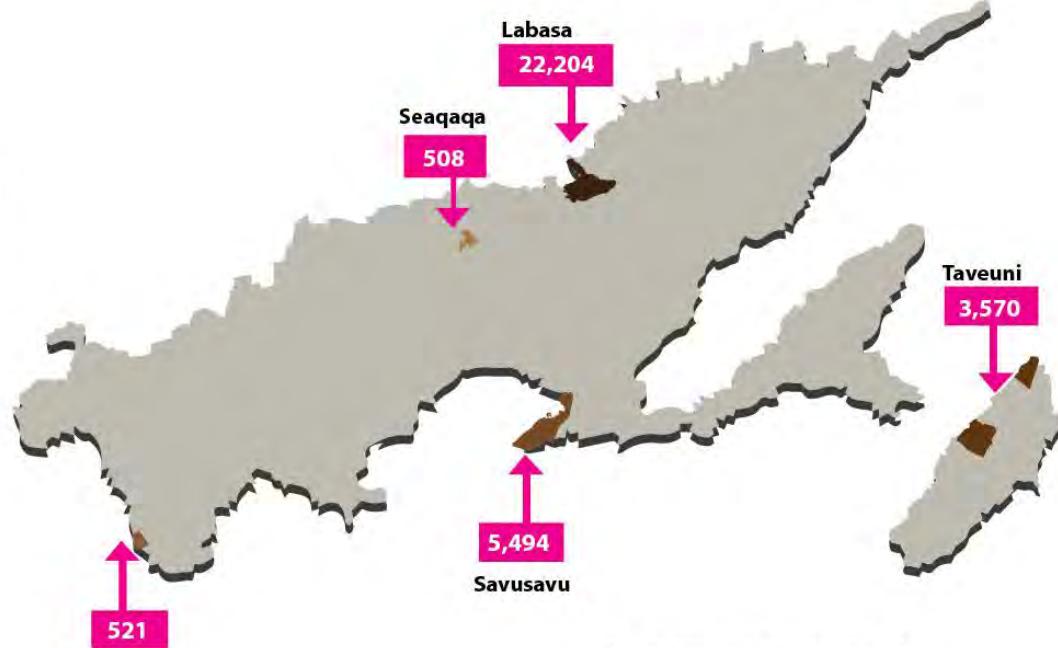

By: Educational attainment

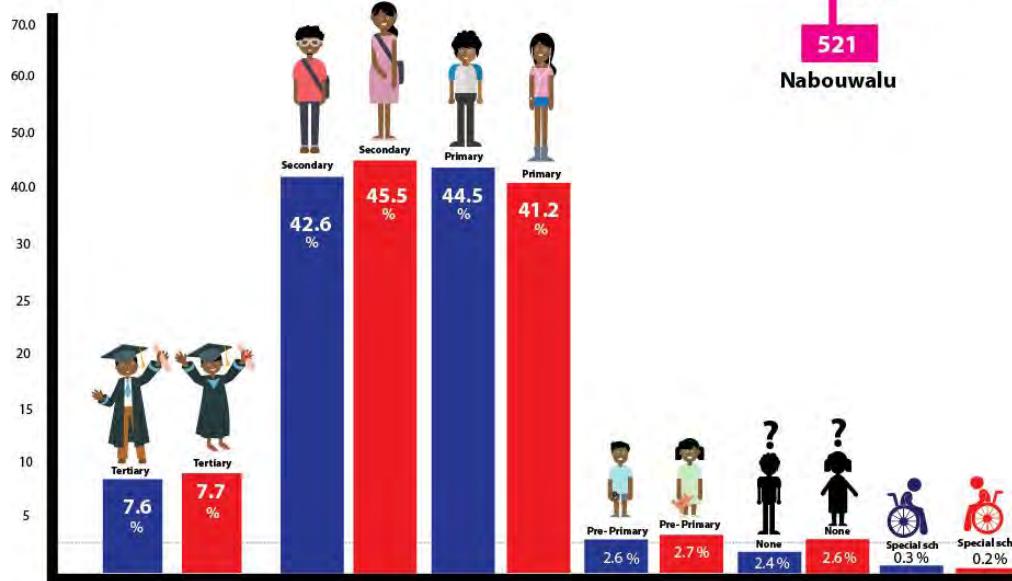

Educational Attainment Fig: 22
Northern - Urban
Education Total: 108,820
Urban: 32,297

Description

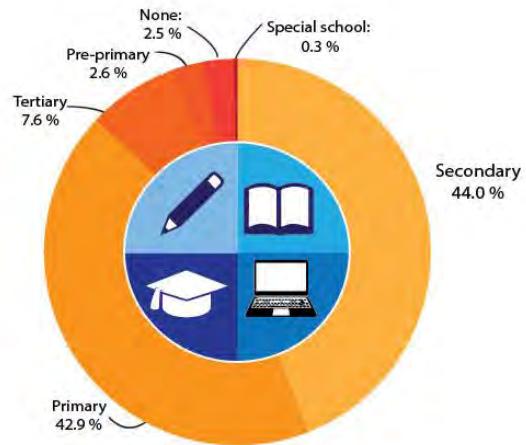

- A higher proportion of females (45.5%) had attained secondary level education compared to males (42.6%)
- A slightly higher proportion of females (7.7%) had attained a tertiary qualification compared to males (7.6%).
- A similar proportion of males and females had no education.

By: Sex

By: Educational attainment

Educational Attainment Fig: 23

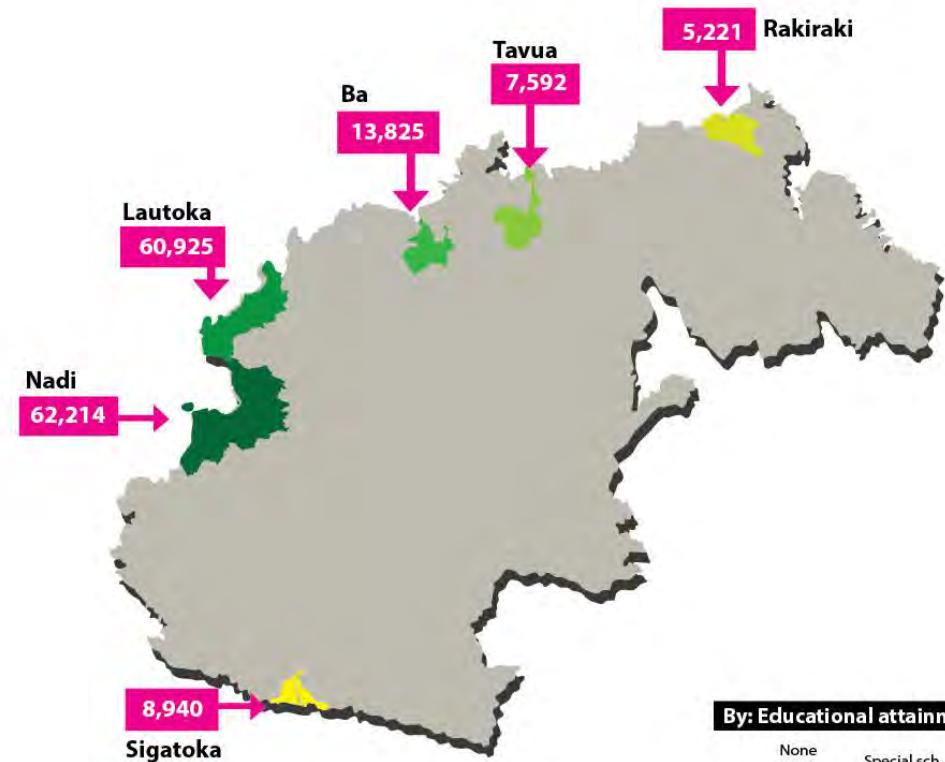

Western - Urban

Education Total: 289,902

Urban: 158,717

Description

- A higher proportion of females (49.3%) had attained secondary level education compared to males (45.8%)
- A slightly higher proportion of males (10.7%) had attained a tertiary qualification compared to females (10.6%).
- An equal proportion of males and females had no education.

By: Sex

General Tables

Table 7.2 Total Population by housing structure by Province of enumeration

Table 7.3 Urban Population by housing structure by Province of enumeration

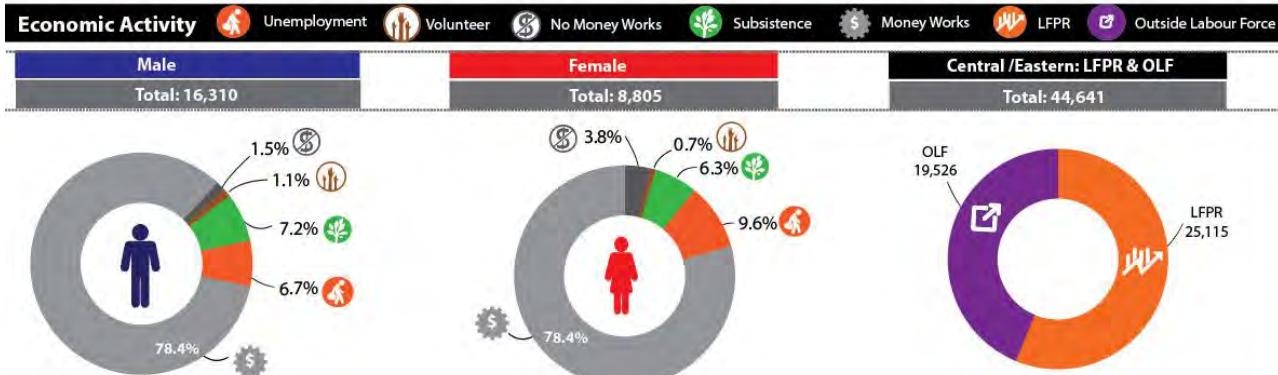

Table 7.4 Rural Population by housing structure by Province of enumeration

Informal Housing Fig: 24
Central / Eastern - Urban
Informal population: 64,417
Informal households: 12,562

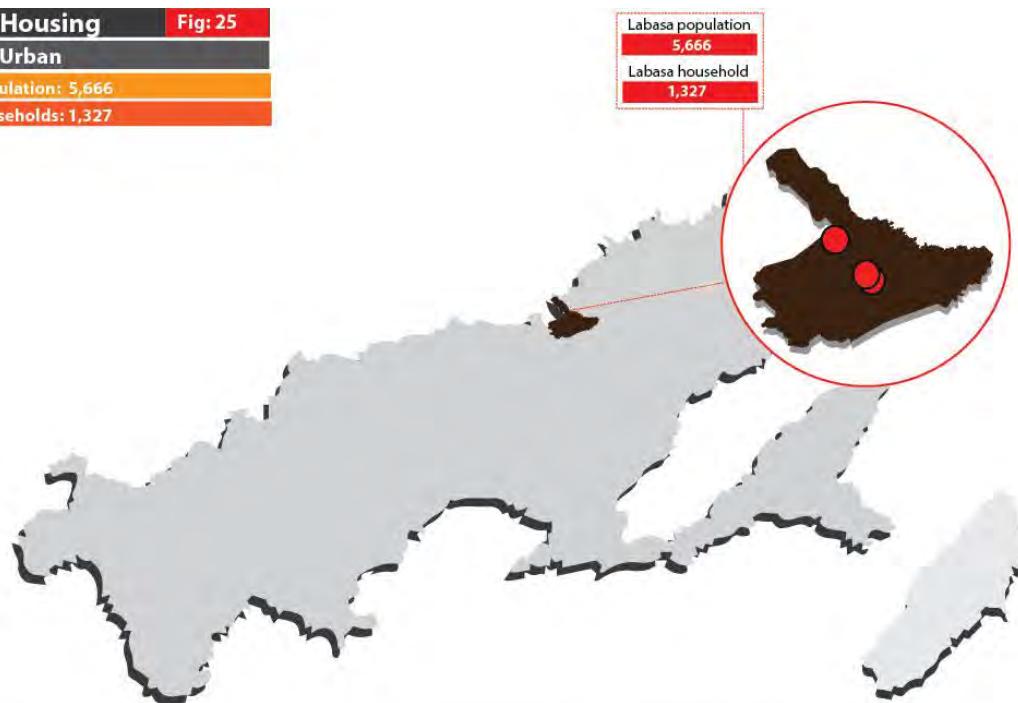

Living quarters

- A one family house detached from any other house
- A one family house made up of multiple small structure
- A building with two or more apartments
- Dwelling attached to a shop or other non-resident buildings
- Lodging house (Hostels etc)
- Others

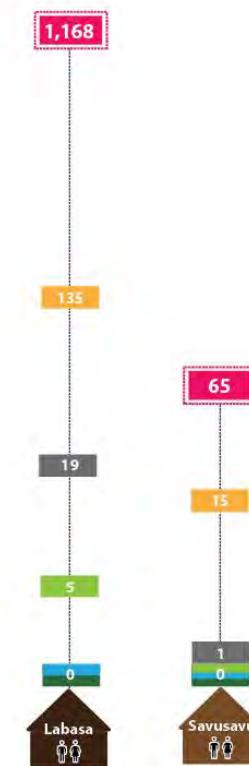

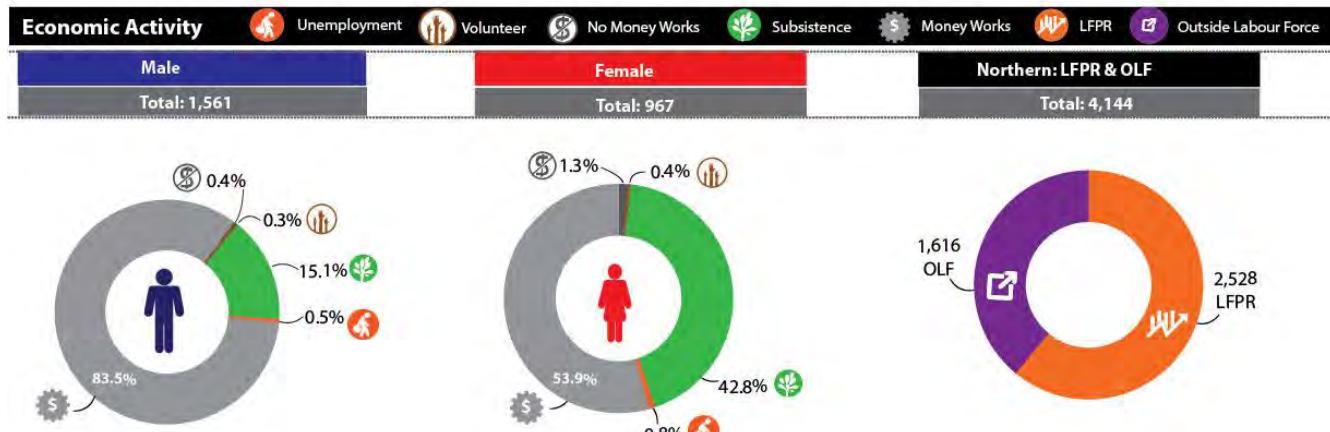

Informal Housing Fig: 25
Northern - Urban
Informal population: 5,666
Informal households: 1,327

Living quarters

A one family house detached from any other house
A one family house made up of multiple small structure
A building with two or more apartments
Dwelling attached to a shop or other non-resident buildings
Lodging house (Hostels etc)
Others

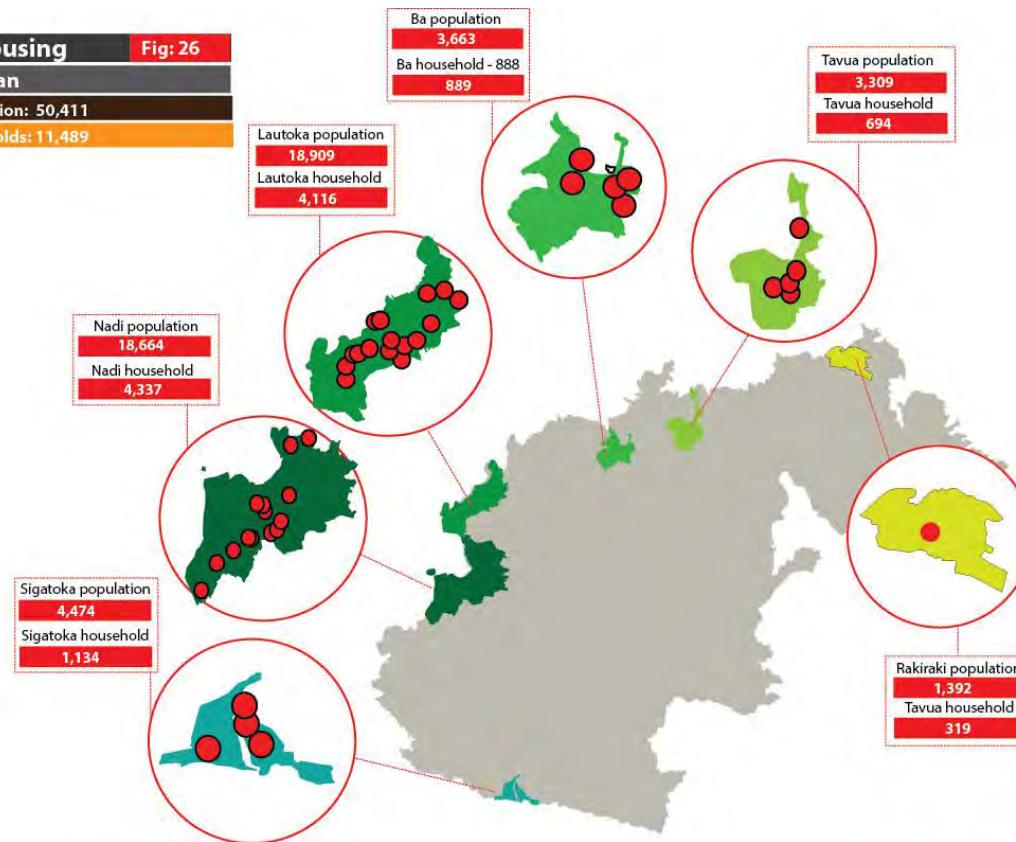

Informal Housing Fig: 26

Western - Urban

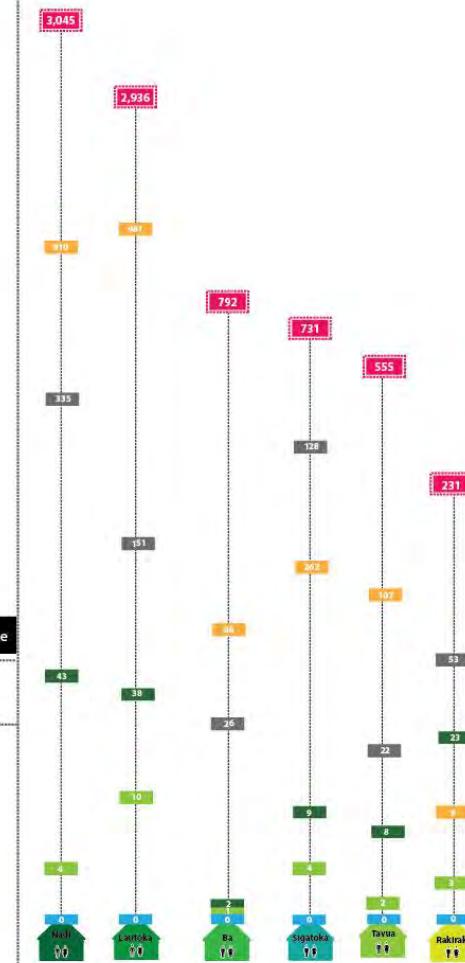

Informal population: 50,411

Informal households: 11,489

Living quarters

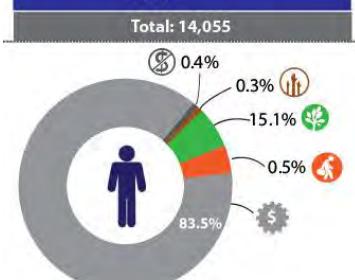

A family house detached from any other house
A family house made up of multiple small structure
A building with two or more apartments
Dwelling attached to a shop or other non-resident buildings
Lodging house (Hostels etc)
Others

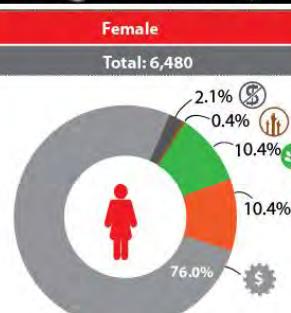

Economic Activity

Unemployment Volunteer No Money Works Subsistence Money Works LFPR Outside Labour Force

Male Total: 14,055

Female Total: 6,480

FPELI WAOAVONOVONO

As the Census Commissioner for the purpose of taking a census of the inhabitants of Fiji during the year 2017.

Dated this 28th day of September 2016

V. MOHAN
Chairman

Public Service Commission

Appendix 2 – Census Regulation

EXTRAORDINARY GOVERNMENT OF FIJI GAZETTE SUPPLEMENT	219
No. 37	THURSDAY, 14th SEPTEMBER
<hr/>	
[LEGAL NOTICE NO. 84]	
CENSUS ACT 1946	
Census Regulations 2017	
<p>IN exercise of the powers conferred upon me by section 5 of the Census Act 1946, I hereby make these Regulations—</p>	
<p><i>Short title and commencement</i></p>	
1.—(1) These Regulations may be cited as the Census Regulations 2017.	
(2) These Regulations are deemed to have come into force on 1 April 2017.	
<p><i>Interpretation</i></p>	
2. In these Regulations, unless the context otherwise requires—	
“Act” means the Census Act 1946;	
“area coordinator” means a person appointed under regulation 4(1) or 11;	
“assigned area” means the area assigned to an area coordinator by the Census Commissioner for which the area coordinator must carry out his or her functions under these Regulations;	
“authorised officer” means any person appointed by the Census Commissioner to assist in the collection of statistical information in relation to the census;	
“census” means the official count of the inhabitants of the Republic of Fiji—	
(a) who are present in the Republic of Fiji on census night; and	
(b) which takes place in accordance with the Census Order 2016;	
“Census Commissioner” means the Census Commissioner appointed under section 2 of the Act;	
“census night” means 12.00 am on 17 September 2017;	
“dwelling” means any place in which a person is present on census night and any place which is wholly or partly used for human habitation on census night, including—	
(a) any building, erection, tenement or part thereof used wholly or partly for human habitation;	
(b) any hotel, lodging house, boarding house or club;	
(c) any prison, police station, barracks, school and any public or private charitable, religious, educational, health or other institution; and	
(d) any ship within the exclusive economic zone of Fiji;	

220
“enumerator” means a person appointed under regulation 5(1);
“GPS” means the Global Positioning System;
“head of household” means any person who is the head of a household and who may be present at the dwelling on census night;
“headquarters” means the office of the Fiji Bureau of Statistics in Suva, Nadi, Ba or Labasa;
“occupier” means the person who has overall responsibility of a non-private dwelling, including—
(a) the manager, director, secretary or other executive officer of a hotel, lodging house, boarding house or club;
(b) the head or other person in charge of an institution; or
(c) the master or other person in charge of a ship;
“superintendent of census” means a person appointed under regulation 3(1); and
“supervisor” means a person appointed under regulation 6(1).
<p style="text-align: center;"><i>Superintendent of census</i></p>
3.—(1) The Census Commissioner may, with the approval of the Minister, appoint any of the following persons as a superintendent of census—
(a) provincial administrators;
(b) assistant provincial administrators;
(c) district officers;
(d) assistant district officers; and
(e) any other civil servant.
(2) A superintendent of census has overall administrative responsibility of the census in his or her assigned district or province.
<p style="text-align: center;"><i>Area coordinators</i></p>
4.—(1) The Census Commissioner may, with the approval of the Minister, appoint any person to be an area coordinator.
(2) An area coordinator must—
(a) ensure that any supervisor or enumerator allocated to the area coordinator’s assigned area is adequately trained to conduct the census;
(b) ensure that an enumerator allocated to the area coordinator’s assigned area collects statistical information in relation to the census from each dwelling in the assigned area; and
(c) provide administrative and operational support to the superintendent of census of the area coordinator’s assigned area.
<p style="text-align: center;"><i>Enumerators</i></p>
5.—(1) The Census Commissioner may, with the approval of the Minister, appoint any person to be an enumerator.

(2) An enumerator must collect statistical information in relation to the census as instructed by the area coordinator.

Supervisors

6.—(1) The Census Commissioner may, with the approval of the Minister, appoint any person to be a supervisor.

(2) A supervisor must oversee the work carried out by any enumerator, under his or her responsibility and, as instructed by the area coordinator.

Census questionnaire

7. The census must be undertaken by means of the census questionnaire prescribed in the Schedule.

Particulars to be provided

8.—(1) Subject to regulation 9, a person must—

- (a) to the best of his or her knowledge and belief, provide particulars under the provisions of these Regulations to any authorised officer; or
- (b) take all reasonable steps to ensure that such particulars are provided to any authorised officer on the person's behalf by another person.

(2) Any occupier or head of household must, to the best of the knowledge and belief of the occupier or the head of household, provide the particulars in respect of the occupier or the head of household, and any other person who—

- (a) is present in the dwelling on census night; or
- (b) returns to the dwelling on or before 12.00 pm on 18 September 2017 and has not been enumerated.

Failure or inability to provide particulars

9. A person who is required to provide particulars under the provisions of these Regulations but fails or is unable to do so, must report to a superintendent of census or any authorised officer, who must then record the required particulars of such person.

Power to give directives

10. The Census Commissioner may give directives to any person exercising any function or power under these Regulations in order to—

- (a) give effect to the provisions of the Act and these Regulations; and
- (b) ensure the efficient and effective undertaking of the census.

Transitional

11. Any area coordinator appointed under the Census Regulations 2007 and currently employed by the Fiji Bureau of Statistics is deemed to have been appointed under regulation 4(1).

Revocation

12. The Census Regulations 2007 is revoked.

Made this 14th day of September 2017.

E. WAQAVONOVONO
Census Commissioner

SCHEDULE
(Regulation 7)

CENSUS QUESTIONNAIRE

1. GEOGRAPHICAL IDENTIFICATION

- (a) Province
- (b) Tikina
- (c) Enumeration Area Number
- (d) Dwelling Type

2. HOUSEHOLD ROSTER: ALL INDIVIDUALS

- (a) Name
- (b) Sex
- (c) Date of birth
- (d) Age
- (e) Head of household
- (f) Relationship to head of household

3. MODULE A: POPULATION AND MIGRATION CHARACTERISTICS

- (a) Ethnicity
- (b) Place of birth
Province/Tikina/Country
- (c) Residency status
- (d) Biological mother
- (e) Biological father
- (f) Marital status
- (g) Religious affiliation
- (h) Usual place of residence
Province/Tikina/Country
- (i) Lived in usual place of residence 5 years ago
- (j) Previous place of residence
Province/Tikina/Country

4. MODULE B: FUNCTIONING CHALLENGES

- (a) Difficulty with seeing, even if wearing glasses
- (b) Difficulty with hearing, even if using a hearing aid
- (c) Difficulty with walking or climbing steps
- (d) Difficulty with remembering or concentrating
- (e) Difficulty with self-care such as washing all over or dressing
- (f) Difficulty with communication using usual/sign language and braille

5. MODULE C: EDUCATION

- (a) Ever attended (Ages 3+)
 - (i) Ever attended school or preschool
 - (ii) Highest level of school completed (Preschool – Tertiary)
 - (iii) Main field of study completed
 - (iv) Name and location of education institution
- (b) Current year (Ages 3+)
 - (i) Current level of education (Preschool – Tertiary)
 - (ii) Field of study
 - (iii) Name and location of education institution

6. MODULE D: ECONOMIC ACTIVITIES LAST WEEK (Ages 10+)

- (a) Main activity
 - (i) Main and secondary economic activity last week
 - (ii) Main occupation
 - (iii) Name of employer
 - (iv) Working industry
 - (v) Location of place of occupation
 - (vi) Hours spent on activity
 - (vii) Payment mode
- (b) Not in labour force
 - (i) Willing and available to work
 - (ii) Actively looking for work
 - (iii) Methods of looking for work
 - (iv) Reasons for not looking for work

7. MODULE E: FERTILITY AND MORTALITY

- (a) Ever born
 - (i) Ever given birth to a live child
 - (ii) Age at birth of first child
 - (iii) Number of boys ever given birth to born alive
 - (iv) Number of girls ever given birth to born alive
- (b) Boys ever born
 - (i) Number of boys born alive
 - (ii) Number of boys born alive that live in the household
 - (iii) Number of boys born alive that live elsewhere
 - (iv) Number of boys born alive that have died
- (c) Girls ever born
 - (i) Number of girls born alive
 - (ii) Number of girls born alive that live in the household
 - (iii) Number of girls born alive that live elsewhere
 - (iv) Number of girls born alive that have died
- (d) Last child
 - (i) Month of birth
 - (ii) Year of birth
 - (iii) Sex of last born child
 - (iv) Alive or dead
 - (v) Month of death
 - (vi) Year of death

8. MODULE F: COMMUNICATIONS, INTERNET AND FINANCIAL INCLUSION

- (a) Internet
 - (i) Internet access
 - (ii) Location for internet access in the last 12 months
- (b) Mobile device
 - (i) Working mobile device
 - (ii) Internet access with mobile device and internet provider
 - (iii) Main use of internet from mobile device

- (c) Financial inclusion
 - (i) Type of account
 - (ii) Frequency of using accounts

- 9. MODULE G: HOUSING AND INCOME
 - (a) Building, construction and facilities
 - (i) Type of living quarters
 - (ii) Ownership
 - (iii) Land tenure
 - (iv) Main material of floor
 - (v) Main material of roof
 - (vi) Main material of outer walls
 - (vii) Condition of outer walls
 - (viii) Number of rooms
 - (ix) Main source of drinking water
 - (x) Main source of water for cooking and personal hygiene
 - (xi) Consistency of supply of water
 - (xii) Type of toilet facility
 - (xiii) Number of members in the household using the toilet facility
 - (xiv) Type of cooking fuel
 - (xv) Main source of electricity
 - (xvi) Main source of lighting
 - (xvii) Disposal of waste
 - (xviii) Sanitation items
 - (xix) Household goods

 - (b) Household income sources
 - (a) Source of income in last 12 months
 - (b) Number of members of household that receive a salary

 - (c) Remittance
 - (i) Receives money from anyone not in the household list
 - (ii) Frequency of receiving money from anyone not in the household list
 - (iii) Receive goods from anyone not in the household list
 - (iv) Frequency of receiving goods from anyone not in the household list

- 10. MODULE H: AGRICULTURE AND FISHING
 - (a) Agriculture activities conducted in last 12 months
 - (b) Purpose of growing food crops
 - (c) Ownership of land where food crops are grown
 - (d) Purpose of fishing, raising livestock, freshwater aquaculture or marine aquaculture
 - (e) Ownership of land where livestock is raised
 - (f) Ownership of land where freshwater aquaculture is carried out

- 11. MODULE I: NON-PRIVATE DWELLINGS
 - (a) Population characteristics
 - (i) Residency status
 - (ii) Sex
 - (iii) Day of birth
 - (iv) Month of birth
 - (v) Year of birth
 - (vi) Age
 - (vii) Ethnicity
 - (viii) Marital status
 - (ix) Religious affiliation
 - (x) Highest level of school attended
 - (xi) Usual place of residence

 - (b) Economic activity
 - (i) Economic activity last week
 - (ii) Main occupation
 - (iii) Name of employer
 - (iv) Working industry

 - (c) Functioning challenges
 - (i) Difficulty with seeing, even if wearing glasses
 - (ii) Difficulty with hearing, even if using a hearing aid
 - (iii) Difficulty with walking or climbing steps
 - (iv) Difficulty with remembering or concentrating

- (v) Difficulty with self-care such as washing all over or dressing
- (vi) Difficulty with communication using usual/sign language and braille

12. GPS WAYPOINT AND PHOTO OF DWELLING

- (a) Location of dwelling
- (b) Photo of dwelling

“YOU MATTER, BE COUNTED”

Census Team

Our Vision

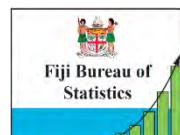

**An inclusive 2017 Population and
Housing Census coverage for the
provision of high quality data.**

Our Mission

**An Innovative and Efficient National
Survey Operation achieved through
Great Team work.**

Our Values

**To adhere to the FBoS
principles of professionalism,
integrity and co-operation.**

Introduction

Census provides a portrait (or snapshot) of the characteristics of the population (size, structure and distribution). Fiji has a longer history of census taking than most developing countries. Its first census (a mere headcount of the population) was carried out by the British Administration, as early as 1881. After this, until 1921, censuses (headcounts) were conducted at an interval of 10 years.

Formal census taking only started in 1946. This paper based census, conducted soon after the end of World War II, provides more detailed information than the previous ones. At the time of the 1946 Census, all information was processed, edited, compiled and tabulated by hand. The production of very detailed cross tabulations was not feasible. In 2007, cross tabulation was feasible, however data processing took time towards the release of the Analytical Report, the 14 provincial profiles/reports together with the fertility and mortality monographs.

Towards more efficiency in the processing of data, the 2017 Population and Housing Census for the first time used tablets to conduct this national exercise. Given the interplay of official and non-official statistics in a very dynamic information market together with the impact of societal changes on statistical apparatus, the department needs to continue to assume its role by adapting itself to technological innovations for the provision of various and extensive data requests from all stakeholders. Bearing in mind, the adequacy, relevance, and reliability, in short - the quality of official statistics.

A Census Order was issued on July 13th, 2016 by the Minister of Economy. It states that a census of all the inhabitants of Fiji is to be conducted between the 16th of September and the 16th of October 2017. The Government Statistician (GS) was appointed as the Census Commissioner by the Public Services Commission (PSC). It is his role to issue the Census Regulations for the 2017 Census after the Census Order came into effect.

BASIC PRINCIPLES OF A HOUSEHOLD SURVEY

All sample surveys in Fiji so far, have been carried out on a de-facto basis with de-jure elements. In a **de-facto census**, all persons present in the country at a certain point in time (census night) are included in the enumeration. All persons are to be enumerated in the household where they happen to be on census night.

All census staff should be familiar with the essential characteristics of a census or the basic principles of census taking. These can be summarized into seven categories viz.

- i. Sponsorship, responsibility, cooperation and objectives
- ii. Universality
- iii. Coverage
- iv. Simultaneity
- v. Individual listing
- vi. Compilation and publication of results for geographic subdivisions and by basic variables
- vii. Defined periodicity

Censuses should be in agreement with and their quality should be assessed using this set of basic principles.

Governance Structure

Legal Basis and Confidentiality

Census Act

The 2017 Census is to be conducted under the provisions of the Census Act of 20th July 1946, Ed. 1978 (CAP 71 and 72) which states that;

"It shall be lawful for the Minister, whenever he may deem it expedient, by order, to direct that a census be taken of the inhabitants of Fiji, and to prescribe the time in relation to which the particulars required by the census shall be stated, and the date upon which the census is to be taken and for that purpose the Public Service Commission shall appoint a Census Commissioner."

The Minister referred to is the Minister of Economy.

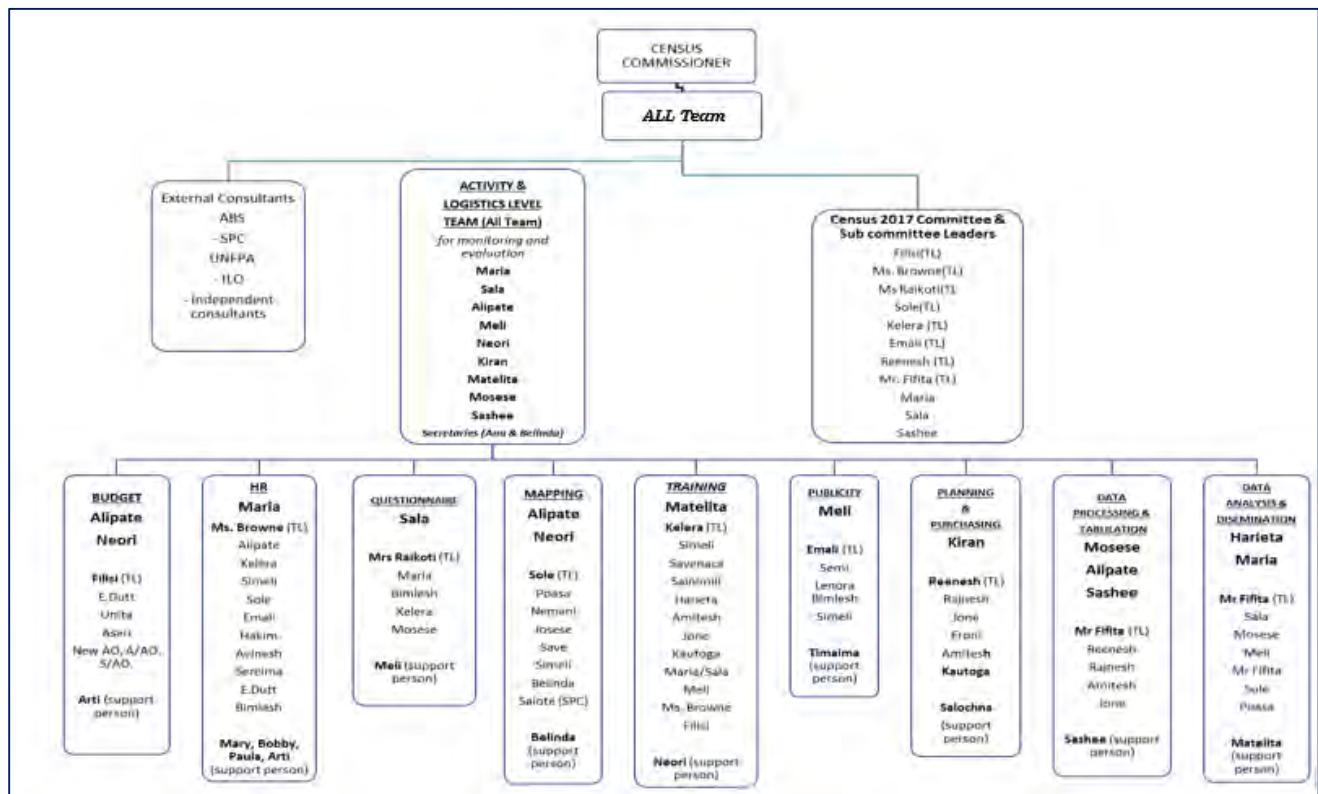

All census staff should be aware of the above legal provisions underpinning the 2017 Census. ACs have received a copy of the Census Act as well as the 2017 Census Regulations. During the field operation, they should at all times carry the act and regulations with them.

Confidentiality

In accordance with paragraph 6 of the census Act, everybody within the scope of the census is legally obliged to provide the information that is required. It is important that it is clearly understood by all census staff as well as respondents that the census is not concerned with information about individuals as such. It attempts to collect information about the community as a whole and about groups within the community. In other words, the census will compile summary or group statistics from the individual information. Enumerators may only ask questions that are necessary for the completion of the interviewer.

All field officers engaged in the field during the Census operation week are to advise all respondents that all the information they provide will be kept confidential.

Figure 40: REPORTING MECHANISM FOR THE 2017 CENSUS COMMITTEE

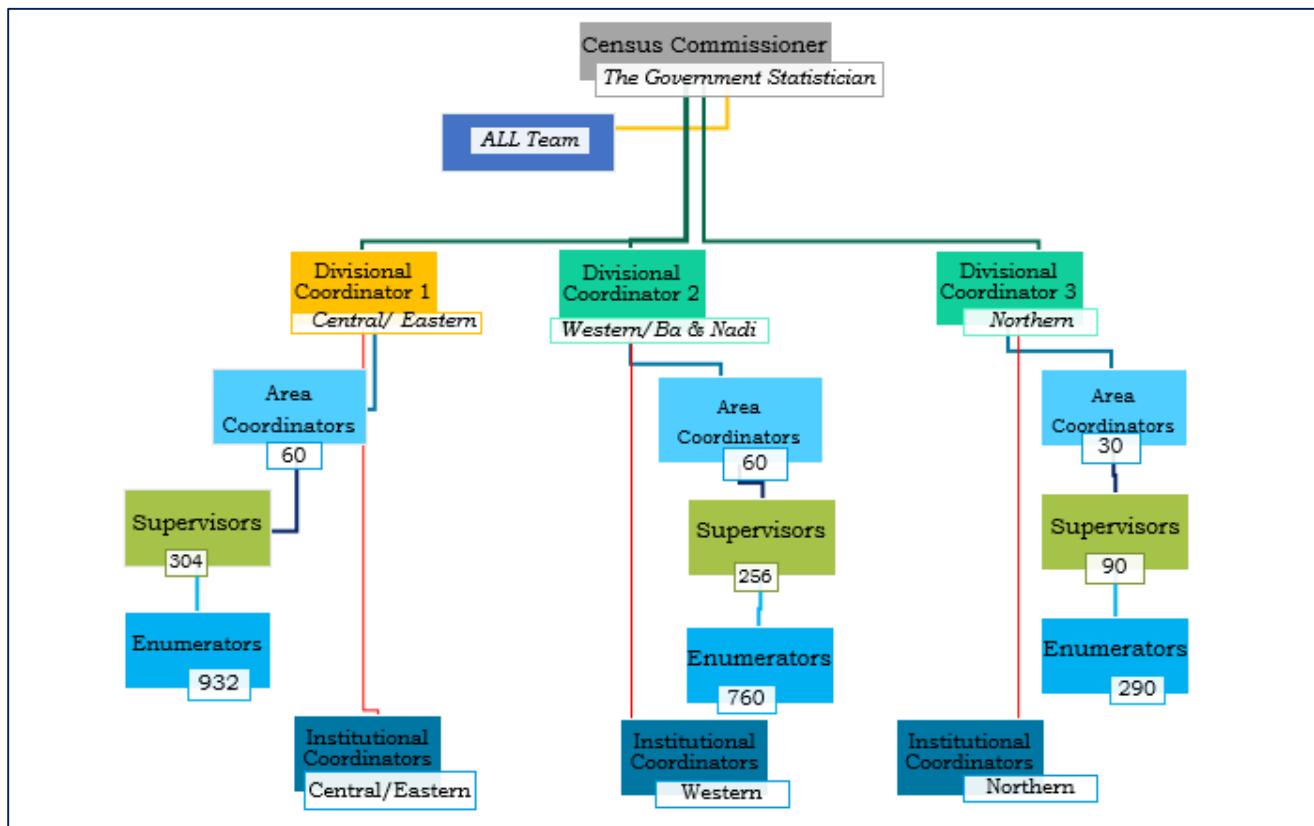

Work plan and Census Calendar

The Census calendar and the Annual Work Plan is to be used as a guide. Team leaders are to take heed of start dates and targets dates as per the submissions to the Ministry of Economy.

The ALL team is to be responsible for the monitoring and evaluation of all operational activities for the 9 subcommittees. Each subcommittee's team leader is to be responsible for the monitoring and evaluation of the respective teams they lead. The attachment in the appendix is to be used by all Team leaders to report on their work progress on a monthly basis. For every scheduled Census committee meeting, all team leaders are expected to present on updates and progress of work for the respective teams they are in charge of.

Divisional visits by the Census commissioner will be his own prerogative. Monitoring by respective team leaders which requires visits to the divisional offices and the operation centres should, however, be planned well in advance and requested formally. Divisional managers must be advised on the same so as not to deter any work on the ground.

Figure 41: REPORTING MECHANISM FOR THE 2017 CENSUS OPERATION

For the entire census operation the reporting mechanism in place must be adhered to at all times for the consistency and flow of communication.

Census Preparatory logistics

Indicator: Successful planning and careful monitoring of all census preparatory logistics

Baseline: 2007 Census in consultation with external consultants

Target: A successful 2017 Census

Table 30: Census Preparatory logistics

Activities	Start date	End date
Fieldwork Stationery and Printing	1-Nov-2016	1-Nov-16
Purchase of fieldwork equipment	1-Nov-16	30-Nov-16
Purchase of office furniture and equipment	1-Nov-16	31-Dec-16
Engagement of Project staff (ACs)	1-Jan-17	31-Jul-17
Fieldwork - AC awareness and prep	1-Jan-17	31-Jul-17
Fieldwork Boundary Familiarisation	17-Jul-17	28-Jul-17
Recruitment Project staff (Supervisors & Enumerators)	1-June-17	28-June-17

The committee members are to have a good understanding of the need for monitoring and evaluation. Prior to the project, risks and challenges during the course of the project are to be identified with solutions premeditated. Monitoring by the divisional coordinators and respective team leaders should be used as a tool to provide information to management to access project effects via set objectives.

It is also the role of the team leaders to draw on the information generated from the monitoring officers and analyse the trends in effects and how this is impacting the project. Towards the end of the project monitoring of data is to continue to reveal significant departure from the project expectations as per data checks and verification from all involved. Its format via information gathered from survey solutions should be simple – giving the date, time, place and the names of the people present when a decision needs to be taken.

The very nature of the Census project and programme management requires that certain meetings are to convene on certain occasions when the need arises to communicate and share project information.

The list of activities tabled below for each respective sub-committee should be strictly adhered to for an effective flow of work. All aspect of activities with reference to the start and end dates of all the nine subcommittees must be strictly adhered to so as to maintain the workflow for all the other Census subcommittees.

Mapping Committee

Indicator: Delineation of new EA boundaries from the existing EA

Baseline: The existing EAs (1602)

Area Coordinator EA's distribution	1-Oct-16	30-Jun-17
EA Boundary Revision & updates using satellite imagery	1-Oct-16	30-Jun-17
Northern Division	1-Oct-16	12-Nov-16
Western Ra Province	13-Nov-16	22-Dec-16
Ba Province	1-Jan-17	4-Mar-17
Nadroga Navosa Province	5-Mar-17	1-Apr-17
Central Division	3-Apr-17	30-Jun-17
Eastern Division	16-Jun-17	30-Jun-17

As practiced, the FBoS is to further subdivide the tikinas into (statistical/census) enumeration areas (EA). The EA is not an administrative area but a purely statistical/census unit. It is the smallest geographic unit (building block) for which census information is published.

For the Census, it should be noted that Fiji has twenty one urban areas. Thirteen (13) of these consisted of an incorporated (gazetted) city/town and a peri-urban area. These are the two (2) cities Suva and Lautoka and the eleven (11) towns Lami, Nasinu, Nausori, Nadi, Ba, Tavua, Rakiraki, Sigatoka, Labasa, Savusavu and Levuka. The incorporated cities/towns are subdivided into wards. There are eight (8) urban areas, which do not have an incorporated city/town. These are urban areas for census/statistical purposes only. This category includes the unincorporated townships Vatukoula, Matei, Korovou, Navua, Pacific Harbour, Nabouwalu, Naqara and Seaqqaqa.

It is the responsibility of the Mapping Committee to update all Enumeration Area (EA) Maps before the recruitment of supervisors and enumerators. All EA maps are to be detailed and up-to date to prevent coverage problems during census.

All EAs are to have a unique code consisting of nine digits viz.:

P	P	T	T	S	E	E	E	C
---	---	---	---	---	---	---	---	---

- Digits 1 and 2 (PP) identify the province
- Digits 3 and 4 (TT) identify the tikina you or combined tikina
- Digit five (S) identifies the geographic sector. It also identifies the urban area in case s where there is more than one urban area in a particular tikina
- Digits 6, 7 and 8 identify the EA
- Digit 9 (C) identifies the category or type of EA.

Budget Committee

Indicator: Annual work plan via the indicators, baseline and targets for each subcommittee
Baseline: Budget for the financial year
Target: Proper use of funds as per the RIE justification submission

Standard Operating Procedures

Accountable Advance

- a) Accountable Advance should be cleared/ retired at the conclusion of each lot date of project visit.
- b) New accountable advance will only be issued once previous issued accountable advance has been cleared/ retired at level 5 Accounts section.
- c) Only those that have completely retired/ cleared accountable advance, will proceed to the next phase of fieldwork.
- d) Officers are to be allocated appropriate amount of accountable advance for each lot, not for entire rounds
- e) Additional accountable advance for unforeseen circumstances is to be requested through normal request.

Retirement of claims

- h) The retirements of claims should be made within 7 days to a maximum of 14 working days upon return to the station/ office.
- i) The request for the next accountable advance shall only be made upon clearance of the previous claims.
- j) All receipts of expenses incurred during the course of fieldwork shall be attached with a completed and signed claim form by the officer.
- k) All transactions to be issued with official receipts from service providers
- l) All receipts for travelling in a vehicle should contain the following information;
 - The drivers' full name, phone number, vehicle registration number, driver's signature, duration of use of vehicle and the localities visited and purpose.
- m) All claim forms shall be checked and signed by the field statistician.
- n) The use of imprest receipts will be considered on a case by case basis.

Contingencies

- c) Contingency funds will be controlled by accounts.
- d) Request for extra fund should be made through a formal request.

Transport

- j) The use of private and own vehicles will not be entertained for any fieldwork
- k) Government vehicles will be used only for officers who are not given any transport allowance.
- l) All office must keep and update a transport register.
- m) All drivers are to fill in their running sheet daily and submit weekly to the transport officer
- n) In areas where public transport is available and easily accessible, officers shall use public transport eg. Taxis and buses.
- o) In areas where public transport is not readily available, officers shall use other means of transportation in order to complete the assigned duties in the required time frame. Official receipts must be obtained.
- p) Usage of taxis for hire for field operations is to be encouraged in town and city areas.

- q) In roads and localities where taxis do not want to provide services due to accessibility and road conditions, especially in the peri- urban and rural areas, officers may use other means of transportation to complete the task on time.
- r) Availability of taxis after hours is a concern in Western and Northern division. As such officers shall use any other means of transportation available at those times. Official receipts must be obtained.

Overtime

- f) Approval for overtime shall be requested to the Divisional Managers, Deputy Government Statistician and the Government Statistician.
- g) Overtime shall only be done by officers who have prior approval from designated officers in 5(a).
- h) Overtime claims shall only be claimed by officers who are entitled to overtime.
- i) All office shall keep and update an overtime register.
- j) All overtime claim forms shall be verified and signed by the officer in charge before submitting to the Senior Statistician and Divisional Manager.

Control measures

- c) All office shall keep and update a register for all officers working within each operation centre.
- d) Instructions of pickup and drop-offs to be given by the Field statistician/Senior statistician and adhered to accordingly.

It is the responsibility of the Budget committee to consistently communicate to the other subcommittees an update of cash flow and commitments well in advance so as to prepare themselves for submissions 4 weeks before due date.

Appointments for Enumerator's & Supervisors	18-Sep-17	8-Oct-17

RECRUITMENT OF 650 SUPERVIOSRS & 2156 ENUMERATORS

The Fiji Bureau of Statistics is to conduct a recruitment drive with effect from Thursday 1st June to Wednesday 28th June 2017 for Supervisors and Enumerators that will be appointed for enumeration in the 2017 Population & Housing Census. All interested individuals are requested to apply in person only once, on the specified time, dates and the Recruitment Centre closest to their home location as is to be advertised in the dailies. It should be noted that no relocation expenses will be paid, however, subsistence for travel away from the designated base location after appointment will be paid where necessary.

REQUIREMENTS

Those to be recruited are to be Fiji Citizen, be physically fit (given the nature of work to be completed within 3 weeks) and under the age of 55 years. It will be the responsibility of the interested applicant to bring in copies;

- Birth Certificate
- Tin Letter
- FNPF

Knowledge of smart devices will be an added advantage.

Grievance procedure

For the entire operation, all grievances are to follow the proper channel as per the line of reporting in Figure 2 and to be addressed only by the HR committee where necessary. This includes;

1. Causalities whilst in the field
2. Disagreements between officers on certain areas of work
3. Complaints against officers not performing to expectations
4. Harassment of any form
5. Concerns on allowances and pay
6. Concerns from the general public
7. Any other grievance for that matter

Questionnaire design Committee

Indicator: 3 draft designs of Questionnaire, 1 stakeholder/user conference, final draft of questionnaire and hard-copy print-outs
Baseline: SPC Census Template
Target: A relevant Population and Housing Census Questionnaire capturing the data needs of stakeholders and users, which can be implemented using tablets.

Table 34: Questionnaire design Committee Activities

Activities	Start date	End date
1st Draft - Questionnaire	17/08/2016	17/08/2017
Presentation to Census committee	18/08/2017	18/08/2018
2nd Draft - Questionnaire	18/08/2016	5/9/2016
Presentation to Census committee	6/9/2016	6/9/2016
3rd Draft -Questionnaire	06/09/2016	15/09/2016
Presentation to Census committee	15/09/2016	15/09/2017
Presentation to External Sector/User conference	21/03/17	21/03/17
Final Draft - Questionnaire for pre-test via divisions	5/08/2017	05/08/17
Final Copy ready for pre-test	5/08/2017	29/05/2017
Printing of questionnaire for reserve	28/08/2017	09/01/17

The design for the 2017 Census questionnaire is to adopt the SPC Model which had eight modules with the non-private dwelling (NPD) as the ninth. With a standard approach in mind via Census questions across the region, the questions are to be modified to suit Fiji's context.

The Census Pre Test of the 2017 Population Census AC Training is to begin on the 08th – 10th of May, 2017 in the Western Division. This is to be done for the Northern Division on Wednesday (10th of May) and the Central Division on Thursday (11th of May).

Publicity Committee

Indicator: Actual visitation as planned, census logo, consultation with both internal and external key stakeholders
Baseline: Consultations with key stakeholders
Target: Progressive

Table 35: Publicity Committee Activities

Meeting with radio stations [CFL & FBC] and having discussions on concepts for ads and quotations for ads	11/03/2017	21/04/2017
Radio ads will begin	21/07/2017	30/09/2017
Continual discussions with radio stations and FBC on ad and edits that need to be made	24/04/2017	28/09/2017
Meeting with Publicity Team and discussing concepts for paper ads and Budget planning	1/05/2017	31/05/2017
Meeting with Fiji Sun and having discussions on concepts and quotations for ads	6/05/2017	30/08/2017
Minute to GS for approval of newspaper company to use for ads	14/05/2017	14/05/2017
Finalise newspaper ad and send to newspaper company	15/05/2017	18/05/2017
Ads for TV will begin	15/05/2017	15/10/2017
Newspaper ads to begin	19/05/2017	30/09/2017
Using of Social Media Account for Census awareness	10/06/2017	15/10/2017
Getting Quotations from Damodar and Life Cinemas for Cinema Ads	20/06/2017	30/06/2017
CinemAds will begin	3/07/2017	15/10/2017
Putting up of Billboards	1/07/2017	30/09/2017
Publicity on Talk shows	1/07/2017	15/10/2017
Getting Quotations from LED Screens Ads	14/08/2017	18/08/2017
LED Screens will begin	10/09/2017	15/10/2017
Getting quotations for pens, badges, key tags and eco bags	14/08/2017	18/08/2017
Preview final ad edit to GS and edit as suggested	15/08/2017	17/08/2017
Census Countdown, Census Day- Ad	1/09/2017	17/09/2017
Reminder that it is not too late to fill in Questionnaire	22/09/2017	30/09/2017
Reminder to have Census Questionnaire filled to avoid facing prosecution	1/10/2017	8/10/2017
Final Ad on thanking everyone for taking part in the Census	9/09/2017	15/10/2017

Publicity plans must be well advanced with a comprehensive range of activities planned. The Census logo is to be chosen preferably in alignment with the Sustainable Development Goals (SDG) "Leaving no one behind". Once the logo is finalised, an email signature for all is to be created to create more awareness.

Electronic advertising is to be made available through the social media including the departments' official website. The use of social media will be a useful way to connect with a millennial generation who may otherwise be difficult to reach through traditional publicity approaches. Billboard advertising with the Census and Bureau Logo is to be pasted on vehicles that will be used during the operation to create more awareness to the general public. In particular, the rural communities.

Stakeholder consultation

Presentations to Ministries and Departments is to begin in February after the publicity team attends training with the Area Coordinators. Stakeholder consultation around the Census is also crucial in gathering their support. Support from the police department in particular is to be formally requested to become active supporters of the Census. This is also paramount for the safety of all Census officers.

Publicity materials are to be developed and printed for the general publicity campaign. The effectiveness of the publicity will set a platform for more enquiries flowing in about Census enumeration. The number of phone calls for public enquiries received through the toll free line will be an indication as a positive note for the Bureau. In particular, for individuals who call for clarity over concerns about not being enumerated well or merely to report certain activities during the three weeks of enumeration.

Training Committee

Indicator: 4 Training via Divisions, creation of field work manuals

Baseline: 2007 Census manuals

Target: Successful completion of training 150 ACs, 650 Supervisors, 2156 Enumerators

Table 36: Training Committee Activities

Activities	Start date	End date
Setting up of training pac	01/02/2016	18/02/2017
Finalise Test papers	06/02/2017	20/02/2017

Drafting of Supervisor & Enumerators Manual	31/03/2017	1/7/2017
Finalise Field Manual for Supervisor & Enumerators	2-May-17	31/06/2017
Finalise Test papers	31-Jul-17	4-Aug-17
Recruitment of AC	13/03/2017	13/03/2017

Enumerators and supervisors are to be undergo training during the period from the 14th to the 25th of August. They are to be deployed to gather information concerning all persons in the households of the Enumeration Area (EA) to which they have been assigned.

It will be the responsibility of the training committee to make sure respective ACs conducting training for the enumerators and supervisors relate the following on key areas of responsibilities.

- All to be thoroughly familiar with the contents of the enumerator and supervisor manual.
- All to sit for an examination on August 18th to which their appointment will be confirmed based on their overall performance during the training and examination results.
- All to undertake all prescribed preparatory work before gathering data from households in the assigned area between September 4th and Census Night on the 17th of September.
- During the three weeks period after Census Night (September 18th to October 6th, 2017), they are to collect and record all the required information from the households in their respective EAs.
- They are to continuously sync completed questionnaires from the field to the Supervisors and upon approval will send it to the AC at Headquarter level.
- For any unanswered questions or errors on the filled forms, the AC is to reject the form back to the supervisor towards the enumerator in the field to amend and resend.

Reserved enumerators are to be used;

- In the enumeration of the population in the largest and/or most populous EAs.
- When a regular enumerator needs to be replaced because of illness, non-performance or inappropriate behaviour.
- For the enumeration in areas where work is progressing more slowly than expected for instance due to adverse weather conditions (i.e. in the Lau and Lomaiviti provinces as well as parts of other provinces), or to political or other forms of unrest etc.
- To help out in the enumeration of Institutionalized persons in non-private dwellings (NPDs) i.e. institutions like health facilities, corrective institutions, boarding schools etc. as well as the enumeration of hotel/motel guests.

All official equipment's including tablets, charger, external battery, map(s), identification card etc. are to be returned to the supervisor after the operation.

Remuneration

- Enumerators are to be engaged for a period of 21 days and receive a weekly remuneration of \$299.92 at an hourly rate of \$8.106. The remuneration is taxable.
- Supervisors are to be engaged \$8.684 for a period of 21 days and receive a weekly remuneration of \$321.31 at an hourly rate of \$8.106. The remuneration is taxable.

NPDs/Other Institutions

It will be the role of the lead trainer to ensure the proper count of Non private dwellings (NPD) and or other institutions. The key responsibilities of the institutional coordinators must be clearly articulated as per the following;

- To complete the questionnaire as soon as possible after census night.
- To ensure that the name of the institution (or ship) should be written at the top of the questionnaire so as to make it clear that it is not a private household.
- To communicate with the responsible AC and supervisor on certain areas that needs clarity.
- Assist the Census supervisor by making sure the submitted questionnaire is checked for consistency and accuracy.
- To note any issues detected and have clear comments with instructions for the supervisor whilst collecting the questionnaire.

KEY PERFORMANCE INDICATORS

The following is to be considered before the payment of institutional coordinators;

- Questionnaire filled within the scheduled time.
- Quality of data collected.
- Contribute effectively as part of the census team.

Purchase and Equipment (IT) Committee

Planning & Purchase with Tender Board Approval (Task c1)

Indicator: Tender Board Approval

Baseline: No submissions for tender board

Target: To have a supplier approved for the purchase of tablets, server, and other IT infrastructure. The actual purchase of 3200 tablets and server with server rack

Table 37: Purchase & Equipment

Task c1	Activities	Start date	End date
C1.1	IRE Submission to Finance	August ,2016	August ,2016
C1.2	Approval from Finance	August ,2016	August ,2016
C1.3	Money received by Bureau	August ,2016	August ,2016

Table 38: Planning & Purchase with Tender Board Approval (Task c2)

Task c2	Activities	Start date	End date
C2.1	Plan the requirements of the tablets that is to be used in Census	June, 2016	July, 2016
C2.2	Minute to GS for tablets, cases, power banks	August, 2016	November, 2016
C2.3	Minute to GS for Server, server rack, server cooling rack, ups, security	August, 2016	November, 2016
C2.4	Memo to ITC for Tender process	November, 2016	November, 2016
C2.5	Evaluation of equipment with ITC	December, 2016	May, 2016
C2.6	Approval from ITC Steering Committee	December, 2016	May, 2016
C2.7	Tender advertised	December, 2016	May, 2016
C2.8	Tender Evaluation	January, 2017	August, 2017
C2.9	Vendor chosen	April, 2017	September, 2017
C2.10	Approval given to Bureau	April, 2017	Server pending
C2.11	PAO & Team towards finance approval	April, 2017	Server pending
C2.12	Supplier to IT	May, 2017	Server pending

The IT purchase and equipment committee activities is to be twofold as it requires both purchases with and without tender board approval. IRE submissions should be done on time as per the Census plan for funds to be approved for use in a timely manner. These funds are to be used to buy all Census IT equipment's which includes tablets, cases, and computing devices, desktop computers, mouse, keyboards, screens, internet, sim cards, printers, toners, power boards, switches, extension cords, etc.

Planning & Purchase without Tender Board Approval (Task c3)

- Indicator:** The purchase of stationaries, computers, furniture, backup switches, storage, projectors and presenters
- Baseline:** actual submissions
- Target:** have all purchases done by July 2017

Table 39: Planning & Purchase with Tender Board Approval (Task c3)

Task c3	Activities	Start date	End date
C3.1	Expected RIE amount 2nd Quarter	November, 2016	November, 2016
C3.2	Minute to GS for approval for IT stationaries	December, 2016	April, 2017
C3.3	Purchase of IT stationaries	January, 2017	July, 2017
C3.4	Minute to GS for computers	December, 2016	June, 2017
C3.5	Purchase of computers	January, 2017	July, 2017

C3.6	Minute to GS for back up, switches	December, 2016	June,2017
C3.7	Purchase of back up, switches	January, 2017	July, 2017
C3.8	Minute to GS projector and presenter	December, 2016	June,2017
C3.9	Purchase of projector and presenter	January, 2017	July, 2017
C3.10	Minute to GS for furniture's	December, 2016	June,2017
C3.11	Purchase of furnitures	January, 2017	July, 2017
C3.12	Minute to GS for internet upgrade for Census	December, 2016	June,2017
C3.13	Upgrades	January, 2017	July, 2017

All items that do not require a tender process are to be purchased on time and setup done within the time limit.

Other activities for the Purchase and Equipment (IT) committee are to be kept within the set start and end dates.

Table 40: Recruitment of Statistical Officers, Statistician and Assistant Statistician for Census Operation

Task c4	Activities	Start date	End date
C4.1	Advertisement of positions	December, 2016	December, 2016
C4.2	Shortlisting candidates	January, 2017	January, 2017
C4.3	Interviews for shortlisted candidates	February, 2017	February, 2017
C4.4	Decision on the chosen candidates	February, 2017	February, 2017
C4.5	Recruitment of chosen candidates	April, 2017	April, 2017

IT Project officers are to be recruited and start their work in April 2017.

Table 41: Setup

Task c5	Activities	Start date	End date
C5.1	Check equipment to see if it is working	May, 2017	July, 2017
C5.2	Enter inventory	May, 2017	July, 2017
C5.3	Load the required programs	June, 2017	July, 2017
C5.4	Load survey solutions	June, 2017	July, 2017

The setup of tablets is to be completed within the required timeline set out.

Table 42: Building capacity for storage in Headquarters'

Task c6	Activities	Start date	End date
C6.1	Designing different solutions to storage in HQ	May, 2017	July, 2017
C6.2	Choosing a solution	May, 2017	July, 2017
C6.3	Getting approvals	May, 2017	July, 2017
C6.4	Implementation of solution	May, 2017	July, 2017
C6.5	Payment for works done	May, 2017	July, 2017

Copies of data are to be stored in hard drives and computers. Most Census data will be stored in the World Bank server and this can only be extracted with the availability of a new server. In this connection, the new server setup will need to be sought for and completed as the current server does not have the capacity to hold Census data.

Table 43: Testing

Task c7	Activities	Start date	End date
C7.1	Testing with Survey Solutions in office	April, 2017	July, 2017
C7.2	Testing with Survey Solutions outside office	April, 2017	July, 2017
C7.3	Network testing	April, 2017	July, 2017
C7.4	Load testing	April, 2017	July, 2017
C7.5	Questionnaire testing	April, 2017	July, 2017
C7.6	Communication with approved network and Server	April, 2017	July, 2017
C7.7	The different approval levels (Enumerator, Supervisor and HQ)	April, 2017	July, 2017
C7.8	Steps to take when a tablet is lost	April, 2017	July, 2017
C7.9	Storage in server	April, 2017	July, 2017
C7.10	Final output of raw data	April, 2017	July, 2017

A 4 phase Pilot testing is to be done in all regional offices and HQ. The first test is to be conducted in Labasa office where Suva office is to act as the HQ for Survey Solutions. The second test is to be held in Nadi office where Ba is to act as the HQ for Survey Solutions. The third test is to be held in Suva office where Labasa will act as the HQ for Survey Solutions. The fourth test is to be held in BA office where Nadi office is to act as the HQ for Survey Solutions. In all, a reporting template is to be used to capture challenges faced by respective teams for the pilot phase.

Table 44: Final Approvals

Task c8	Activities	Start date	End date
C8.1	Approval on the technological methodologies	April, 2017	July, 2017
C8.2	Creation of census share in cloud	April, 2017	July, 2017
C8.3	Approval of procedures	April, 2017	July, 2017

Whilst testing is in progress, final approvals for the above activities are to be finalised.

The questionnaire design team is to continuously monitor the test conditions so as to fine-tune the Census questionnaire.

Table 45: Testing for Pilot Census (testing with full connectivity to the server)

Task c9	Activities	Start date	End date
C9.1	Testing different scenarios	August, 2017	August, 2017
C9.2	Testing for situations where limited connectivity is available	August, 2017	August, 2017

All 4 phases of pilot should also test the activities in the tables below.

Table 46: Pilot Testing (April 2017)

Task c10	Activities	Start date	End date
C10.1	Testing from different parts of Fiji	August, 2017	September, 2017
C10.2	Testing for the different scenarios as encountered in a Census	August, 2017	September, 2017
C10.3	Testing the whole process until the data reaches the Bureau Server	August, 2017	September, 2017
C10.4	Pushing the system to limit by pushing all the processes	August, 2017	September, 2017

Table 47: Evaluation and Improvements (c11)

Task c11	Activities	Start date	End date
C11.1	Evaluating results from the Pilot	August, 2017	September, 2017
C11.2	Evaluating process that fail	August, 2017	September, 2017
C11.3	Implementing changes to rectify fails	August, 2017	September, 2017
C11.4	Testing	August, 2017	September, 2017
C11.5	Run Tests Again	August, 2017	September, 2017

Areas of improvements from the different pilot phases are to be identified and resolved to get the system ready for Census.

Table 48: Evaluation and Improvements (c12)

Task c12	Activities	Start date	End date
C12.1	Evaluating results from the Tests	August, 2017	September, 2017
C12.2	Evaluating process that fail	August, 2017	September, 2017
C12.3	Implementing changes to rectify fails	August, 2017	September, 2017
C12.4	Testing	August, 2017	September, 2017

Table 49: Building capacity for storage in the Regional Offices

Task c13	Activities	Start date	End date
C13.1	Designing different solutions to storage in the regional Offices	May, 2017	July, 2017
C13.2	Choosing a solution	May, 2017	July, 2017
C13.3	Getting approvals	May, 2017	July, 2017
C13.4	Implementation of solution	May, 2017	July, 2017
C13.5	Payment for works done	May, 2017	July, 2017

Security measures inclusive of storage lockers and security cameras are to be installed in all offices for safety and security before the Census operations begin.

Table 50: Recruitment of 1 Statistician and 1 Assistant Statistician

Task c14	Activities	Start date	End date
C14.1	Advertisement of positions	May, 2017	September, 2017
C14.2	Shortlisting candidates	May, 2017	September, 2017
C14.3	Interviews for shortlisted candidates	May, 2017	September, 2017
C14.4	Decision on the chosen candidates	May, 2017	September, 2017
C14.5	Recruitment of chosen candidates	May, 2017	September, 2017

The Assistant Statistician is to start in July 2017. The Statistician is to start in September 2017.

Table 51: Census preparation and distribution of tablets

Task c15	Activities	Start date	End date
C15.1	Census Training to new IT staff	April, 2017	September, 2017
C15.2	Census Training to enumerators	April, 2017	September, 2017
C15.3	Distribution of tablets to the 4 offices	April, 2017	September, 2017
C15.4	Storage of tablets into the 4 offices	April, 2017	September, 2017
C15.5	Assigning of duties during Census to IT officers	April, 2017	September, 2017

New officers are to be trained about the use of tablets, network and survey solutions. The distribution is to be done in August 2017. The distribution and storage is to be completed in August 2017 with the assignment of different officers to divisional offices and operational centres as IT support in these areas.

Table 52: Census Enumeration Weeks

Task c16	Activities	Start date	End date
C16.1	Extraction of data	September, 2017	November, 2017
C16.2	Cleaning of data	September, 2017	November, 2017
C16.3	Support services to all divisions	September, 2017	November, 2017
C16.4	Attending to faults	September, 2017	November, 2017
C16.5	Keeping a count of data stored in server	September, 2017	November, 2017
C16.6	Providing reports	September, 2017	November, 2017

Extraction of data should be done on a daily basis to analyse the quality of data and run checks on the results. The cleaning of data is to be carried out during and after Census. Support is to be provided to all officers during and after Census.

Table 53: After Census

Task c17	Activities	Start date	End date
C17.1	Extraction of data	October, 2017	November, 2017
C17.2	Cleaning of data	November, 2017	November, 2017
C17.3	Structuring of data to required format	November, 2017	November, 2017
C17.4	Giving data for analysis	November, 2017	December, 2017
C17.5	Stock take of tablets	November, 2017	December, 2017
C17.6	Storage of tablets	November, 2017	January, 2018

Stock take of tablets is to commence once data collection is completed. All stolen items reported to HQ needs to be furnished with a police report. However, missing items due to the negligence of the officer is to be paid back in full after this is reported to the accounts officer in charge.

Data processing, Data analysis & dissemination Committee

Indicator: Successful pilot testing towards the actual Census 2017

Baseline: 2007 Census

Target: A successful 2017 Census

Table 54: Data processing, analysis & dissemination Committee Activities

Activities	Start date	End date
Testing for Census actual scenario before Pilot testing for Census 2017	9-Feb-17	17-Mar-17
Pilot testing in April for Census 2017	1-Apr-17	30-Apr-17
1st phase Central, Western, Northern, Eastern Urban & Rural	3-Apr-17	8-Apr-17
Received & processed	10-Apr-17	14-Apr-17
Evaluation of effectiveness	15/04/2017	20-Apr-17
Quality checks per data variables	10-Apr-17	14-Apr-17
Tabulation	21-Apr-17	26-Apr-17
Dissemination Trial	27-Apr-17	1-May-17
2nd phase Central, Western, Northern, Eastern Urban & Rural	17-Apr-17	19-Apr-17
Received & processed	19-Apr-17	20-Apr-17
Evaluation of effectiveness	21-Apr-17	22-Apr-17
Quality checks per data variables	19-Apr-17	20-Apr-17
Tabulation	27-Apr-17	28-Apr-17
Dissemination Trial	29-Apr-17	2-May-17
Evaluation of whole day	1-May-17	31-Jul-17
Data Edits and verification	19/09/2017	29/11/17
Preliminary release, analysis and interpretation	30/11/2017	31/12/2017

With a significant investment on resources in gathering data from the field, the Bureau is to be committed to a rapid release of data. Release 1 of the 2017 should be produced by the end of December and go out to publication on the 1st week of January, 2018.

It will be the role of the data analysis Team leader to develop a data sharing and release plan based on consultations with the Census Commissioner. The data set should then be generated in advance.

Outputs and or information processed from the Census data should all be released within a set time frame so as to maintain the timely, reliable and relevancy of data gathered.

SOP Expectations

The presentation of various activities in this Census Process and Programme Standard report will only be effective through an organised coordination and weekly updates on the progress of all activities given the interdependency of work for all the subcommittees.

Appendix

Progress Report Template

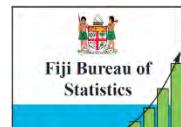

Progress Report – Team name (e.g.)

For the 1st round of EA Revisions (e.g.)

Abstract

(e.g.) This Report is with reference to the latest progress during the month of **July** for the period **00/07/16 – 00/07/16**. To the best knowledge of the Boundary Revision Team, the content is based on facts and an analysis of latest updates, characteristics, success, activities and certain achievements through a team effort at the House Hold Survey Unit - Fiji Bureau of Statistics.

Level 2, Rt. Sukuna House
www.statsfiji.gov.fj

Project Name	(e.g.) Boundary Revision (towards Census 2017)
Project staff	
Report compiled by	(e.g.) Boundary Revision Team
Reporting period	
Section One: Summary	
<p>Please provide a short overview (1-2 paragraphs) of project progress during this reporting period, which could be disseminated to programme stakeholders.</p> <p>To date the project has achieved all of its targets for this reporting period. These include</p>	
Section Two: Activities and Progress	
<p>Report on activities as outlined in your work packages for the period covered by this report and describe any changes to this, including the reasons for these. Do include any additional activities undertaken that are not in your work packages, providing the background to their inclusion.</p> <ol style="list-style-type: none"> 1. Develop work plan: 2. Suitable tools and resources: 3. Development of support materials/Consultations: 	
Section Three: Institutional & Project Partner Issues	
<p>Report on SPCs contributions to date and or any other key stakeholders....</p>	
Section Four: Outputs and Deliverables	
<p>Are there any deliverables and or outputs you would like to share...? (<i>provide attachments of what already collated.....EA descriptions and maps</i>) (e.g.)</p>	
Section Five: Outcomes and Lessons Learned	
<p>Outline any emerging outcomes or lessons, if any that have been learned during this reporting period that could be improved on.</p>	
Section Six: Evaluation	
<p>Provide brief details of progress in terms of the development and implementation of the project evaluation plan. Detail any interesting findings or emerging evaluation issues of interest.</p> <p>Evaluation: the evaluation for the project is ongoing, as indicated in the original work-plan. We have identified the instruments to collect data and have developed a critical incident questionnaire as requested by the government statistician with reference to the SDG. Further work is now required to assimilate the data we have already collected (e.g. constructing EA guide books) in readiness for the Census 2017.</p>	
Section Seven: Dissemination	
<p>Report on any communication or dissemination activities with project stakeholders or the wider community which have taken place during the reporting period. Attach or provide any relevant dissemination or presentation materials (e.g. That used by meeting for WHO – 16/08/2016, etc.)</p>	
Section Eight: Risks, Issues and Challenges	

Report on any issues or problems that have impacted on the development and implementation of the project during the reporting period. Detail what impact any issues may have on the achievement of project targets, and set out how you plan to tackle these issues. Report on any unexpected project achievements. In this section you can list whether there has been changes in risks, whether they have become issues and whether new risks have been identified.

Section Nine: Collaboration and Support

What areas of work would you like to discuss with other Census 2017 Team Leaders?

Is there anything that you would like advice and support on? Do you have any specific training needs, requests or suggestions for the work at hand?

Section Ten: Financial Statement – if you wish just a summary for what has been utilised as per the requested amount

In this section you should detail the expenditure of the project so far. Against the budget headings you should set out the expenditure for the reporting period, noting any significant over/under spend giving reasons for this. You should also state the total expenditure to date against each budget heading.

Section Eleven: Next Steps

In this section you should very briefly list the activities planned and/ other information of relevance for the next stage of the project by dates.

Appendix 5 – Census Activities

Census activities that require immediate and future actions	Division	Responsible officers	Due dates	Checks on Minute Submissions	Monitoring and Evaluation	Sign Off and Final Approval	Status
<i>For the Month of June - 2017</i>							
Minute submission on Awareness slides	Central	Publicity Team	08/06	Mary & Ana	All Team	(CC) Census commissioner	Pending
Minute for 4 quality colour printer	Central	Maria & Amitesh	09/06	Mary & Ana	CD	CC	Completed
Pilot phase 2 workflow with Minute for budget	Western	Emily, Hakim & Sereima	09/06	Mary & Ana	CD	CC	Completed
Minute submission for 1 day (14/06) visit of SPC & 2 FBoS staff to Ba/Nadi Office_Phase 2	Central	Sala & Harieta	09/06	Mary & Ana	CD	CC	Completed
Shipping for Census operations	Central	Simeli	09/06	Mary & Ana	CD	CC	TBC
(1) Awareness letter to all Turaga ni Koro's, (2) Roko Tui's, (3) Provincial Administrator's	Central/ Western & Northern	Regional Managers with assistance from internal officers	09/06	Mary & Ana	CD	CC	TBC
Sevusevu Logistics for Central Division	Central	Alipate, Mosese, Save, Sulu	23-26/06	Mary & Ana	CD	CC	Completed with work progressively carried out
Sevusevu Logistics for Western Division	Western	Hakim/ internal staff	23-26/06	Mary & Ana	CD	CC	Progressive
Sevusevu Logistics for Northern Division	Northern	Avinesh/ internal staff	23-26/06	Mary & Ana	CD	CC	Progressive
Minute submission on list of Tables to be tested from pilot data (Data processing & Analysis Team)	Central	Mr. Fifita	09/06	Mary & Ana	CD	CC	Completed
Meeting minutes submission	Central	Sala & Meli	08/06	Mary & Ana	All Team	(CC) Census commissioner	Submitted
Coordination & arrangement of activities for ABS	Central	Sashee & Rupeni	12/06	Mary & Ana	CD	CC	Progressively
Meeting with accounts Team on SMA that was submitted last month	Central	Amrita, Unita, Mere, Neori & Alipate	12/06 @ 2.30pm (Old Library)	Mary & Ana	CD	CC	Pending
SPC Meeting with IT with reference to further TA needed from SDD	Central	IT Team & SPC Maria to coordinate	12/06 @ 9-10am (IT Office)	Mary & Ana	CD	CC	Pending
SPC Meeting with Data Processing & Analysis Team with reference to further TA needed from SDD	Central	Data Processing/ Analysis Team & SPC Maria to coordinate	12/06 @ 11-12pm (Old Library)	Mary & Ana	CD	CC	Pending
SPC Meeting with Mapping Team with reference to further TA needed from SDD	Central	Mapping Team & SPC Maria to coordinate	12/06 @ 2-3pm (Old Library)	Mary & Ana	CD	CC	Pending

SPC Meeting with Census Commissioner & Director with reference to further TA needed from SDD via TOR	Central	Census Commissioner and SPC Maria to coordinate	13/06 @ 2-3pm (Old Library)	Mary & Ana	CD	CC	Pending
Minute submission on approval for overtime with WP for all Divisions & proper justifications	Central	Maria	13/06	Mary & Ana	CD	CC	Pending
Submission of write-up for Tender advertisement for fieldwork equipment's & procurement guidance to FPO	Central	Maria & Unita	13/06	Mary & Ana	CD	CC	Write-up Completed
1 day visit of SPC & 2 FBoS staff to Ba/Nadi Office_Phase 2	Central	Mr. Raikoti, Sala & Kelera	13/06	Mary & Ana	CD	CC	Pending
Minute submission with 3 quotations and recommendations on 3 days training venue for Supervisors in August	All Div.	Respective SS	13/06	Mary & Ana	CD	CC	Central submitted approved & paid for. Western & Northern to advise on status
All final drafts for field manuals to be sent across to all divisions to be discussed with respective ACs	Central	Divisional Managers with respective ACs	13/06	Mary & Ana	CD	CC	Pending
Minute submission and 3 stickers quotes for Actual Census	Central	Save & Kishan	14/06	Mary & Ana	CD	CC	Completed
Pilot phase 3 workflow with Minute for budget	Western	Emily, Hakim & Sereima	16/06	Mary & Ana	CD	CC	Completed
Pilot phase 4 workflow with Minute for budget which includes HC & Bid	Central	Maria, Kelera, & Neori	08/06 & 21/06	Mary & Ana	CD	CC	Minute for budget submitted (workflow by 28/06)
IT work plan on configuration of tablets together with the submission of names that are to be stationed at respective regional offices during Pilot phases & Census Operations	Central	IT Team	14/06	Mary & Ana	CD	CC	IT to advise on status
All final drafts comments for field manuals sent across to all divisions to be sent back to HQ	All Div.	Divisional Managers towards the Training Team	15/06	Mary & Ana	CD	CC	Pending
Minute submission with All final drafts for field manuals to be submitted	Central	Training Team	16/06	Mary & Ana	CD	CC	Pending
Evaluation of Phase 2 to be submitted	Western Team	Western Team	19/06	Mary & Ana	CD	CC	Pending

Census committee meeting and progress updates	All Teams	Team Leaders	20/06	Mary & Ana	CD	CC	Pending
Meeting minutes submission	Central	Matelita	23/06	Mary & Ana	All Team	(CC) Census commissioner	Submitted
All training slides & Agenda for Enumerators and Supervisors to be finalised	Central	Consolidation by the Training Team with ACs to comment	23/06	Mary & Ana	CD	CC	Pending
All Mapping work to be completed	All Div.	Respective offices	30/06	Mary & Ana	CD	CC	Pending
Recruitment drive to be completed for Enumerators and Supervisors	HR Team	HR Team	30/06	Mary & Ana	CD	CC	Progressive
<i>For the Month of July - 2017</i>

Operations Management Meeting

Operations Management Meeting	
Thursday 21 st Sept, 4:30pm – 6:00pm (Skype group video call)	
Purpose	This meeting is to bring together each key area of responsibility involved in Census Operations to provide an update of how operations are progressing. Discussion regarding issues and how these are being resolved will assist in developing a consistent national approach.
Attendees	Government Statistician - Epeli Waqavonovono Divisional Coordinators - Avi, Hakim, Emily D HR - Ms Brown, IT - Reenesh and Jone, Data Analysis – Mr Fifita
Apologies	Census Manager – Maria Musudroka Accounts – Unita Devi, Divisional Coordinator - Sereima
Updates	<p>1. North</p> <ul style="list-style-type: none"> • Connectivity on day 1 and 2 was a real challenge, this seems to be improving and so the rate of forms coming in has increased as a result. • Some issues with Enumerators finding sync locations have been noted and resolved by Area Coordinators sharing work plans and ensuring the pre-identified sync locations are being used. • The numbers of call backs in Urban and Peri Urban areas, where mostly working people live, are starting to present as a challenge. This is being actively managed by Supervisors and will continue to be monitored so it does not impact on progress in the field. • Tablet issues are being resolved by IT located in Labasa and through communication with IT in HQ <p>2. Nadi</p> <ul style="list-style-type: none"> • Noticeable improvement in day 3, with numbers of forms coming in and coverage • NPD approx. 90% of forms have been picked up. <u>Confirmation required</u> if the person completing at an NPD has not included their name is this ok. <u>Response</u> if they have selected they are a visitor is it ok for their name to be missing, but follow up with the NPD for any Fiji residents. • Dogs have been an issue for enumerators, and one had been bitten by a dog. The impacted enumerator was offered appropriate treatment and has decided to continue working. • Transport will be a challenge for next week as a driver is not available. Hakim to call on all support officers in Nadi who are able to drive a manual car to provide assistance. <p>3. Central/Eastern</p> <ul style="list-style-type: none"> • Feeling the impact of calls from the public, and request that the call centre set up as soon as possible to be the first line of contact for people with feedback or enquiries. • Tablet battery life has been an issue and addressed in some cases by paying for fuel and generator use in villages for enumerators to charge tablets, others have been making do with the backup battery. • DQ Officers in Suva have been requested to assist with publicity for week 1 <p>4. IT</p> <ul style="list-style-type: none"> • Set up for toll-free number for public to contact for queries or feedback should be set up by tomorrow (22/09). Waiting on Vodafone to finalise all associated set up and can proceed. • Username and password issues were mostly resolved on Day 1 and Day 2, they are becoming less frequent now.

	<ul style="list-style-type: none"> • Instances of two enumerator using one account occurring and this is being resolved by creating new username and password, then transferring the data to the new and syncing. • Enumerators using training username and ID was resolved by clearing the cache and setting up with new username and password • <i>See National Issues for more IT related updates</i> <p>5. HR</p> <ul style="list-style-type: none"> • A number of calls received from the family of enumerators, asking about the meal allowance payments. An announcement on talk back radio to contact Census HR prompted these calls. • One instance of performance management of enumerator who has been able to complete 2 or 3 interviews per day. Enumerator was informed in writing about performance expectations and given an opportunity to improve. They were not able to, and as such a formal termination process has commenced. • HR will continue to provide support for the performance management and replacing any staff who have resigned with reserves <p>6. Data Analysis</p> <ul style="list-style-type: none"> • Undertaking role of HQ on day 1 and Day 2 in Nadi, Ba and Labasa offices. Suva office DQ Officers were assisting with engagement with schools and promotions. • DQ Officers have begun conducting investigations into the data quality for interviews that have been rejected and accepted, they have found cross checks useful for: <ul style="list-style-type: none"> ◦ Age and level of education (for example, a 20 year old is not expected to have a PHD) ◦ Level of Education and Occupation (for example, a Senior Accountant is expected to have completed some higher education) ◦ D1 – Activity completed in last 7 days and Agriculture (for example, if subsistence farming is selected, expected type of farming to be consistent in agriculture section) <p>7. Closing remarks</p> <ul style="list-style-type: none"> • Government Statistician acknowledges the hard work and continued efforts to respond with a positive attitude and resolve issues quickly • Pleased with the advertisement and promotions has meant a positive response from households to Census staff
National issues	<p>Questionnaire Issues:</p> <ul style="list-style-type: none"> • EA not found on the list. Response – Ensure that the enumerator writes in the comments that EA is not on the list, and <u>includes the EA number</u> so the interview can be linked once submitted. • Module D: <ul style="list-style-type: none"> ◦ When a single activity is selected for D1, the person will be asked the employment and unemployment/unpaid work sections. IF the person has paid employment, instruction to continue with one of two solutions: <ul style="list-style-type: none"> I. complete the unpaid work section and include a comment of ‘employed’ under reason for not looking for work. II. Leave questions unanswered in the unpaid work section ◦ Nature of Activity of Employer has been a source of confusion. Assistance for enumerators to classify the industry will assist with coding. ◦ Number of hours worked, if 1 is selected clarification of 1 hour, one day or one week is sought. <p>Tablet Issues:</p> <ul style="list-style-type: none"> • Battery life has been a challenge, in some cases reports of 3 -4 interviews draining the battery. Response from IT - request a message to all enumerators to ensure the internet activity is kept to minimum. IT officers can check to make sure no apps are working in the background to update.

	<ul style="list-style-type: none"> Interviewer app has gone missing from tablets in some cases. Response from IT - The IT officer will need to reinstall the app from the website. Scenarios of the tablet freezing or shutting down after each interview have been occurring nationally. Response from IT - the IT officer will need to uninstall the app and reinstall it from the website to resolve this. If the issue still occurs, the tablet will need to be brought into IT to do a factory reset. <p>Field Issues:</p> <ul style="list-style-type: none"> Dogs have been problematic everywhere, and references in the media asking for people to chain up will ideally assist in awareness.
Action Items	<ul style="list-style-type: none"> Avi to send completed appointment letters to Ms Brown Hakim to follow up with Area Coordinator who had trouble with NPD module being completed for interviews at Private Dwellings. Provide IT with interview ID for further investigation Reenesh to provide updates on the Toll-Free number for public to call Ms Brown to begin asking reserves in Suva if they would travel to work in Nadi to enumerate households (if required) Jess to continue to work with Mosese to find a measure of progress in EAs
Next Meeting	4pm – 5pm Tuesday 26th September

Appendix 11 – Appointment of Census Commissioner

Appendix 12 – Operation Plan

2017 Fiji Population and Housing Census

OPERATIONAL PLAN

The 2017 Fiji Population and Housing Census operational/ business plan is a derivative of the department's strategic plan. This business plan is a detailed action plan to accomplish the objectives of the nine Census subcommittees'. It outlines who is responsible to carry out the tasks, time frames, costs for each year of the plan's duration and performance indicators.

Committee	Objectives	Strategy	Performance Indicator	Budget	Timeline	Responsibility	Progress
Budget	1. To provide structure and give the project clear guidance regarding the direction in which the project was supposed to be going with reference to finance	Provide monthly updates on the Census budget cash flow to all the committees	Submission of request on time Flow in the delivery of funds when needed			Budget Team	
	2. To ensure that proper processes were followed via the SOP						
	3. To provide regular updates to committee members on the cash flow						
	4. To facilitate the allocation of resources after careful						

Committee	Objectives	Strategy	Performance Indicator	Budget	Timeline	Responsibility	Progress
	examination of submissions made						
	5. To measure performance for the respective committees via their submissions						
Mapping	1. To clearly demarcate EA boundaries by using aerial photography/satellite imagery and GIS techniques in the census mapping process. This was to enable FBoS to accurately demarcate the whole country within a prescribed and correct geographic frame					Mapping Team	
	2. To assist on the division of standard EAs via the use of data from the headcount exercise. With an average household number of one hundred plus, each enumerator will be assigned to enumerate its total population during the Census reference weeks						

Committee	Objectives	Strategy	Performance Indicator	Budget	Timeline	Responsibility	Progress
Mapping	3. To ensure that the EAs were of a reasonable sizes (in population and land area). This was to ensure that every person in the country was enumerated in the census and no one was missed or double counted					Mapping Team	
	4. To ensure the demarcation of EAs had clear starting points that were identifiable, they did not cut across existing region or district boundaries and did not overlap one another						
	5. To have ready the digital set of EA boundaries for uploading onto the tablets with hardcopies printed as back ups						
	6. To determine the location of the Census applicants in advance of the enumeration in order to make possible the recruitment, training and allocation of a sufficient number of enumerators for the						

Committee	Objectives	Strategy	Performance Indicator	Budget	Timeline	Responsibility	Progress
	HR team. This was a cost cutting measure which also ensured that enumeration was completed in time without omissions or duplications						
Human Resource	1. To effectively design the recruitment process via the open merit recruitment system (OMR) with key elements of Census factored in					Human Resource Team	
	2. To ensure that the workplace conditions within the project drive engagement and retention of project officers						
	3. To identify potential compliance issues towards premeditated mitigations in place for the survey						
	4. To have in place a plan for turnover risks						
	5. To ensure that progress reports are submitted as per scheduled to track progress of work for all HSU divisions						

Committee	Objectives	Strategy	Performance Indicator	Budget	Timeline	Responsibility	Progress
Training	1. To ensure that the aim, objectives and learning outcomes for all training schedules were measurable					Training Team	
	2. To ensure that the training materials provided clear and concise objectives with specific focus on desired outcomes for each schedule						
	3. To provide a sense of direction and to ensure that all training outcomes were achieved						
	4. To provide benchmarks that can be used to measure the participants understanding for all the questionnaire schedules						
Publicity	1. To ensure that the awareness for Census helps to create survey results and that proper guidelines are adhered to					Publicity Team	
	2. To ensure that all publications in the media communicates guidelines so as to help field officers receive accurate results						

Committee	Objectives	Strategy	Performance Indicator	Budget	Timeline	Responsibility	Progress
	3. To generate media exposure on the specifics and benefits of the survey whilst at the same time provide meaningful insights about the department						
	4. To ensure that all required printings for the survey purposes are done on time						
Information Technology/ Purchase and Equipment	1. To ensure that the recruited officers for Census were properly trained on the use of tablets, network and survey solutions					IT Team	
	2. To ensure that the distribution and storage of tablets were properly documented						
	3. To ensure security measures (risks and mitigations) were in place before the actual operation						
	4. To identify areas of improvements from the different pilot phases and have these resolved						

Committee	Objectives	Strategy	Performance Indicator	Budget	Timeline	Responsibility	Progress
	5. To get the system ready for the Census						
Data Processing, Analysis and Dissemination	1. To develop a data sharing and release plan based on consultations					Data processing and analysis Team	
	2. To provide regular updates to divisional managers through an assessment of data being synced in so as to ascertain if correct and reliable information was gathered						
	3. To ensure that outputs and or information processed from the Census data are to be released within a set time frame so as to maintain the timely, reliable and relevancy of data gathered

Appendix 14 - Objectives and Measures for 2017 Pilot Test

Pilot Test Objective 1: Test the 2017 Fiji Census questionnaire

Group members – Questionnaire Design & Data Analysis and Dissemination Teams

What is being tested?	How to Measure this	Who is responsible for the compilation of information	Who is responsible for the Evaluation & decision making
1.1 Test length of questionnaire in the field <i>e.g. how long at different sized households, which questions are taking the longest, is the time being spent on questions that are vital statistics?</i>	<ul style="list-style-type: none"> Recommendation to collect timing info both through Survey Solutions and through placing observers at households to record timing. <u>Note:</u> timing of the scenario where multiple visits are made to the one household will be an important measure of the total time to complete a questionnaire. 		
1.2 Identify modules, topics and questions that pose difficulty for Enumerators and are risk for reduced data quality			
1.3 Identify key data items for checking process			

Pilot Test Objective 2: Test Survey Solutions and readiness of associated infrastructure

Group members – Equipment and Purchase & Data Processing Teams

What is being tested?	How to Measure this	Who is responsible for the compilation of information	Who is responsible for the Evaluation & decision making
2.1 Effectiveness and risks in procedures for low connectivity areas <i>E.g. how regularly will enumerators need to Sync back</i>			

2.2 Test the understanding of the App with Area Coordinators			
2.3 Test the subsections and statistic texts in Survey Solution design			
2.4 Server readiness and capacity levels <i>E.g. incl. flow of data into server</i>			

Pilot Test Objective 3: Test Field Procedures

Group members – Mapping & Training Teams

What is being tested?	How to Measure this	Who is responsible for the compilation of information	Who is responsible for the Evaluation & decision making
3.1 Test procedures when information is partially completed at the dwelling			
3.2 Test checking procedure <i>e.g. standards regarding completeness of questionnaire</i> <i>Impacts on enumeration if the questionnaire is to be sent back to the field</i>			

Pilot Test Objective 4: Test Census Operations Management Structure

Group members – HR, Publicity & Budget Teams

What is being tested?	How to Measure this	Who is responsible for the compilation of information	Who is responsible for the Evaluation & decision making
4.1 Operational Structure			
4.2 Communication during enumeration e.g <i>issues and crisis identification & escalations</i>			
4.3 Field monitoring and quality checking process			

Appendix 15 - Training Agenda

Training Programme for Census Enumerators' and Supervisors' - Week 1

Time	Monday (14/08/17)	Tuesday (15/08/17)	Wednesday (16/08/17)	Thursday (17/08/17)	Friday (18/08/17)
8.00 - 8.05	Prayer	Prayer	Prayer	Prayer	Prayer
8.05 - 8.30	Introduction and Welcome	Introduction and Welcome	Introduction and Welcome	Introduction and Welcome	Introduction and Welcome
8.30 - 10.00	Introduction to Census	AC Presentation: Geo ID & Mod A	AC Presentation: Module B & Module C	AC Presentation: Mod D & Mod E & Mod F	AC Presentation and Discussion: Mod G & Mod H
Morning Tea Break					
10.30 - 11.30	Field Staff Roles	Discussion: Geo ID & Mod A	Discussion: Module B & Module C	Discussion: Mod D & Mod E & Mod F	Activity : Mod D & Mod E & Mod F
11.30 - 1.00pm	Technology used for data collection	Activity : Geo ID & Mod A	Activity : Module B & Module C	Activity : Mod D & Mod E & Mod F	Test Preparation
Lunch Break					
2.00 - 3.00	Discussion: Census Objectives	Group Presentations : Geo ID & Mod A	Group Presentations : Module B & Module C	Group Presentations : Mod D & Mod E & Mod F	Test Revision
Afternoon Tea Break					
3.30 - 4.30	Discussion: Overview of the Census Questionnaire	Summary key points for Geo ID and Mod A	Summary key points for Module B and Module C	Summary key points for Mod D & Mod E & Mod F	Test Completion

Training Programme for Census Enumerators' and Supervisors' - Week 2

Time	Monday(21/08/17)	Tuesday(22/08/17)	Wednesday(23/08/17)	Thursday(24/08/17)	Friday(25/08/17)
8.00 - 8.05	Prayer	Prayer	Prayer	Prayer	Prayer
8.05 - 8.30	Introduction and Welcome	Introduction and Welcome	Introduction and Welcome	Introduction and Welcome	Introduction and Welcome
8.30 - 9.30	Review Test Outcomes Review field staff roles and expectations	How to achieve outcomes from an interview Undertaking data quality checks while in the household	AC presentation: NPD strategy and plans for enumeration Discussion: Module I	AC presentation to set up groups to be divided into five groups. Each group to choose <u>one</u> topic and present key learning on only one topic: 1.Enumerator role and expectations for field work 2.Understanding an interview at a household 3.How to maintain quality in an interview 4.Writing effective comments 5.The Questionnaire- modules that present challenges	Clarify expectations of field work, communication and presentation before entering the field
9.30 - 10.00	Introduction to quality band the Census			Group work creating presentation on chosen topic: 1.Enumerator role and expectations for field work 2.Understanding an interview at a household 3.How to maintain quality in an interview 4.Writing effective comments 5.The Questionnaire- modules that present challenges	
Morning Tea Break					
10.30 - 11.30	Introduction to Tablets and CAR	Practice interviews: Case Study	Group Activity: Module I	Group work creating presentation on chosen topic: 1.Enumerator role and expectations for field work 2.Understanding an interview at a household 3.How to maintain quality in an interview 4.Writing effective comments 5.The Questionnaire- modules that present challenges	Practice interviews: Case Study 4
11.30 - 1.00pm	Worked example of using tablets for data entry Overview of the checking process	Present on experiences undertaking interview	Group presentations on stategy for NPD and completing Module I	Group work creating presentation on chosen topic: 1.Enumerator role and expectations for field work 2.Understanding an interview at a household 3.How to maintain quality in an interview 4.Writing effective comments 5.The Questionnaire- modules that present challenges	Practice interviews: Case Study 5
Lunch Break					
2.00 - 3.00	Practice Interviews : Case Study	Review Modules that present challenges	Practice intereviews : Case Stud	Presentations from groups on chosen topic	Final learning check & reporting back experiences
Afternoon Tea Break					
3.30 - 4.30	Present on experiences undertaking interviews	Re-do practice interview for case study 2 and apply learning	Present on experiences undertaking interview	Presentations and feedback from area cordinators	Discussion about what is next

Training Programme for Census Supervisors' - Week 3

Time	Monday(28/08/17)	Tuesday(29/08/17)	Wednesday(30/08/17)
8.00 - 8.05	Prayer	Prayer	Prayer
8.05 - 8.30	Introduction and Welcome	Introduction and Welcome	Introduction and Welcome
8.30 - 9.30			
9.30 - 10.00			
Morning Tea Break			
10.30 - 11.30			
11.30 - 1.00pm			
Lunch Break			
2.00 - 3.00			
Afternoon Tea Break			
3.30 - 4.30			

Appendix 16 – Assessment and Evaluation Template for Census Officers

2017 POPULATION & HOUSING CENSUS

AREA COORDINATOR TEST EVALUATION FORM

Province Team: _____ **Office:** _____ **Test Venue:** _____

Test Questions	Correct Ans.	Incorrect Ans.
1. How many questions are there in the Economic Activity Module?		
2. Which module is Economic Activity?		
3. What is the reference period for Economic Activities?		
4. Explain the term 'Secondary' activity.		
5. Define the category 'Inactive Employed'.		
6. Why should enumerators describe the occupation as fully as possible?		
7. What are the 2 criteria of 'unemployment'?		
8. Name one use of the information on the location of the workplace.		
9. Why do we ask for the nature of the activity of the employer or organization in which the Household Member is involved in?		
10. Identify and explain 2 Labour Force indicators, which can be compiled from this Module on Economic Activities.		
11. Give 3 examples of Unpaid Work.		
12. Identify 3 examples of Paid Employment.		
13. State at least 2 of the ways an unemployed Household Member is actively looking for work or job.		
14. How many questions in this Economic Activity Module relates to Unemployment?		
15. The diagram below shows the structure and flow of questions in the first half of the Economic Activity Module. Study it and fill in the blanks for question D1a, D1b and D1d.		
TOTAL: Please indicate the totals.		

THANK YOU FOR YOUR PARTICIPATION!

Appendix 17 – Daily Program Template

Activities	Responsible officers	Team Leaders/ Internal responsible officers/ Drivers	Time
Prayer	Sami Veleko		8.00am
Brief on program and other announcements	Kelera & Maria		8.05 - 8.10am
Standard greeting finalised (I-Taukei, Hindi, English) with selection of Assistant Team Leaders	All Acs	Team Leaders for respective provinces to present on collective concensus via groups	8.10am-9.00am
Rural Boundary Id (Naitasiri Province)	Lemeki Nalewabau (16EAs) Poasa, Aleta Duvaga (16EAs), Nemani, Osea Batiloga (13EAs) Nemani	Nemani & Poasa	To return today
<i>Urban Boundary Familiarisation and pick-ups by vehicle for boundary familiarisation</i>			
	Rachel Hiagi (AC 12) Rewa		
	Sereana Duavoivoi (AC 6) Rewa	- Ilaitia Rokoduguni for (AC 12, AC 6 & AC 14)	8.00am – 4.30pm (sign out)
	George Dyer (AC 14) Rewa	- Tevita Dauniwaqalevu for (AC 16)	pick-up at 4pm
	Inise Buka (AC 16) Naitasiri	- Driver (Subash)	
<i>Morning session</i>			
Presentation	Sereana Duavoivoi (Topic 1)	Kelera & Harieta	<i>Follows after TL presentation</i>
<i>Session to be facilitated by Elaisa Taito</i>	William Auina (Topic 4)	Save, Kishan, Regina	P
P	Keasi Nalewabau (Topic 10)	Mosese, Alipate & Priyenka	P
<i>Morning Tea Break – 10am</i>			
<i>Session to be facilitated by Natasha Narayan</i>	Tevita Dauniwaqalevu (Topic 14)	Kelera, Sulueti & Filipe	10.10am
P	Elaisa Taito (Topic 14)	Save, Kishan, Regina	P
P	Jiutatia Seru (Topic 8)	Mosese, Alipate & Priyenka	P
<i>Afternoon session</i>			
<i>Session to be facilitated by Jiutatia Seru</i>	Merewalesi Bale (Topic 4)	Save, Kishan, Regina	2pm
P	Natasha Narayan (Topic 7)	Save, Kishan, Regina	P
P	Senitiki Rasagale (Topic 6)	Kelera, Sainimili & Harieta	P
<i>Afternoon Tea Break – 3pm</i>			
Mock Presentations	Naitasiri 1 – 10 minutes/ Serua Namosi/Rotuma	Kelera, Sainimili & Harieta	3.10 - 4.30pm
<i>Session to be facilitated by William Auina</i>	Naitasiri 2 – 10 minutes/Lau ~Kadavu ~ Lomaiviti	Save, Kishan, Regina	P
P	Naitasiri 3 – 10 minutes/Rewa 1	Mosese, Alipate & Priyenka	P
P	Naitasiri 4 – 10 minutes/ Rewa 2	Kelera, Sulueti & Filipe	P

Appendix 18 – Daily Updates and Overtime Template

HSU Team - Daily updates and Overtime Work plan 10-12_07_2017									
Task	Activities/ Total EAs/ printing required/ Average Estimates	Province	Officers to Involve/ Monitor	Scheduled targets					
				Start date	Start Time for overtime	Target date	Clock off		
1	Monitoring officers to check with Respective ACs the updates of HC Summary Worksheets via EAs for their <u>individual monitoring WP during Actual Census Operation</u> on; (<i>expected days of data synced, no. of questionnaires expected in a day</i> , etc.	Rewa, Ra, Ba, Bua & Cakaudrove	Tupou, Poasa, Sainimili, Harieta (All ACs for Rewa, Ra, Ba, Bua and Cakaudrove provinces) (<i>Monitoring officers - Kelera, Sereima, Vane and Alipate</i>)	10/7/2017	4.30pm (Daily), 4pm (Friday), 8am (Saturday)	12/7/2017	7pm (Daily), 6.30pm (Friday), 5pm (Saturday)		
2	<i>Final checks, consolidation and conversions of EA Maps for Rewa, Ra & Ba, Bua and Cakaudrove (254 EAs Rewa, 70 EAs Ra, 557 Ba, 34 EAs for Bua and 100 EAs for Cakaudrove)</i>				<i>Please strictly follow and plan accordingly the logistics of your daily work plan to maintain the flow of work and avoid unnecessary delays</i>				
3	<i>Send over to level 3 and level 4 officers for the training pacs printing and packing (13/07)</i>								
4	<i>Boundary familiarisation of Rewa, Ra, Ba, Bua and Cakaudrove provinces for respective ACs</i>								
5	<i>Wrap up of Head Count Exercise</i>								

Appendix 19 – Half Day Refresher Training

ACTIVITY SCENARIOS

Scenario 1

Address – 6 Queens road, Navua, Tikina Serua and Province Serua

Household Number - 011

EA Number – 13 02 1 700 8

Household Roster:

There are 3 adults and no children living the household.

1. Male (Joseva Rosa, 62 years old, DOB 13/01/1955) is the head of the household and husband to
2. Female (Rusila Rosa, 59 years old, DOB 13/06/1958) is married to Joseva Rosa
3. Female (Sarah Tikko, 55 years old, DOB 05/02/1962) is sister to Rusile Rosa

Module D info:

1. Joseva Rosa – retired pensioner, but also selling fish to make some money for the household as well as put food on the table at home. He does not consider his work as a business, but he spends time catching fish, keeping some for own consumption and selling a small amount of his catch on Queens Rd for an hour each night during the last 7 days.

2. Rusila Rosa – full time domestic duties and engaged in subsistence fishing work to support the sale of fish by Joseva. She helps clean the fish for sale, but does not sell them or get any pay, but she does benefit for being able to buy some extra things for the house because of selling more fish.

Rusila spent most of her time in the last 7 days doing home duties, and she would not be available for any kind of other work.

3. Sarah Tiko – is the same as Rusile. She is engaged with home duties and not looking for a job in the future.

Scenario 2

Address – Bua Lomanikoro, Tikina Bua, Province Bua

Household Number - 002

EA Number – 02 01 0 000 0

Household Roster:

There are 2 adults and 3 children living the household.

1. Male (Ratu Isikeli Seru, 35 years old, DOB 12/11/1982) Head of the household and husband to
2. Female (Alumita Seru, 35 years old, DOB 01/05/1982) = wife to Ratu Isikeli
3. Child1 (Ratu Timoci Seru, 16yrs, DOB 15/04/2001) = child of Spouse
4. Child2 (Maria Seru, 12yrs, DOB 15/04/2005) = son to Ratu
5. Child3 (Kelera Seru, 9 yrs, DOB 10/02/2008) = son to Ratu

Module D info:

1. Ratu Isikeli – Owns a business doing Dalo Exporting, he calls his business – Dalo Trade Inc. He does not have any paid employees but spends all his time working towards his own business and does not undertake any other activities in the last 7 days, he spent 40 hours in the last 7 days working in the export business and he works out of a dedicated space in the Village. He pays himself when he can afford to.
2. Alumita Seru – Typist in a school called Lekuti Secondary School, she earns regular income doing this work and she worked approximately 12 hours in the last 7 days in her job as a typist. She also spends time doing home duties, but spends time at work earning a weekly wage for the household.
3. Ratu Timoci Seru- student full time, also doing some unpaid work with his father in Dalo export business. He spent more time at school than helping his dad in the last 7 days.
4. Maria Seru - student full time, also doing unpaid work with his father in business. She spent more time at school than helping his dad in the last 7 days.
5. Kelera Seru – full time student (under 9 yrs), she is the one that helps out with the house work and cooking with her mum.

Scenario 3

Address is – 7 Bula Place, Waiyavi, Vuda, Lautoka, Ba Province
Household number – 117

EA number – 01 07 1 300 3

You can see there is no car out the front, and no washing on the line.

You ask the neighbour and confirm this house is vacant.

Enter the information into the form for a Vacant, Private Dwelling.

Scenario 4

Address is – 10 Queens road, Navua, Tikina Serua and Province Serua

Household number – 013

EA number – 13 02 1 700 8

Household Roster:

There are 5 adults and no children living the household.

1. Male1 (Rajendra Prasad, 35 years, DOB 01/03/1982) = husband to Chopra
2. Female1 (Chopra Prasad, 33 year, DOB 05/01/1984) = wife to Rajendra
3. Male2 (Sujit Prasad, 30 years, DOB 06/04/1987) = Brother to Rajendra
4. Female2 (Regina Prasad, 29 years, DOB 17/05/1988) = Sister-in-law to Rajendra, wife to Sujit
5. Female3 (Charmila Prasad, 60 years, DOB 25/07/1957) = Mother to Rajendra

Module D info:

1. Rajendra Prasad - works as a lab technician, Navua Public Hospital is located at Namelimeli. He was working there in the last 7 days and is paid fortnightly.

2. Chopra Prasad – works as a nursing sister, Navua Public Hospital is located at Namelimeli

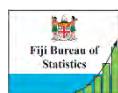

She was working there in the last 7 days and is paid fortnightly.

3. Sujit Prasad - works in Information Technology at Fiji Bureau of Statistics Office, McAurther Street, Suva. He is paid fortnightly.

4. Regina Prasad – cleans the house for the family, cares for the grandma and attends university full time. She does not want any more work.

5. Charmila Prasad – is elderly and does not work anymore.

Appendix 20 – Objectives of the DMEG members to participate and observe the Fiji 2017 Population and Housing Census processes

Fiji 2017 Population and Housing Census

UN BRIEF – 3-4pm (UNDP Conference Rm, Level 8, Kadavu House, Suva.)

Objectives of the DMEG members to participate and to observe the Fiji 2017 Population and Housing Census processes;

1. Create awareness among the DMEG members of what field work and interviewing actually entails;
2. It will give the UN Staff, an idea of the complexity and the enormity of the activity being undertaken during a census to collect data on each and every person residing in Fiji; and
3. Increase knowledge in the data compiling, analyzing and the use of tablet in the process.
4. Not for quality control and all observations was subject to confidentiality

Time	Activity	Participant
3 – 3.10pm	General introduction	UNDAF M&E Manager
3.10 – 3.20pm	Participant introductions	All
3.20 - 3.30pm	Brief overview of the Census process	Salanieta T
3.30 – 3.40pm	Fieldwork Coordination	Kelera N
3.40 – 3.50pm	Clarifications/Questions	All
3.50 – 3.55pm	Oath of confidentiality	UN Participants
3.55 – 4pm	Closing Remarks	UNDAF M & E Manager

Thank you for your interest to participate in the Fiji 2017 National Population and Housing Census.

The 2017 Census Team

Ministry of Economy | Fiji Bureau of Statistics | HSU | Level 2, Ratu Sukuna House | P.O.Box 2221, Government Buildings, Suva
Phone: (679) 3315 822 | Fax: (679) 3303 656 | Web: www.statsfiji.gov.fj

Appendix 21 - Reporting Template for the Pilot Phases

1. AREAS OF COVERAGE

EA NUMBER: 04-02-0-003-0

LOCALITIES: Kadavu village, Nacomo village, Togoni Settlement, Naivimagi Settlement, Burelevu Settlement

2. FIELDWORK PREPARATION

There are 2 villages in this EA with 3 settlements, 1 boarding (Ratu Varani Primary) School, a 2 resort (Matava Resort) and Waya Island. Interviews were planned to be conducted in each village and the 3 settlements. We started off with boundary Id and upon reaching our Pilot EA, we had to ask the Turaga Ni Koro to select the 5 households for the pilot interview.

3. PILOT PHASE 4

Census Night: 02/07/2017

Timeline: 03/07/2017 - 07/07/2017

Household Coverage: Elesi - 5 HH's

Accessibility (Transportation and Costing Challenges):

The pilot EA was only accessible by boat. There were no roads or track that connected the two villages. The only means of transport was by boat. In order to get to the pilot EA, I had to hire a boat from Vunisea Government Station where I was stationed up to Kadavu village and Nacomo village. I was given the Police boat to travel to and from the EA which had cost me \$1040.00 for fuel. For the pilot census, the allocated travelling allowances was enough but for the census operation the assigned enumerator will need more travelling allowances in order to cover the EA.

Communication (Between Supervisor and HQ):

In regards to internet connections, one of the villages (Kadavu), which was selected for pilot, did not have internet connection, so I had to sync the questionnaires out in the sea on my way to the second village (Nacomo) where the pilot census had to be concluded. Taking into account the extra cost of traveling the assigned enumerator will have to pay in order to sync the completed questionnaire during Census.

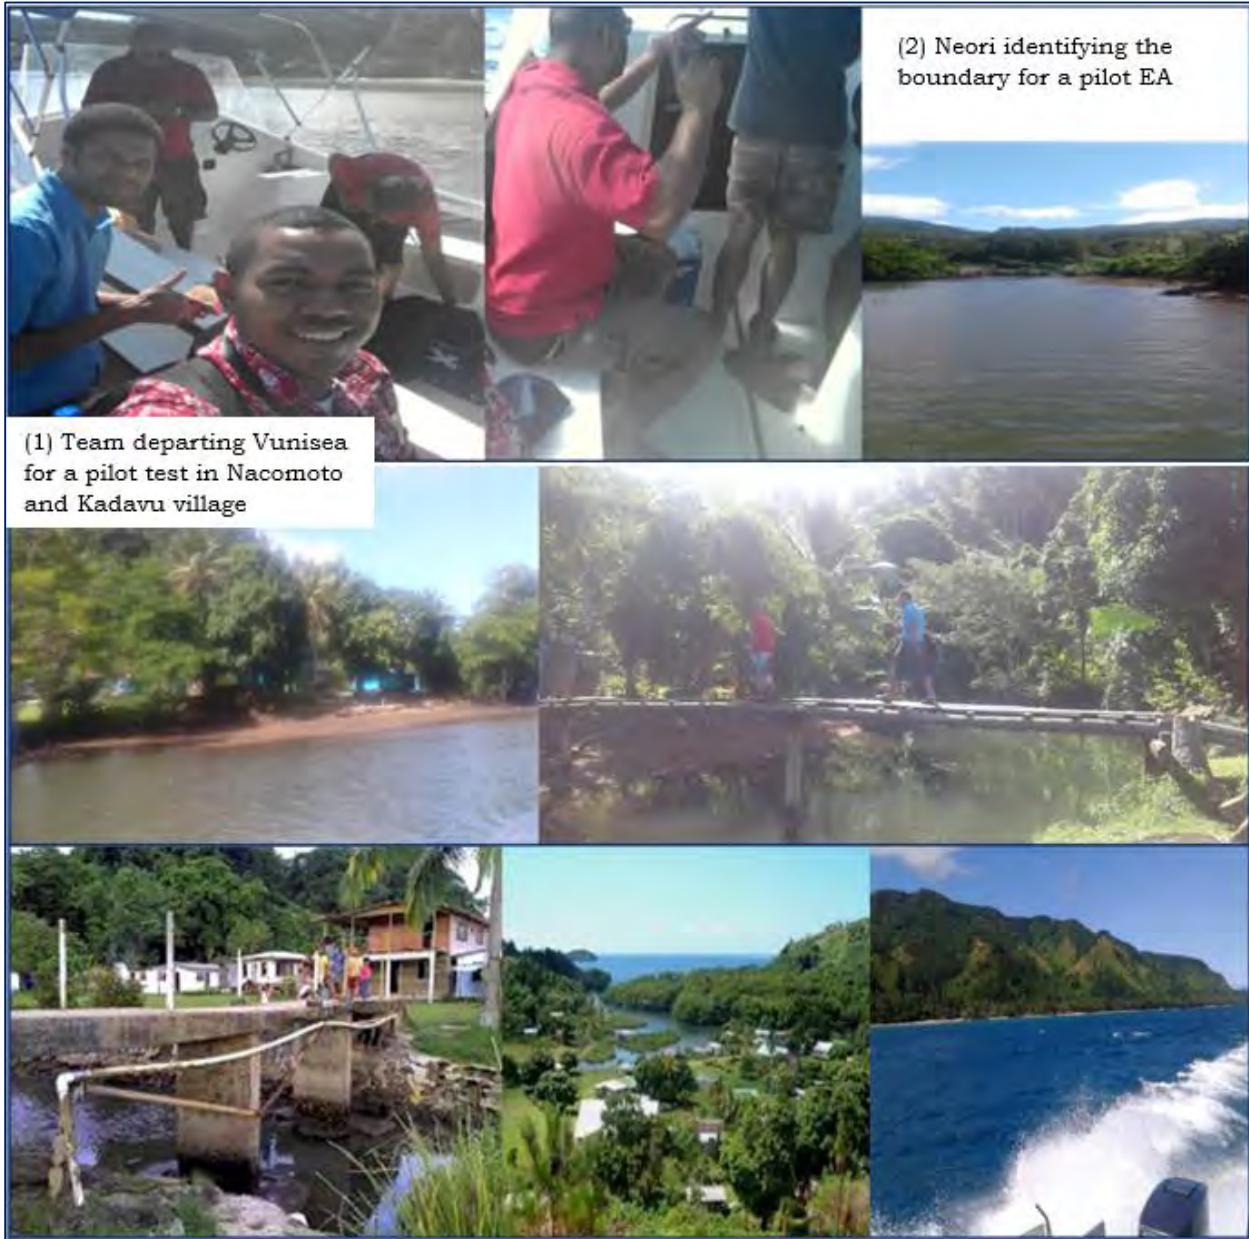

4. QUESTIONNAIRE

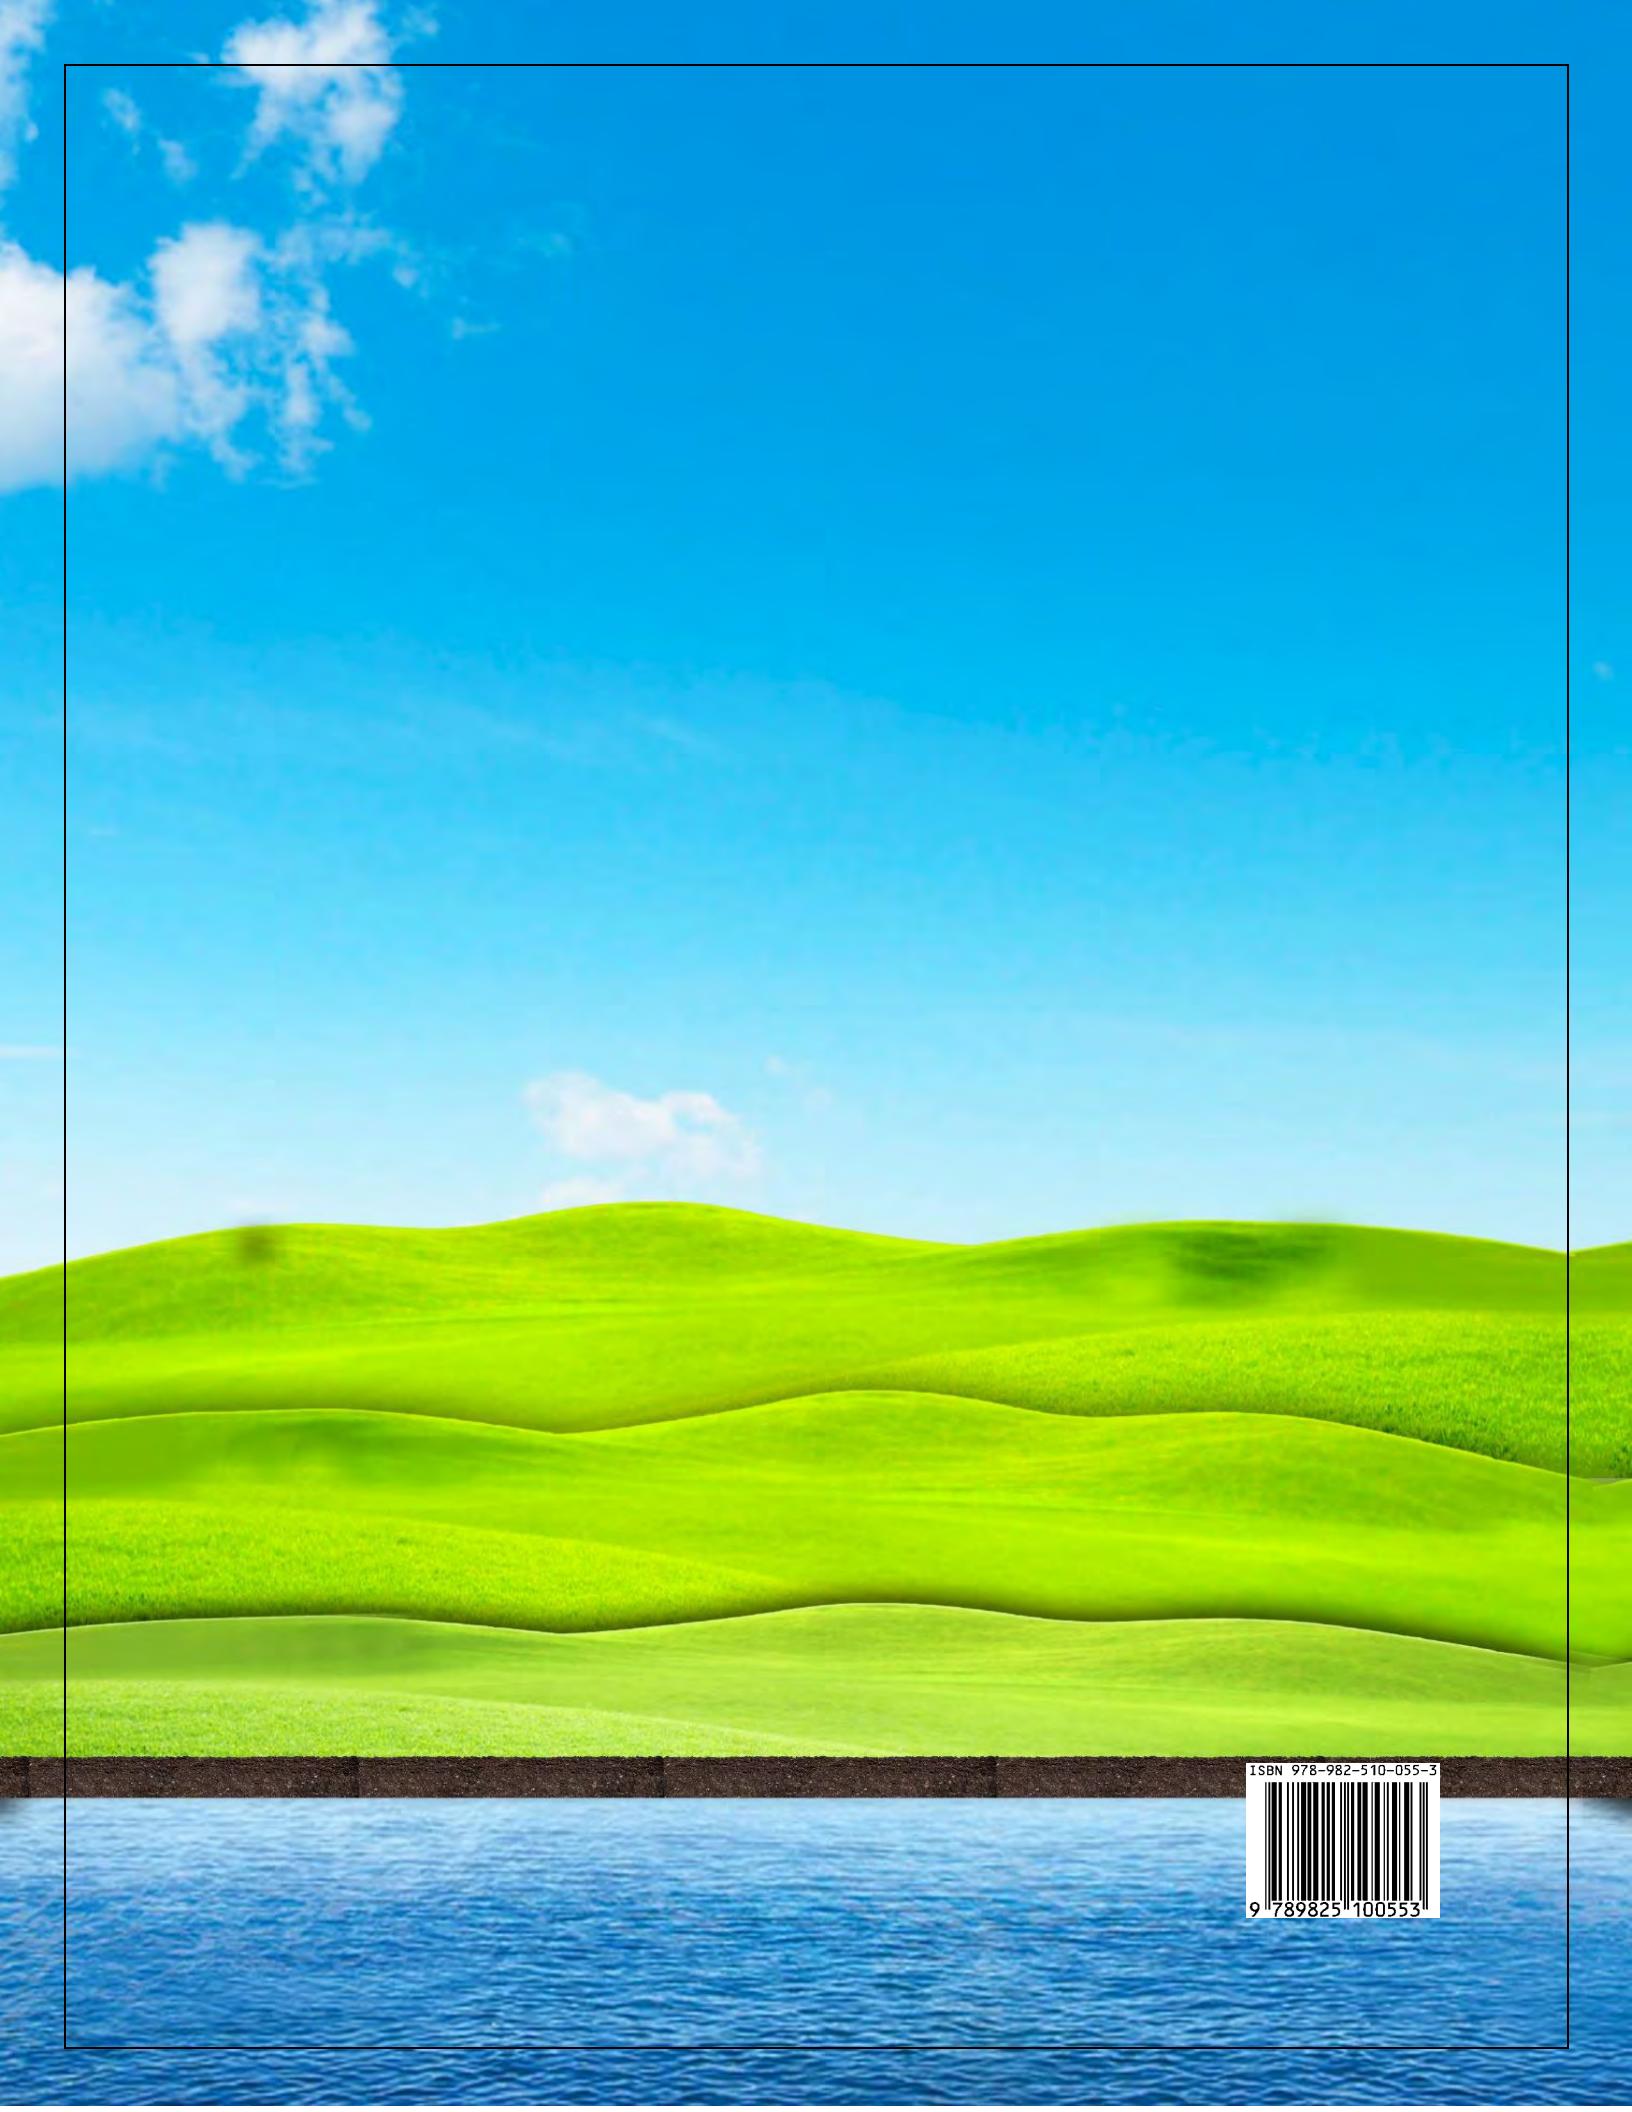

The duration of the interview mostly depended on the number of the household selected to be interviewed. For a household with 3 Hhld members, the average time was 20-25mins. Whereas for a HH with 5 or more members; the average time recorded for interview was 30-35mins. I understood the questionnaire well and at times had to translate it into my own dialect making it easier for the respondents to understand.

5. RECOMMENDATIONS

More travelling allowances should be allocated for this particular EA. This is because the enumerator needs to hire a boat in order to sync the questionnaires out in the sea. In addition, the villages are far from each other and there will be more travelling allowance needed to cover the EA.
